INTRODUCTION

The purpose of this pamphlet is to make clear the operation of the system adopted by the State House Commission for carrying out the provisions of Chapter 68, P. L. 1916, known as the "State Purchasing Act."

Prior to the enactment of the Purchasing Act of 1916 and continuing until October 31st of this year, the power to purchase furniture, equipment, material, supplies, printing and stationery, needed for the several departments, institutions and other subdivisions of the government has been vested in the official, head of department, commission, committee, board of managers or of trustees appointed according to law for the administration of their several divisions of the government. No form of consolidation of purchases has been in effect, and now in New Jersey, with one piece of legislation it is attempted to centralize in a single authority the purchasing of furniture, equipment, materials, supplies, printing and stationery for all of the institutions, departments or divisions of the government. The Act indicates, in Section 3, specifically those things which do not come within the purview of the statute. They are:

First, the erection or construction of any building or additions thereto or alteration or repair thereof, as distinguished from the furnishing or equipment or maintenance thereof;

Second, the construction or repair of any road or bridge;

Third, the performance of any like work.

The inference, therefore, is that everything else comprehended within the purchasing power of any official, commission, board or division of the government is, at least by implication, vested in the State House Commission, which is constituted, in conjunction with the Purchasing Agent, as the sole purchasing power for the state.

This makes the situation difficult, for the reason that many questions arise in connection with the operation of the divisions of the government which were probably not in the minds of the members of the Legislature.

The consolidation of departments which has been effected in the last few years has produced a system of consolidated appropriations, comprehending within them features that are and are not within the purview of the statute creating a central purchasing agency. Likewise, the appropriations made for the operation or maintenance of the institutions comprehend within them features that are distinctly declared by Section 3 of the act to be without the jurisdiction of the Purchasing Board, while at the same time these appropriations are used for the payment of those things which by Section 2 of the act come within the purview of the statute.

Many of the state institutions are credited out of appropriation by allowances for maintenance of inmates, based upon the number of inmates at an established per capita. These allowances are only available monthly, and can only be credited to the drawing account of these institutions as they become due. A number of departments do not receive appropriations from the Legislature, but are allowed to expend the sums collected by them in the way of fines, fees, penalties or receipts for privileges, licenses and the like, that come within their jurisdiction. The uncertainty of the amount of these earnings on the one hand and of the fines, penalties, receipts and the like on the other, makes exceedingly difficult, from a financial standpoint, any plan of purchase.

Another feature of administration quite beyond the scope of a purchasing commission is the traveling expenses of employees, particularly in the Departments of Labor, Health, Conservation and Development, Agriculture and Public Utilities Commission, necessitated by the statutes regulating these departments. This is a considerable factor of cost in the operation of these departments.

The result has been that in order to arrive at a well-defined plan of purchasing and of financing purchases, it has been necessary to make a comprehensive study of the needs of the departments and institutions of the state, and the method of operating, and to formulate a plan elastic enough to meet all of those needs and to be facile of operation without running counter to the many statutes regulating the financial matters of the state and the disbursement of public moneys.

The Appropriation Act has been analyzed, and those appropriations which come exclusively within the control of the separate divisions of the government, and are therefore not available for purchases made by this Commission, are given in detail. The appropriations that are clearly within the scope of the Purchasing Act are also shown in detail, while those appropriations that combine both features have been listed and will be made the subject of consideration between the divisions of the government to which they are credited and the State House Commission, so that the amount available for either purpose may be exactly determined.

The purpose of this pamphlet is to set forth in detail the plan of purchase by the State Purchasing Agent, the financial operations connected with it, decided upon by the Comptroller of the Treasury, the rules and regulations for enforcing both plans adopted by the Commission, with instructions to departments, officials and institutions or subdivisions of the government as to their duties in connection with the same, together with information to vendors showing the method of operation and the requirements they shall have to comply with in purchasing transactions.

The Commission has been much gratified by the willing cooperation of the superintendents and wardens of the institutions, who have conferred repeatedly and at much inconvenience to themselves in establishing standards of quality. These meetings have been held frequently since the creation of the Purchasing Commission. Many standards have been agreed upon, many others are under consideration by the members of the Advisory Board representing the institutions and the Purchasing Commission, which will not be available at the time of the adoption of the schedules for the purchases to be made for the period beginning November 1, 1916, when the act becomes effective. As these standards are established they will be incorporated in subsequent schedules.

The periods for which purchases will be made, as established by the Commission, are two in number:

First, one period of thirty days, from November 1 to November 30, 1916.

Second, one period of three months, from November 1 to January 31, 1917.

The decision to limit the periods as indicated was made by the Commission as the result of investigation of market conditions and because of the experience of other states. The disturbance of business by the war in Europe has created a situation quite unusual in the markets of this country. Other states have been unable to obtain prices at which many articles can be purchased for a period longer than thirty days. There are a number of articles for which prices may be obtained for a period of three months. The continuance of present conditions seems to preclude the possibility of purchasing but few of the articles needed for a period in excess of three months.

It is regrettable that the Legislature did not see fit to make a larger appropriation suitable for the carrying out of the many objects set forth in the act. The Commission has been hampered by lack of funds with which to secure expert knowledge regarding standards in the preparation of the specifications without entering upon the possibilities of a central warehouse system. In addition, the incorporation of Section 19, whereby the purchase or use of the products of the labor of the inmates of the charitable, reformatory or penal institutions of the state was excluded from the operation of the act, has complicated the work of the Commission, as the sale and use of the products of inmate labor enter largely into the economical operation of many of the institutions. The solution of this problem is now receiving the attention of the Commission, with the hope that it will be achieved before the adoption of schedules for the next period of purchase.

Time and experience and cooperation on the part of all the divisions of the government will determine the value of this legislation, but the system cannot be made perfect unless the Legislature shall provide a capital fund out of which it will be possible to make payment for opportune or seasonal purchases. The establishment of such a fund will likewise make more easy of solution difficulties in the way of financing the plan of purchase, and will inure to the benefit of those institutions whose funds are available periodically, without removing the per capita limitation of their administration. The creation of a "Purchase" fund at the disposal of the "Purchasing Commission" which could be recouped as the earnings of the institutions become available, is the best and soundest plan, financially, of making a central purchase plan a successful one.

Institutions Supported by State or Receiving State Aid

New Jersey provides for the support of defective-minded, criminal and delinquent, sick, aged and blind residents of the state in the following institutions supported in whole or in part by the State. The following are the names, locations, and post-office addresses of these institutions:

PENAL AND CORRECTIONAL.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
State Prison,	Trenton,	Trenton, N. J.
Prison Farm,	Leesburg,	Leesburg, N. J.
Prison Camp No. 1,	Layton,	Layton, N. J.
Prison Camp No. 2,	Monmouth Junction,	Monmouth Junction, N. J.
Prison Camp No. 3,	Norma,	Norma, N. J.
Prison Camp No. 4,	Newton,	Newton, N. J.
New Jersey Reformatory,	Rahway,	Rahway, N. J.
Home for Boys,	Jamesburg,	Jamesburg, N. J.
Reformatory for Women,	Clinton,	Clinton, N. J.
Home for Girls,	Trenton,	Trenton, N. J.

EDUCATIONAL INSTITUTIONS OWNED AND OPERATED BY THE STATE.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
Normal School and Boarding Hall,	Trenton,	Trenton, N. J.
Normal School and Boarding Hall,	Upper Montclair,	Upper Montclair, N. J.
Normal School,	Newark,	Newark, N. J.
School for the Deaf,	Trenton,	Trenton, N. J.
Manual Training and Industrial School,	Bordentown,	Bordentown, N. J.

EDUCATIONAL INSTITUTION RECEIVING STATE AID.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
Agricultural College,	New Brunswick,	New Brunswick, N. J.

EDUCATIONAL DEPARTMENT MAINTAINED BY THE STATE.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
Agricultural Experiment Station,	New Brunswick,	New Brunswick, N. J.

Payments to local boards to aid Industrial Schools:

Newark.....	\$10,000.00 per annum
Trenton.....	10,000.00 per annum
Hoboken.....	7,000.00 per annum
To school districts for manual training.....	210,000.00 per annum

In 1915 the State paid counties and school districts for aid to vocational schools the sum of \$80,000.00. In 1916 the appropriations total the sum of \$120,000.00.

CHARITABLE INSTITUTIONS.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
State Hospital,	Trenton Junction,	Trenton, N. J.
State Hospital,	Morris Plains,	Greystone Park, N. J.
Village for Epileptics,	Skillman,	Skillman, N. J.
Institution for Feeble-Minded Women,	Vineland,	Vineland, N. J.
Colonies for Feeble-Minded Males,	Four Mile,	New Lisbon, N. J.
Sanitarium for Tuberculous Diseases,	Glen Gardner,	Glen Gardner, N. J.

SOLDIERS' HOMES.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
Home for Disabled Soldiers, Sailors, Marines and Their Wives,	Vineland,	Vineland, N. J.
Home for Disabled Soldiers,	Kearny,	Harrison, N. J.

DEPARTMENTS MAINTAINED BY THE STATE FOR THE PROPAGATION OF FISH AND GAME.

<i>Name.</i>	<i>Location.</i>	<i>P. O. Address.</i>
Game Farm,	Forked River,	Forked River, N. J.
Fish Hatchery,	Hackettstown,	Hackettstown, N. J.

INSTITUTIONS RECEIVING STATE AID.

The following County Hospitals for the Insane are allowed the sum of Two Dollars per week per capita for each indigent patient confined therein:

1. Atlantic County.
2. Burlington County.
3. Camden County.
4. Cumberland County.
5. Essex County.
6. Gloucester County.
7. Hudson County.
8. Passaic County.
9. Salem County.

The following County Hospitals for the care of Tuberculosis Patients are allowed the sum of Three Dollars per week per capita from state funds as appropriation is made by the Legislature.

1. Camden County.
2. Hudson County.
3. Morris County.
4. Union County.
5. Essex County.

Feeble-minded males and females are maintained in the following institutions out of the state funds:

1. New Jersey Training School, Vineland, N. J.
2. Pennsylvania Training School, Elwyn, Pa.

Blind residents of the state are maintained in the following institutions out of state funds:

1. Arthur Home for Blind Babies, Summit, N. J.
2. Normal School and Boarding Hall, Trenton, N. J.
3. New York Institution for the Blind.
4. Pennsylvania Institution for the Blind.
5. Catholic Institution for the Blind, New York City.

Comptroller's Financial Plan

COMPTROLLER OF THE TREASURY, TRENTON, N. J.

TO THE GOVERNOR, STATE TREASURER, AND STATE COMPTROLLER, CONSTITUTING THE STATE HOUSE COMMISSION, OPERATING UNDER CHAPTER 68, P. L. 1916.

GENTLEMEN :

In accordance with the wishes of your Commission and in compliance with the act of the Legislature in providing, by Chapter 68, P. L. 1916, that your Commission act as a Purchasing Commission, I am presenting herewith a method by which the plan of purchase prepared by the State Purchasing Agent, and submitted herewith, may be adjusted to the financial methods and limitations of the State.

Before presenting this plan it is necessary that some explanation be made regarding the difficulties in the way of financing any plan of purchase. It is to be regretted that the Act does not set up the necessary machinery for its own financing, thereby making more difficult of operation any plan of purchase established in accordance with its provisions. These difficulties have been increased by other legislation enacted at the same session of the Legislature. The difficulties in the act itself are that while it sets forth specifically those things which the Purchasing Commission and the State Purchasing Agent cannot do, it does not clearly vest jurisdiction in the Commission over many things that should be done.

In the administration of the state government there are many problems incident to the operation of the act that are not clearly stated as within its provisions. I refer particularly to those things that may be classified under the heading, "Service." Telephone, telegrams, freight, express and mileage are either a "communication" or a "transportation service." They are not exactly a supply. However, as the act definitely describes those things which are outside of its pale, it must be assumed that all other things should be dealt with by the Purchasing Commission unless it seems to the Commission to be better business to continue their administration under the direction of the several divisions of the government.

The Act provides that the State House Commission and the State Purchasing Agent, in the performance of their duties, shall be subject to the provisions of all of the laws of the state applicable to the expenditure of public moneys not inconsistent with the Act. This restricts the Commission and prevents its adoption of a plan of purchase best suited to the unusual conditions existing in business at the present time in this country, due to the war in Europe. The constantly changing prices of commodities of every description and of manufactured

articles makes it exceedingly difficult to obtain proposals whereby a price may be established for a definite period in excess of three months. In some cases prices cannot be obtained for a period extending beyond thirty days.

The Requisition Act of 1914 was essentially a purchasing act. It did not confine the powers of purchasing to a single agency, but it was made so adaptable to the needs of all of the departments and institutions of the state that it was workable. While it kept the disbursements within the appropriation limits, it provided an easy means of incurring obligations legally by the several divisions of the government, at the same time allowing them to retain within their control the right of purchase for their own division of the government.

During the session of the Legislature just closed legislation was enacted to immediately restrict the operation of this act by relieving the Comptroller of any supervision over requisitions except as to whether the amount of the requisition was within the appropriation or allowances for each department, institution, commission, committee, official, board or body of the State by whom the requisition was made; also to prohibit the Comptroller from having regard to the purpose for which the requisition was made, or the cost, price, character or manner of purchase of the articles mentioned in the requisition. In addition, the legislation provided that no requisition should be required for any salary or compensation that had been previously fixed and ascertained by law and which was covered by any annual or supplemental appropriation. The act was passed and is known as Chapter 3, P. L. 1916, but its operation was postponed until November 1st, 1916, by Chapter 283, P. L. 1916.

The act creating the office of Comptroller imposes upon him the discretion of making payment or rejecting any account submitted to him, for good and valid reasons. The basis for the rejection of a claim may be the fact that the purpose of expense is not within the scope of the appropriation, or that the method of purchase is a violation of an existing criminal statute, yet, by Chapter 283, P. L. 1916, the Comptroller will be compelled to countersign a requisition, if there are sufficient funds, when he may know that when the bill is presented he will have to reject it for the reason that it is not a proper charge against the appropriation, or has been illegally incurred.

To establish a proper purchasing system your Commission and the State Purchasing Agent must have both cash and credit. The Legislature appropriated for the operation of the Purchasing Act the sum of Five Thousand Dollars. At the same time it provided that the salary of the Purchasing Agent should be Five Thousand Dollars per annum, the result being that the sum of about Two Thousand Dollars was made available, over and above the salary of the Purchasing Agent, for the creation of a purchasing system, which is an amount insufficient for the payment of salaries for proper assistants. This situation was met by consolidating the Bureau of Audit and Requisition of the Department of the Comptroller of the Treasury with the Purchasing Department by an agreement between the State House Commission and the Comptroller of the Treasury, in accordance with the provisions of Chapter 49, P. L. 1916.

No warehouses can be leased or contracted until appropriation is made therefor by the Legislature.

Your Commission is authorized to use existing state laboratories in determining proper standards, but is required to pay the cost of the work performed by these laboratories.

Furthermore, the act in addition to the section already referred to, which subjects all disbursements to the provisions of all the laws of the state applicable to the expenditure of public moneys not inconsistent therewith, declares that it shall not be construed to alter, amend, or repeal any provisions of any law of the state relating to the purchase or use of the products of the labor of the inmates of any charitable, reformatory or penal institution of the state. It is true that it also provides for the making of agreements for purchases in the form of contracts for the furnishing of specific articles at fixed prices or for the furnishing of articles according to the specifications at a fixed rate, with provision for a minimum amount subject to increase at the same rate, or for the furnishing of articles according to specifications without a stated minimum or maximum, at a rate stated, commonly known as price agreements; but these agreements cannot be made until the futility of advertising has been demonstrated or at least only after action by the State House Commission, (Chapter 170, P. L. 1915. Chapter 68, P. L. 1916, Section 13).

A survey of the situation by the Purchasing Agent and myself made it clear to us that in any plan for purchasing that was submitted to your Commission for adoption it was incumbent to provide:

First, that as many articles, the need of which could be anticipated, must be included in the schedules submitted to your Commission by the Purchasing Agent for adoption;

Second, that it was the duty of the Commission to establish as many standards as it possibly could for the first schedule;

Third, that the purchases in the open market could not be made until after it was demonstrated that contracts could not be entered into, due to the non-receipt of proposals from dealers.

It is my judgment that the procedure heretofore practised of obtaining the permission of the State House Commission, as provided in Chapter 170, P. L. 1915, would be required in order that the Purchasing Agent might buy in the open market, and in that event he could only enter into contracts or agreements for purchases at a fixed price, where the total amount involved exceeds the sum of One Thousand Dollars (\$1,000.00) and it was possible to establish the price to be paid.

Fourth, since, in my judgment, Chapter 283 of the Laws of 1916 makes it impossible to continue the credits given the earning institutions in excess of monthly allowances, that such institutions would be restricted to a system of monthly purchases until the Legislature provided a working capital fund. If the Legislature had appropriated a sufficient sum of money for the Purchasing Agent to make use of for seasonal purchases, or with which he might take advantage of market conditions and by purchasing at low prices at opportune periods store goods in warehouses for the use of the institutions or departments of the state, recouping this fund by apportioning the cost of these articles when these divisions of the government were in funds, the problem would be easy of solution.

However, it is our duty as officials to carry out the intention of legislation as far as possible with the means at hand.

The Purchasing Agent is submitting a report outlining the plan of purchases to be made in accordance with the statute, together with tentative rules and regulations whereby the departments and institutions may be required to cooperate in the working out of the system formulated by him, and at my suggestion he has incorporated therein, as a part of such rules and regulations, the financial features of the plan as outlined by me.

The practice has been for the Legislature to make many appropriations for departments and institutions in such manner that within the one appropriation were comprehended, in the case of departments, the salaries and wages of employees, as well as operating expenses. The latter would include many things, such as supplies, materials, equipment, printing and stationery; also, traveling expenses of the employees, freight, expressage, overdue postage, telegrams, telephone tolls, etc. In the case of institutions, maintenance appropriations have included within them in many cases provision for the salaries and wages of employees, the making of repairs, and the purchase of necessary equipment, supplies, furniture, printing and stationery, etc.

The plan of financing the purchasing system contemplates the establishment of a requisition reserve in which will be credited to the Purchasing Commission and made available for disbursement under its direction:

First, all the appropriations separately made for furniture, equipment, materials, supplies, printing and stationery;

Second, the amount included in consolidated appropriations which will be determined by the divisions of the government to be available for the purposes of the Purchasing Act.

In the first case these amounts are easily determined, as they are made specifically in the Appropriation Act.

In order to arrive at the amount that will be available under the second class for the purchase of those things within the purview of the Purchasing Act which are included in consolidated appropriations involving salaries and wages, traveling expenses, repairs of such a character that they require the preparation of specifications and the execution of contracts with the consent of the Governor, and the purchase of furniture, equipment, materials, supplies, printing and stationery, budget estimate forms have been prepared and forwarded to departments, institutions and divisions of the government having appropriations involving the features referred to. A copy of the form of budget estimate and also of the letter of instructions to the divisions of the government is submitted herewith.

—FORM OF BUDGET ESTIMATE AND LETTER.—

STATE OF NEW JERSEY

STATE HOUSE COMMISSION.

August 26, 1916.

Chapter 68, P. L. 1916, provides for the purchase after November 1, 1916, by this Commission and the State Purchasing Agent of all furniture, equipment, materials, supplies, printing and stationery needed for use by the various subdivisions of the government.

An examination of the appropriations available after November 1st, 1916, shows that appropriations of your division of the government have been so made that this Commission cannot determine the limitation of expenditure possible under the operation of Chapter 68. Enclosed you will find a copy of the appropriations referred to.

In a few days a budget estimate plan will be forwarded to you so that you may indicate thereon the following:

1. The amount needed for the year beginning November 1, 1916, and ending October 31, 1917, for salaries and wages in your division of the government.
2. The amount needed during the same period for traveling expenses.
3. The amount needed for repairs and replacements.
4. The amount available for the purchase of the articles designated in the Purchasing Act.

This statement must be filed by the proper approving officers of your division of the government, and when filed will establish the limitation for the divisions of expenses so budgeted.

This notice is given to you so that you may prepare these budget estimates and indicate them on the form when it is sent to you. In this way, the State House Commission can come into possession of this information, which is absolutely needed for the operation of the act under which the Commission is directed to make purchases of furniture, equipment, materials, supplies and printing and stationery for all the departments and institutions of the State.

Very truly yours,

E. J. EDWARDS,
Secretary, State House Commission,
Operating under Chapter 68,
P. L. 1916.

Original—S. H. C. Copy.
Duplicate—Comptroller's Copy.
Triplicate—Copy for division government making budget.

BUDGET ESTIMATE FORM.

Referred to in notice dated August 26th and adopted by State House Commission operating under Chapter 68, P. L. 1916.

State of New Jersey.

.....19.....

State House Commission, Trenton, N. J.:

GENTLEMEN:—In accordance with the rules and regulations of your Commission, operating under Chapter 68, P. L. 1916, the
(Official, Department, Institution, Etc.)
ha budgeted the appropriation known as Item....., Chapter 289, P. L. 1916, and do hereby set aside the amounts hereinafter indicated for the purposes set forth herein, to wit:

<i>Appropriation.</i>	<i>Item No.</i>	<i>Account No.</i>	<i>Amount.</i>
.....	\$.....
(Title.)			
<i>Receipts—Title.</i>	<i>Account No.</i>	<i>Amount 1915.</i>	<i>Amount.</i>
.....	\$.....
(Estimated.)			

Total—Available for operating or maintenance..... \$.....

In the case of a department or institution credited by statute with receipts in addition to appropriation, the account number will be the same in both lines. In the case of a division of the government entitled to be credited with collections only, "appropriation" line is not to be used. Use "receipts" line only.

- A. Salaries and Wages..... \$.....
- B. Repairs requiring Specifications, Advertisement, Contract and Governor's Approval..... \$.....
- C. Traveling Expenses..... \$.....
- D. Supplies \$.....
- E. \$.....
- (Not otherwise provided.)
- Total \$.....

It is hereby agreed that the amounts set forth above shall be the limitation of expense for each subdivision, unless increased or decreased by resolution of your Commission.

(Signed)

.....
(Official, Department, Institution, Etc.)
.....
(Title.)

.....
(Title.)
NOTE.—Requisitions on regular forms should accompany comptroller's copy, covering amounts and purposes of divisions A, B, and C, also E if used.
In case of official, above must be signed by department head; in the case of a commission or board, the signatures of the president and secretary will be sufficient.

.....19.....

To the Comptroller of the Treasury:

SIR:—You are hereby advised that the appropriation known as Item No....., Chapter 289, P. L. 1916, has been budgeted as indicated above, and you are authorized to set up and establish the amounts indicated as the limitation of expense for the purposes indicated, unless changed by resolution of the State House Commission.

(Signed)

.....
(Title.)

Approved 191.... State House Commission. Chapter 68, P. L. 1916.
(Date.)

.....
Secretary.

.....
President.

It is absolutely essential that these budget estimates be established, otherwise it will be impossible for the Purchasing Commission or the State Purchasing Agent to prepare schedules based upon detailed applications from those departments and institutions with any knowledge of the total amount available for the payment of the same.

The budget estimates of the sub-divisions for salaries and wages, for repairs and for traveling expenses should be definitely ascertained and limited to the requisition covering the same, unless changed with the consent of your Commission.

It is manifest that if these departments or institutions have separate appropriations for furniture, or for equipment, or for material outside of the maintenance appropriation they will be available for the use of the Purchasing Agent and the benefit of the departments and institutions. The same is true if there are separate appropriations for printing and stationery.

On the filing of the Budget Estimates, the amount remaining in the maintenance or operating appropriation after the salaries and wages, repairs and traveling expenses have been budgeted, will be available for supplies. The Requisition Reserve for disbursements for purchases made under the direction of your Commission can then be established by including therein both specific appropriations and the amounts indicated as available in the budget estimates.

An analysis of the appropriation act for the year beginning November 1, 1916, shows that the following departments and institutions have come within the category referred to, and their appropriations will have to be immediately budgeted out.

The following appropriaions are to be budgeted.

EXECUTIVE DEPARTMENT.

For postage, expressage and other incidental expenses for the executive department, two thousand dollars.	Incidentals	1 E
---	-------------	-----

OFFICE OF THE COMPTROLLER.

DEPARTMENT OF AGRICULTURE.

For the State Board of Agricul- Purposes Chapter 268,
ture, twelve thousand dollars; *pro- Laws 1916 79 A*
vided, that if a bill now pending en-
titled "An act to establish a Depart-
ment of Agriculture and to prescribe
its powers and duties," shall become
a law, this appropriation shall be
deemed to have been made for the ef-
fectuation of the provisions of said
act;

For the State Board of Agriculture,
for the purpose of carrying out the
provisions of an act to prevent the
introduction into and spread of in-
jurious insects in New Jersey, to pro-
vide a method for compelling their
destruction, to create the office of
State Entomologist, to authorize the
inspection of nurseries and to provide
certificates of inspection, and the
amendments thereof and supplements
thereto, seven thousand dollars; *pro-
vided*, that if a bill now pending en-
titled "An act to establish a Depart-
ment of Agriculture and to prescribe
its powers and duties," shall become a
law, this appropriation shall be
deemed to have been made for the
effectuation of the provisions of said
act;

For the purpose of carrying out
the provisions of chapter fifty-four,
laws of one thousand nine hundred
and eleven, and the amendments
thereof and supplements thereto, six
thousand dollars; *provided*, that if a
bill now pending entitled "An act to
establish a Department of Agricul-
ture and to prescribe its powers and
duties," shall become a law, this ap-
propriation shall be deemed to have
been made for the effectuation of the
provisions of said act;

For the purpose of carrying out the provisions of chapter sixty, laws of one thousand nine hundred and eleven, and the amendments thereof and supplements thereto, two thousand dollars; *provided*, that if a bill now pending entitled "An act to establish a Department of Agriculture and to prescribe its powers and duties," shall become a law, then this appropriation shall be deemed to have been made for the effectuation of the provisions of said act;

There shall be paid from the income of the school fund such sums required to pay premiums and accrued interest on bonds purchased by the trustees for the support of public schools.

Premiums and Accrued Interest 2 School

The 1917 Appropriation Act contains an appropriation made to the Manual Training and Industrial School for Colored Youth, which is difficult of construction, in the light of the Purchasing Act, which declares that nothing contained therein shall apply to the erection or construction of any building, or addition thereto, or alteration or repair thereof, as distinguished from the furnishing or equipment or maintenance thereof, nor to the performance of any like work. This appropriation reads: "For materials for permanent improvements, work to be done by the students as part of their industrial training." The amount involved in this case is only One Thousand Dollars, but an appropriation so worded might prevent your Commission from purchasing the materials comprehended within its scope, and therefore I advise that the matter be brought to the attention of the Legislature, so that it may hereafter definitely state its policy.

When the detailed applications required by Section 12 of the Purchasing Act have been filed with the Purchasing Agent, and the schedules prepared by him and submitted to your Commission for consideration, the Commission is required to immediately requisition the State Comptroller for the amount of money estimated to be necessary to defray the cost thereof, indicating the appropriation against which the proposed purchases will be charged.

It was undoubtedly the intention of the authors of the Purchasing Act to require all departments and institutions to comprehend within the detailed schedules required by Section 12 everything needed for their use during the contractual period fixed by your Commission.

This department, in the operation of the Requisition Act, required and urged departments and institutions to budget out their appropriations and make proper requisitions therefor, as otherwise it seemed impossible for these departments and institutions to comprehend at any one time everything needed by them during any period. As the divisions of the government gradually formed the habit of budgeting their expenses during the operation of the Requisition Act, they found it possible to anticipate every expenditure, even emergencies, but they were never required to make estimates and file requisitions before they received bids. It does not seem possible that your Commission will be able to **comply with this** provision in the statute at the time the schedules are before you for consideration and at the time of their adoption. You will be entirely without information as to the actual market cost of the articles listed thereon. I have therefore prepared a form of requisition estimate to be filed by your Commission in compliance with this section of the statute. I am submitting it herewith.

I am frank to say that I do not believe it will be of any value. It should, however, be filed with the Comptroller of the Treasury; in order to comply with the act. I advise, however, that upon the receipt of the proposals to furnish the articles listed on the schedules adopted by your Commission, and the award of contracts, they be followed up with requisitions made by the Purchasing Agent upon the Comptroller estimating the amount necessary to defray the cost thereof, and indicating the appropriations against which the proposed purchases are to be charged, based on the prices submitted by vendors to your Commission. The requisition reservation will then be made more intelligently than the way the statute provides, as the prices bid, upon which the awards of contract will be based, will be defined.

Herewith find form of estimate to be made by the Purchasing Agent in connection with schedules adopted by your Commission. The form of schedules will be found in the Plan of Purchasing submitted by the Purchasing Agent.

When we have arrived at this point the situation will be that the books of the Comptroller will show by the Appropriation Reserve and the Budget Estimate Reserve the total Requisition Reserve available for use by the State House Commission and State Purchasing Agent.

The Purchasing Agent, having requisitioned the amount shown by the detailed applications at the prices bid or established necessary for each department, will advise the Comptroller of the Treasury of the total amount involved in the contracts affecting each department and institution, and from the requisition reserve which will comprehend the total amount available for purchases by your Commission and the State Purchasing Agent, a contract reserve will be set up against which will be charged the total amount of the contracts entered into by the Purchasing Agent. The balance will be available for purchases other than contract purchases of articles listed in the detailed applications submitted and approved by your Commission, but for which no contracts have been entered into, either by reason of the fact that no bids were received, or that it was impossible to contract for the same; and all articles that may, perchance, not be listed or enumerated among the needs of the institutions or departments for the contractual period, when requisitioned upon the Purchasing Agent, may then be included in a requisition to be filed by him and charged against this requisition reserve.

Herewith is submitted a form of contract reserve for this purpose.

This disposes of the financial features of the Plan of Purchase, with the exception of the Petty Cash feature of Institutional management and the detail of payment of obligations as they are incurred, the method of pre-audit, audit and payment. All of these are detailed in the Plan of Purchase. The Petty Cash situation follows.

PETTY CASH.

The existing statutes provide that any department or institution of the state receiving from the state for its maintenance an annual appropriation of state funds may, for the purpose of paying such current expenses of maintenance, requiring a prompt cash outlay, establish a petty cash expense fund. This fund has been used in the past for the purchase of small articles required for maintenance and for wages for discharged employees. The labor problem in the institutions has been a serious one. In one institution quite recently the amount involved in payments to discharged employees in one month aggregated upwards of \$1900.00. At the same time there have been abuses in the use of this fund, and some institutions have made disbursements for items that were not properly chargeable to the Petty Cash Account.

I have gone over this situation very carefully, and I am satisfied that this fund should be divided into two parts. The institutions should be allowed a petty cash fund for discharged employees, which should be included in the estimates made by them and heretofore referred to as the budget estimate for salaries and wages. This should be made directly to these institutions for use for this purpose.

In order to establish a petty cash fund for the purpose of making purchases requiring immediate cash payment,—the other use of this fund, I will fix the amount in the case of each institution according to its needs for both purposes, within the limitations of the statute. The amount so fixed will be divided as outlined, and charged to its appropriate division in the Budget Estimate; in the first instance being charged to the Budget Estimate amount for "Salaries and Wages," and in the second to the Budget Estimate amount for "Supplies."

I am quite satisfied that no institution in the state needs for maintenance purposes solely a petty cash fund exceeding \$250.00. The largest institution in the state,—the State Hospital at Morris Plains, very rarely needs cash in excess of that amount, although it uses the largest sum of petty cash for payments to discharged employees. Institutions will, therefore, requisition for petty cash in a sum not to exceed \$250, in addition to the amount needed for payments to discharged employees.

(Following is the form for Petty Cash)

In triplicate—

1. Using Agency.
2. Comptroller.
3. "

STATE OF NEW JERSEY,

PETTY CASH EXPENSE FUND.

Pursuant to Chapter 262, laws of 1915, and subject to the conditions thereof, application is hereby made to the Comptroller of the Treasury for the purpose of a

.....191...

Petty Cash Expense Fund as contemplated by said act, for an amount not exceeding....., as per resolution of the management of the.....passed at a meeting thereof held....., 191....

The amount necessary for the payment of wages to discharged employees will be\$/100 Dollars

The amount necessary for disbursements requiring immediate cash payment will be\$/100 Dollars

The total will be\$/100 Dollars

(Secretary.)

(Title and address of fiscal officer to whom check shall be sent for payments to discharged employees.)

The check for petty cash disbursements on account of maintenance shall be sent to the State Purchasing Agent, Trenton, N. J.

After the schedules prepared by the Purchasing Agent have been advertised and contracts entered into, it appears to be the intent of the Purchasing Act that the requisitions shall be made upon the Purchasing Agent. As it is expected that by November 1st he will have filed requisitions covering the total amount of contracts, thereby setting up a contract reserve, it will be unnecessary for him to make further requisition on this department for contracts until he has exhausted the amount of the contract reserve during the first contractual period, except for non-contract purchases which will be charged against the amount that is set aside in the requisition reserve, covering both the contract reserve and the balance of the amounts available for purchase by your Commission. The purchasing will then be entirely confined within the purchasing department.

As the Requisition Act had developed the necessity for a pre-audit of transactions, and as that would naturally come within the scope of the purchasing department, this work engaged the attention of the Bureaus of Audit and Requisition of the department of the Comptroller of the Treasury. Invoices of shipments to divisions of the government are forwarded to those Bureaus on receipt of purchases. By the consolidation of these bureaus with the Purchasing Department, already referred to, the possible duplication of work will be prevented.

The details of this consolidation will be worked out in a comprehensive manner with your Commission, involving, as it does, transfer of employees and of balances in appropriation.

The purchasing plan, after the purchases have been made, has been so co-ordinated to the plan previously in effect by the operation of the Requisition Act, as to involve as little disturbance of conditions between financial officers and institutions and departments as it was possible to make.

There are two other financial features difficult of solution in connection with the purchasing plan. Both of them are due to the fact that the following institutions are supported by earnings which are available monthly:

- State Hospital, Trenton,
- State Hospital, Morris Plains,
- Home for Girls,
- Reformatory for Women,

State Institution for Feeble-Minded,
State Board of Colonies for Feeble-Minded Males.

The statutes governing the administration of these institutions provide that they shall be made allowances at specified rates by reason of various classifications of inmates, based upon the period of innacy, or for inmates at per capita rates. It is further provided by statute that these allowances shall be available monthly. Chapters 3 and 283 of the Laws of 1916 prohibit the Comptroller from approving requisitions in excess of the available cash balances to the credit of institutions and departments. Unless these institutions begin the year with a cash balance their margin of credit is small until sufficient time has elapsed after November 1st of each year to permit them to accumulate their allowances.

The Purchasing Agent cannot, therefore, include in these schedules the estimated amount of articles needed by these institutions, except with the provision that payments therefor can only be made monthly. Until legislative action relieving this condition can be had, it has seemed to be best to base their transactions upon the prices obtained by competitive bidding, based on estimates for similar institutions. Likewise, the Board of Fish and Game Commissioners, the Boarding Schools at Trenton and Montclair, and those appropriations of the Agricultural Experiment Station which are based on receipts, cannot be anticipated, and their transactions will be handled in the same manner as those of the earning institutions, credit being given only when cash is available.

After the purchases are made by the Purchasing Agent and orders are issued for delivery of goods or supplies to any of these institutions or departments, the transactions cannot be advanced to payment in the same manner that the transactions made by the Purchasing Agent in connection with institutions or departments whose appropriations are immediately available, as unless there is a cash balance to their credit the bills cannot be paid. The accounts will have to be held, therefore, until the money is in hand and the transactions closed, as at present, on schedules. Payment can be made monthly as the allowances to which the Institutions are entitled by the earning feature of their administration become operative. In the case of receipts, the situation is similar, credit being given monthly as receipts are deposited in the State Treasury in accordance with the statute.

The solution of the difficulties created by these features of administration can be made easy, as already indicated, by the creation of a Purchasing Fund out of which purchases may be made for cash,—the fund being recouped on the apportionment of the cost of the purchases—immediately, where balances are available, and monthly as the earning or receipt divisions of the government come into funds.

The appropriation of this Fund is essential to make the Plan of Purchase and its financing successful and workable in all its features. It is the duty of the Legislature to make it in the interest of the State.

(Signed)

August 25, 1916.

E. I. EDWARDS,
Comptroller of the Treasury.

TO THE GOVERNOR, STATE TREASURER, STATE COMPTROLLER,
EX OFFICIO, CONSTITUTING THE STATE HOUSE COMMISSION.

GENTLEMEN :

A survey of the state institutions and a study of the systems of purchase in force in other states have convinced me that the plan which has been formulated and which I am herewith presenting to your Commission as the method of purchasing, in accordance with the provisions of Chapter 68, P. L. 1916, is the most effective and practical one that can be adopted by your Commission while the present conditions obtain.

The lack of warehouse facilities at the command of your Commission and the Purchasing Agent, due to the fact that the Legislature did not provide an appropriation for this purpose, together with the restricted storage accommodations, refrigerator capacity, and refrigerating conditions now existing in the institutions and departments, prevents the presentation of a plan whereby the transactions involved by the establishment of a purchasing system might be amplified with more economical and advantageous results than in the one proposed.

The additional difficulty with which your Commission and the Purchasing Agent are confronted, through lack of appropriation for making purchases for cash, prevents the adoption of any system other than the one herewith presented. In addition, the Comptroller will indicate to you the financial difficulties met in arranging for the financing of any purchasing system that might be established.

I am also presenting, in another communication, tentative rules and regulations necessary or proper for the execution of the objects of the Act and of the plan of purchase formulated for adoption by your Commission.

PLAN OF PURCHASE.

DETAILED APPLICATIONS.

In accordance with the provisions of Section 12 of the Act, all institutions and departments are required to file with the State Purchasing Agent detailed applications for furniture, equipment, materials, printing, stationery and supplies, for the periods specified by your Commission. I have prepared a form of detailed application for use by the using agencies, which is submitted herewith.

The Comptroller and I agreed that the value of this estimate is, to say the least, doubtful. It will be extremely difficult to make a proper estimate before the receipt of proposals, which is the next step after the adoption of schedules by your Commission.

It is the plan, upon the adoption of these schedules, to advertise for proposals in the manner provided by the act, to wit:

"By advertisement for the purpose of making contracts in the manner best calculated to attract competition and advantageous prices, prescribing conditions for delivery, and like details."

I am submitting herewith a form of advertisement, together with a form of proposal showing shipping conditions, regulations covering deliveries, etc.

FISCAL YEAR 1917.

FORM A.

OFFICE OF THE STATE PURCHASING AGENT,
STATE HOUSE,
TRENTON, N. J.

ADVERTISEMENT, INSTRUCTIONS FOR BIDDERS, SHIPPING AND DELIVERY
INFORMATION, SPECIFICATIONS AND PROPOSALS.

ADVERTISEMENT.

SEALED PROPOSALS will be received by the State House Commission at the Assembly Chamber, State House, Trenton, N. J., on.....191....., at 10:30 A. M., for furnishing, as they may be ordered from time to time, as prescribed in specifications for the same, during the period from..... to inclusive, furniture, equipment, materials, supplies, etc. described in the schedule adopted by said Commission for use of the departments, institutions and divisions of the government, copies of which are on file in the office of the Comptroller of the Treasury, Trenton, N. J.

PROPOSALS must be made in accordance with instructions and on blanks which will be furnished on application to the State Purchasing Agent, State House, Trenton, N. J.

STATE HOUSE COMMISSION,

ATTEST:

James F. Fielder, Governor,
Chairman.

E. I. Edwards, Comptroller of
the Treasury, Secretary.

By E. E. Grosscup,
State Purchasing Agent.

INSTRUCTIONS TO BIDDERS.

The Furniture, Equipment, Materials and Supplies described in the Schedule adopted by the State House Commission are divided into classes as follows:

×	Class No.	Name of Class.	Item Nos.	
.....	1.	Table Supplies.....	1-1000
.....	2.	Household Supplies	1000-2000
.....	3.	Clothing and Clothing Material.....	2000-3000
.....	4.	Repairs, Materials, etc.	3000-4000
.....	5.	Farm, Stable and Garden	4000-5000
.....	6.	Heat, Light and Power	5000-6000
.....	7.	Medical and Surgical Supplies	6000-7000
.....	8.	Miscellaneous Supplies	7000-8000

Note.—Bidders are furnished only with specifications and proposals for classes in which they are supposed to be interested. If specifications and proposals for other classes are desired, they will be supplied on application to the State Purchasing Agent.

Proposals must be made subject to the following conditions:

- Orders for Delivery.** 1. Orders for delivery will not be issued until after the execution of the contract and until it is signed by the Comptroller of the Treasury.
- Security Required.** 2. The amount of the security for the performance of the contract shall be at least fifty per cent of the total amount for which the contract is awarded.

The Purchasing Agent will accept as satisfactory surety to the bond for the faithful performance of the contract a duly qualified surety company or a personal surety offering cash, certified check, or a bond of two individuals owning real estate, but both of the parties to the bond must qualify in twice the amount of the bond.

- Submission of Proposals.** 3. On the day and at the hour specified in the advertisement and proposal, the person or persons making a proposal shall deliver such proposal to the Purchasing Agent at the place where proposals are called for. Proposals received after the specified time will not be opened.

Each proposal must be enclosed in a sealed envelope. The envelope must be endorsed with the name and address of the person or persons making the proposal, the date of its presentation, the names of the supplies for which such proposal is made. These proposals must be made in duplicate.

- Identity of Bidders.** Proposals must be made by heads of responsible houses, pen signed.
4. Each proposal shall contain the following:
- (a) The name and place of residence of bidder. In the event that it is a firm or trade name the same shall be distinctly set forth and the name of the owner of the business shall be stated in the place provided.

(b) That the proposal is made without any previous understanding or connection with any other person making a proposal for the same purpose, and is in all respects fair and without collusion or fraud.

(c) That the person or persons submitting the proposal have no official connection with any institution or department of the state, or are not interested in the management of any institution, the moneys for the support of which are drawn in whole or in part from the Treasury of the State.

- Verification of Proposals.** 5. The proposals shall be verified by the oath in writing of the party making it that the several matters stated therein are in all respects true. If the bidder is a corporation the verification shall be made by the official of such corporation with knowledge of the facts and having authority to make such sworn statement.

- Deposits.** 6. No proposal will be considered unless it is accompanied by a deposit, which shall be in the form of money or a certified check upon one of the state or national banks of the State of New Jersey, drawn to the order of the State Treasurer. Such deposit shall be in an amount not less than five per centum of the total amount of the proposal. Within five days after the opening of the proposals the State Treasurer shall return all the deposits so made to the persons making the same, except the deposits made by the lowest three bidders. Within three days after the decision as to whom the contract is to be awarded, the State Treasurer shall return the deposits to the remaining persons making the same, except the deposit made by the bidder whose proposal has been accepted. If the successful bidder refuses or neglects, within five days after due notice that the contract has been awarded to him, to execute the contract or to furnish the required bond, the amount of deposit made by him will be forfeited to and retained by the State of New Jersey as liquidated damages for such neglect or refusal. If the successful bidder shall execute the contract and furnish the required bond within the time aforesaid, the amount of his deposit will be returned to him.

The deposit shall be enclosed in a sealed envelope, separate from that containing the proposal, and shall be addressed to the State Treasurer of New Jersey at the office of the State Treasurer, State House, Trenton, or be submitted personally upon the presentation of the bid.

**Form of
Proposal.**

7. All proposals shall be submitted on the form furnished by the State House Commission. The bidder shall state thereon, against such items on which he desires to bid, the price per unit of measure at which he is prepared to furnish and deliver such supplies, and shall extend such totals as may be required on the schedules. In case of any discrepancy between the unit and total price, the unit price will be considered as the bid. The price asked shall be net and shall include containers, unless otherwise specified, and also the cost of delivery at the points indicated. Proposals may be made for any article in any division. Contracts will be awarded on the line item. No changes, erasures, or substitutions in the specifications will be permitted and will result in rejection of the proposal.

**Awards
of
Proposals.**

8. At the time and place stated, the proposals received will be publicly opened and read by the Purchasing Agent, or some one designated by him and the State Purchasing Commission. Proposals not submitted in conformity with the law and the instructions herein contained will be rejected. The contract will be awarded according to law as soon as practicable after the opening of proposals. Proposals may not be withdrawn pending the award of the contract. The State reserves the right to reject any or all proposals. The contracts will be executed on behalf of the State by the State Purchasing Agent, as provided by the statute.

**Rejection
of Supplies.**

9. Supplies shall be delivered from time to time in such quantities and at such places as may be ordered in writing by the Purchasing Agent. Standards of weights and measures shall be those recognized as legal standards by the United States. Specified weights are net, unless otherwise stated in schedule. Supplies, when rejected, must be replaced by the contractor within five days after notice in writing, except perishable supplies, which shall be replaced within twenty-four hours, otherwise the State, through the State Purchasing Agent, reserves the right to go into the open market and purchase the supplies without further notice and charge the expense and damages suffered by the State or the using agency to the contractor by deducting the amount thereof from any moneys due or that may become due said contractor. All rejected articles must be packed and removed by the contractor immediately on receipt of notice of rejection. In the event that no moneys shall be due to the said contractor, action will be taken against his bond. The same rule will apply when articles are not furnished at the required time.

Samples.

10. When the specifications and schedules require that a sample of any article shall be furnished, such sample shall be delivered at the office designated prior to the opening of the proposal, and if such sample be not so furnished or if it does not conform to the quality and character required by the specifications the proposal will be rejected. Samples must be furnished as required and listed in duplicate, one copy to accompany the proposal, the other to be packed with the sample. Unless such forms are properly filled out, unaccepted samples will not be returned, but will be disposed of in such manner as deemed advisable. The samples will be retained by the Purchasing Agent during the life of the contract if considered necessary. In any case, the right is reserved to retain any sample submitted with a proposal whenever it may be considered necessary to do so for the purpose of testing, and no allowance will be made for such samples.

In the event that the specifications require a sample of any article that is to be furnished, and said article is to be used by more than one division of the government, the contractor will be required to forward samples, on receipt of the contract, to all the divisions of the government indicated

by the Purchasing Agent. An allowance will be made at the contract price for these samples. Each sample must be plainly marked with the complete item and sub-item letters and numbers of the items to which it relates, together with the name of the bidder. Should samples for more than one class of supplies be packed in a single case or bundle, each class of supplies must be placed in a separate compartment or wrapped together and distinctly marked with the proper class number.

Cases or packages containing samples must be plainly marked "samples," with the name of the bidder indicated thereon, and addressed to the State Purchasing Agent, State House, Trenton, N. J.

All charges for transportation of samples, including cartage, must be prepaid by the bidder, and no package will be received unless all charges thereon have been prepaid.

Samples, to receive consideration, must be in the custody of the Purchasing Agent at the time that proposals are opened. In order to avoid congestion, it will greatly convenience the State Purchasing Agent if bidders will, when practicable, deliver samples several days prior to the date of the opening of proposals. Samples must not be enclosed with proposals, and proposals must not be wrapped in packages with samples. When samples are referred to as a standard in the specifications, the latter will indicate plainly that the sample is on file in the office of the Purchasing Agent or at the Using Agency whose sample is established as the standard.

**Evidence
of Ability.**

11. Each bidder shall, if required, submit with his proposal evidence that will prove to the satisfaction of the State Purchasing Agent that he is prepared to furnish the supplies, and possesses the necessary plant to deliver them in the manner and time specified.

**Blank
Forms.**

12 Blank forms have been prepared and will be furnished to prospective bidders for the submission of their proposals. These forms and envelopes in which to submit them, together with a copy of the specifications, may be obtained at the office of the State Purchasing Agent, State House, Trenton.

**Information
as to
quantity,
quality and
points of
delivery.
Protection
from in-
fringement.**

13. For particulars as to the quantity and quality of supplies required, and the points where deliveries are to be made, bidders are referred to the specifications, to the schedule of quantities, to the terms of the contract generally, and in particular to that provision relating to the state's right to increase or reduce the quantity of supplies to be furnished under a contract.

14. The contractor must save, keep, bear harmless, and fully indemnify the state and any of its officers from all damages or claims for damages, costs, or expenses in law or equity that may at any time arise or be set up for any infringement of the patent rights, copyright, or trade mark of any person or persons in consequence of the use by the State or by any of its officers or agents of articles to be supplied under this proposal, and of which the contractor is not the patentee or assignee or has not the lawful right to sell the same.

**Right to
determine
disputes.
Catalogue
Items.**

15. The State House Commission and the State Purchasing Agent reserve the right to decide all controversies or disputed matters, and their decision shall be final.

16. When a proposal is based on the prices contained in a catalogue or price list the list price must be stated, together with the proposal price. When discounts are quoted, only a single or flat rate will be considered.

**Additional
Information.**

17. Further information relative to these contracts and proposals may be obtained at the office of the State Purchasing Agent, State House, Trenton.

Notary Public,.....County.

As the next step in the plan of purchase will be the award of contracts on the basis of the prices bid, I have arranged with the Attorney General for a form of contract, which is herewith submitted. This form, together with the bond, has been approved by the Attorney General and will be kept on hand so that the execution of the contracts and the filing of bonds subsequent to the awards will only be measured by the physical ability of your department to prepare the same and the necessary time required for the execution of both contract and bond.

FORM OF CONTRACT.

THIS AGREEMENT, Entered into this.....day of.....
in the year of our Lord One Thousand nine hundred and.....
between..... a of
the State of.....of the first part, and the
State House Commission, by the State Purchasing Agent, acting for and in the name
and behalf of the State of New Jersey, of the second part, Witnesseth.

WHEREAS, The party of the second part duly invited, by advertisement, sealed proposals for the furnishing of supplies to the divisions of the government comprehended within the provisions of Chapter 68, P. L. 1916, and

WHEREAS, The party of the first part has proposed to furnish to the party of the second part.....
.....for the sum of.....
.....dollars, and the party of the first part being the lowest bidder, the contract, therefore, was awarded to the said party of the first part.

Now, therefore, In consideration of the premises and of the payment by the State of New Jersey to said party of the first part of the sum of.....
.....dollars as hereinafter provided, the parties hereto have covenanted and agreed as follows:

First. The party of the first part will furnish to the party of the second part
.....
.....for the sum of.....
.....dollars, in accordance with specifications for said.....on file in the office of the State Purchasing Agent at the State House, Trenton, New Jersey, which said specifications, the advertisement for said supplies, and the proposal of the party of the first part, although not annexed hereto, are made a part of this contract.

Second. The State of New Jersey, in consideration of the party of the first part furnishing as aforesaid said.....
....., will pay, or cause to be paid, to said party of the first part the aforementioned sum of.....
dollars, upon the production of a certificate from the State Purchasing Agent, showing that said supplies have been furnished in all respects according to aforementioned specifications, advertisement and bid.

Third. The said party of the second part reserves the right to order a greater quantity of any of the supplies named in the said schedule than is stated therein, and it is distinctly agreed between the said parties that the price quoted in the proposal of the party of the first part shall be regarded as a standard of prices, and the total sum mentioned herein as the consideration of this contract shall not be regarded as limiting the right of said party of the second part to order a greater quantity of any of the supplies named in said schedule than is stated therein, or as in any way fixing the amount or quantity or value of supplies named in said schedule which the party of the first part is required to furnish under the terms of this agreement.

In Witness Whereof, The party of the first part has hereunto set his hand and seal, and the party of the second part has caused this agreement to be signed and sealed by the State Purchasing Agent and attested by their Secretary the day and year first above written.

Signed, sealed and delivered

bound unto the State of New Jersey, in the penal sum of.....
.....dollars, to which payment well and truly
to be made we do bind ourselves, our and each of our heirs, executors, administrators,
and assigns, jointly and severally, firmly by these presents.

Sealed with our seals and dated the.....day of
....., one thousand nine hundred and.....

WHEREAS, The above bounden,.....has this day
duly entered into a contract with the State of New Jersey, represented by the State
House Commission, by the State Purchasing Agent, for the furnishing of.....
.....

.....Now, Therefore,
The Condition of this Obligation is such, That if the above bounden.....
....., shall
faithfully perform and carry out all the terms and conditions of his said contract,
then this obligation to be void, otherwise to be and remain in full force and virtue.

Signed, sealed and delivered
in the presence of

.....(Seal)
.....(Seal)
.....(Seal)
.....(Seal)

Approved as to form:

JOHN W. WESCOTT, Attorney-General.

Upon the filing of the requisition already referred to, based upon the proposals submitted, upon which the awards of contract are made, the total amount of these contracts will form a contract reserve, as outlined in the plan of the Comptroller. The balance of the requisition reserve which has been

set up, either from the total appropriations or from the budget estimates of the departments, institutions, and divisions of the government having consolidated appropriations, will be available for purchases other than by contract.

In the event that the proposals received do not cover necessary purchases, or that the prices are such that in the judgment of your Commission it will be to the advantage of the State to buy in the open market, a schedule showing the articles for which permission is requested to purchase in the open market will be prepared and submitted to your Commission. Thereafter, it will be my duty to buy the articles so listed either in the open market or by securing quotations from reputable dealers, or by the making of price agreements which are referred to in Section 18 of the Act.

A form of price agreement is submitted herewith; also a form of contract for open market purchases exceeding in volume the sum of One Thousand Dollars. Both of these forms have been approved by the Attorney General.

FORM OF CONTRACT.

THIS AGREEMENT, Entered into this.....day of.....
in the year of our Lord one Thousand nine hundred and.....
between..... a of
the State of.....of the first part, and the
State House Commission, by the State Purchasing Agent, acting for and in the name
and behalf of the State of New Jersey, of the second part, Witnesseth.

WHEREAS, The using agencies have indicated to this Commission, in accordance with the provisions of Chapter 68, P. L. 1916, that certain purchases can be best made without advertisement therefor, and the State House Commission has granted the necessary permission required by Chapter 170, P. L. 1915, to avoid the necessity for advertising therefor, and

WHEREAS, The State Purchasing Agent has advised this Commission of certain articles which cannot be purchased as the result of advertising, due to the fact that no bids have been received therefor, or because those submitted were rejected, as they were not in the interests of the State, and

WHEREAS, The party of the first part has agreed to furnish the party of the second part.....
.....for the sum of.....
.....dollars,

Now, therefore, In consideration of the premises and of the payment by the State of New Jersey to said party of the first part of the sum of.....
dollars, as hereinafter provided, the parties hereto have covenanted and agreed as follows:

First. The party of the first part will furnish to the party of the second part
.....
.....for the sum of.....
.....dollars, in accordance with
specifications for said.....on file in the
office of the State Purchasing Agent at the State House, Trenton, New Jersey, which
said specifications, and the offer or proposal of the party of the first part, although
not annexed hereto, are made a part of this contract.

Second. The State of New Jersey, in consideration of the party of the first part
furnishing as aforesaid said.....will pay, or cause to be
paid, to said party of the first part the aforementioned sum of.....
dollars, upon the production of a certificate from the State Purchasing Agent, show-
ing that said supplies have been furnished in all respects according to aforementioned
specifications, offer or proposal.

Third. The said party of the second part reserves the right to order a greater quantity of any of the supplies named in the said offer or proposal than is stated therein, and it is distinctly agreed between the said parties that the price quoted in the offer or proposal of the party of the first part shall be regarded as a standard of prices, and the total sum mentioned herein as the consideration of this contract shall not be regarded as limiting the right of said party of the second part to order a greater quantity of any of the supplies named in said offer or proposal than is stated therein, or as in any way fixing the amount or quantity or value of supplies named in said offer or proposal which the party of the first part is required to furnish under the terms of this agreement.

In Witness Whereof, The party of the first part has hereunto set his hand and seal, and the party of the second part has caused this agreement to be signed and sealed by the State Purchasing Agent the day and year first above written.

Form Sched. S. H. C.

TO THE STATE HOUSE COMMISSION:

Schedule No.....

.....(Date.)

Adopted
(Date)
S. H. C. Permission No.....
Granted.....
(Date)

I hereby certify that the following are needed by the divisions of the government as shown by the detailed applications on file in this department. I find that for reasons consistent with the operation of Chapter 170, P. L. 1915, and Chapter 68, P. L. 1916, permission should be granted by your Commission without advertisement, that the same may be purchased in the open market or "nearby."

..... State Purchasing Agent.

Item	Article	Standard No. Description Sample	Estimated Quantity	Estimated Cost	Using Agency	Acct. No.	Purchase Price

Upon the award of contracts or the making of price agreements, bulletins will be issued to all using agencies by me, showing in detail:

- (a) The articles, by items, to be purchased by contract, prices, etc.
- (b) The articles, by items, to be purchased in the open market, prices, etc.
- (c) The articles, by items, to be purchased by price agreements, prices, etc.

These bulletins will be issued as soon as possible after the award of contracts, giving both articles and prices for which contracts have been made by me.

FORM OF BULLETIN.
STATE OF NEW JERSEY
STATE HOUSE COMMISSION
Trenton

Bulletin No.....

.....
(Date)

To Officials, Departments, Institutions, etc.:

Notice is hereby given that the State Purchasing Agent has entered into contracts or price agreements for the articles listed below. In making requisitions, Item Nos., Contract Nos., Article and Unit Price must be stated.

.....
State Purchasing Agent.

Contract No.	Schedule Division	Item No.	Article	Unit	Price	Contractor's Address

Other bulletins will be issued from time to time, as other methods of purchasing are established; that is to say, as open market contracts are made or price agreements entered into, bulletins will be issued giving the same information as that comprehended in the contract bulletins, whenever it is possible to do so.

It is the intention of the statute that the detailed applications shall comprehend everything needed by using agencies for the period indicated by your Commission.

The filing of the detailed application does not terminate the work of the using agency in connection with the Purchasing Agent. It is merely the filing of information upon which schedules may be prepared, proposals invited, and contracts awarded.

Using agencies will make requisition upon the Purchasing Agent, in so far as they can, thirty days prior to the beginning of each period for which detailed applications have been submitted, showing their actual needs for the first month of the period, if the period exceeds one month; or for thirty days if the period is limited to that time. That is to say, in the event that an award of contract is made for any item appearing on the detailed applications and the award covers the period beginning November 1, 1916, and ending November 30, 1916, or for the period beginning November 1, 1916, and ending January 31, 1917, using agencies will file requisitions not later than October 1st for all their needs during the month beginning November 1st and ending November 30, 1916. These requisitions will comprehend not only the articles for which the using agencies have filed detailed applications and which have become the subject of contracts, open market or price agreements, but everything that they need within the purview of the act, even though omitted from the detailed application.

It may happen that articles not listed in the detailed applications made by one using agency may appear on the detailed applications filed by another using agency and have become the subject matter of contracts. A using agency finding itself in need of any of said articles may requisition for the same in the usual manner. This requisition will be filed on a contract form if the article has been listed and made a contract item. In this way every using agency will enjoy the benefit of the prices established by competition of all articles listed in the schedules.

The requisition forms to be used by the using agencies will be divided into different classifications.

One form of requisition will be known as an "Agreement or Contract Form," and when used will only comprehend contract items. The second form will be for articles that have become the subject matter of open market purchase or non-contract items. The third form will be for "Nearby Purchases."

(The following are the forms)

1. Agreement or Contract Form.
2. Open Market Purchase or Non-Contract Form.
3. "Nearby Purchase" Form.
4. Emergency Requisitions.

The last named form has been provided to meet situations hereinafter referred to.

NEARBY PURCHASES.

From the preceding, every possible situation with regard to purchasing has been indicated but one.

Section 13 of the act provides that "the Commission shall have power, by written order, to permit purchases to be made by any using agency directly and not through the State Purchasing Agent whenever it shall appear to the satisfaction of the State House Commission that by reason of the excess of transportation cost a lower price with equal quality can be obtained by the using agency; or as in the case of fresh vegetables, fish, eggs, and the like perishable articles, where the using agencies are widely scattered and there are nearby local markets; or for any reason in the judgment of the State House Commission warranting such exception."

This department is in possession of data prepared by the several using agencies indicating those transactions comprehended within this section and which may be characterized as "nearby purchases."

In order that the system of purchasing may be uniform, I recommend that the method of purchases in these cases be as follows:

The using agencies shall make requisition in the same manner as heretofore indicated, for nearby purchases. This requisition will contain all the information upon which the using agency may base a statement satisfactory to the Commission to permit the purchases to be made by the using agency directly.

This requisition, unlike any of the others, will indicate the money limitation within which these purchases may be made. Upon the receipt of this requisition and the approval of the Commission, an order will be issued by the Purchasing Agent, to be placed by the using agency with the vendors or dealers from whom the goods indicated in the requisition may be purchased, within the established money limitation.

As purchases are made their volume and cost will be reported to the Purchasing Agent on a form hereinafter provided.

It will be the duty of the using agencies to indicate prior to November 1st to the Commission the articles which come within the scope of this section, together with a statement showing why the purchases should be made nearby, as provided by the section, whereupon a written order will be issued by the Commission to the Purchasing Agent, establishing these purchases to be within the requirements of this provision of the Act, and he will be bound to issue the orders as indicated upon the filing of requisition.

CONTRACTS AND BONDS.

Contracts should be executed with successful bidders by the Purchasing Agent in triplicate; one copy to be filed with the Purchasing Agent and this Commission; one copy with the Comptroller of the Treasury, and one copy with the contractor. No contract will be in effect until filed with the Comptroller of the Treasury.

The form of these contracts has been approved by the Attorney General, and they will be submitted to the Attorney General for approval as to execution only when in the judgment of the State Purchasing Agent such action is necessary.

Open market contracts and price agreements shall be filed in triplicate in the same manner.

ORDERS.

Upon the filing of a requisition by a using agency, as heretofore provided, for contract items, an order will be issued in quadruplicate by the Purchasing Agent, one copy of which will be forwarded to the contractor; two will be sent to the using agency, and one will be retained by the Purchasing Agent. These orders will indicate if there be any change in conditions as to delivery or shipment other than those set forth in the contract and schedules.

In order to accustom contractors to the methods of state business, the Purchasing Agent will accompany each order sent to a contractor with state form bills in quadruplicate, upon which the contractor will invoice the transaction. It will be the duty of the contractor to forward to the using agency, with the shipment, these invoices in quadruplicate. Upon the receipt of goods, the persons authorized in accordance with the rules and regulations to receive the same, will check these invoices, indicating to the proper authority of the using agency the conditions of the shipment. If the shipment be a perfect one the head of the using agency will forward one of them to the Purchasing Agent, retaining two for the records of the using agency. The other invoice will be forwarded to the Purchasing Agent, properly approved for payment as hereinafter indicated.

PAYMENTS.

Upon the delivery of goods and the receipt of the invoices, one of the invoices will be checked by the receiving officer, and, in the case of a department, certified by the requisition officer; in the case of an institution one invoice checked by the storekeeper will be certified by the Superintendent or warden, and forwarded to the State Purchasing Agent for preaudit.

Of the other invoices, one will be approved in the same manner in which bills are now approved by the head of a department or the approving officers of a commission, committee, etc., and forwarded to the Purchasing Agent to be certified by him with the duplicate copy of the requisition of the using agency attached, to the Comptroller of the Treasury for payment.

In the case of an institution, the approved invoice will be listed on a schedule in the same manner in which payments are now made, and schedules will be forwarded approved by the proper officers in the same manner as is now done with the statements of account of the institutions of the state.

In the case of departments whose appropriations are immediately available for disbursement, if the transaction is complete, the approving officer may immediately forward the approved invoice to the Purchasing Agent, together with the duplicate invoice. The duplicate invoice will be retained by the Purchasing Agent, and the approved invoice, with the duplicate copy of the requisition of the using agency attached, will be certified by him to the State Comptroller for payment. In this way each transaction will be identified and properly charged to the appropriation from which payment should be made.

DISCOUNTS.

Transactions involving discount features will receive special attention if forwarded to the Purchasing Agent, properly approved in the same manner as heretofore by the proper officers of the using agency, in an envelope marked "Immediate Audit and Payment. Discount." The Purchasing Agent will indicate to the Comptroller the account number and requisition number against which each of the transactions is to be charged. This can be best done by attaching to each approved statement of account the duplicate requisitions of the using agencies covering the transaction. In the event that they have been used, the account and requisition numbers must be indicated.

STANDARDS.

The Advisory Board, which consists of a representative of each of the using agencies, shall, in conjunction with this Commission and the Purchasing Agent establish standards of quality for purchase of articles to be listed on the schedules. This has been done in a number of cases, and the list of standards will be presented hereafter.

Samples will be required wherever possible, and will be submitted to the laboratories of the State Board of Health and the Department of Conservation and Development.

The various using agencies have filed with this department the mailing lists used by those agencies. These lists have been consolidated, and I suggest that they be made the official mailing list of your Commission.

The failure on the part of any contractor to make deliveries as required by the terms of his contract, or the delivery by a contractor of articles inferior

to the quality required by the contract, or as established by the standards, should be sufficient reason for your Commission to reject proposals from a contractor.

REJECTION OF GOODS.

The using agencies should be permitted the exercise of the same discretion they have had in the past in the matter of rejecting goods, but the contractor or vendor should be entitled to a hearing thereon before your Commission.

The foregoing covers the plan of purchase. It is possible that the conditions existing at the present time in the markets of this country will necessitate changes in methods, all of which will be submitted to your Commission.

A close study of the financial operations of the government and of the Requisition System in force since 1914 has shown me that there is a situation, particularly in the institutions, which must be dealt with in an unusual manner, not contemplated in any plan of purchase. I refer to contingencies that may arise that may be more properly classified as "emergencies." It frequently happens in institutional management that parts of machinery will give way, or parts of equipment will have to be hastily replaced at times when it is not possible to purchase the same in the ordinary way. The institutions, in their farm operations, use in many cases machinery of special makes and patterns. It is not possible to replace parts of this machinery through competition. These parts must be purchased from the makers of the machinery in use, or from their agents.

In the same manner emergencies arise through the deaths of inmates or the outbreak of contagious diseases.

The operation of the Requisition Act developed a system whereby reservation of appropriation was made to cover all these situations; that is to say, each institution carried requisitions covering these emergencies, so that in the event that there was need of immediate repairs to machinery or equipment, or of the contingency, a requisition, countersigned by the Comptroller, was on file. In employment of additional physicians, purchase of medical supplies, or any other this way the need was always anticipated.

I am taking up this situation with each of the institutions, and am arranging a form of requisition with an emergency order attached thereto, which will be lodged with each of the institutions, so that if the need develops it may be used.

It is to be hoped that the act consolidating the purchasing in this department will be amended by the next session of the Legislature so that the State House Commission and the State Purchasing Agent may designate an officer in each of the institutions or departments who will be responsible for the receipt of the articles purchased under this act, and their acceptance. This officer should be the superintendent or warden, in the case of an institution, and an employee of or the head of a department. When the invoices are checked and certified by these officers they should be immediately forwarded to the Purchasing Agent. The latter could then approve them, presenting them to the State Comptroller for immediate payment.

This can easily be done in the case of the departments and institutions whose funds are immediately available for disbursement.

In the case of those institutions or departments whose funds are available monthly in the way of earnings, receipts, etc., it will be impossible to make immediate payment without the establishment of the capital fund which is referred to in another part of this report.

The situation that will exist from November 1st will be that the approving officers of departments and institutions will be required to approve of the payment of bills covering transactions entered into by the State House Commission. This is objectionable, and creates a situation that may become embarrassing to one or the other division of the government.

The Act is defective in Section Twelve (12), in the following: "The bills for such purposes shall be apportioned by the State Purchasing Agent among the requisitioning agencies in proportion to the purchases made therefor, and certify the same so apportioned to the State Comptroller to be charged against the appropriation or appropriations indicated by the certificate of the State Purchasing Agent and the accompanying requisitions." If, instead of the word "and" between the words "therefor" and "certify," the words "who shall" were inserted, as was evidently the intention of the Legislature, these bills could all be paid by the action of the State House Commission and the State Purchasing Agent, or upon the certification of the latter.

The legislation covering the receipts and expenditures of the state is so stringent that it is impossible to arrange any other method of payment than that indicated without creating a situation that might embarrass the State Comptroller or State Treasurer and their bondsmen.

I recommend to the careful attention of your Commission the necessity for entering into an agreement with the Prison Labor Commission, whereby the labor and products of all the inmates under their direction in the operation of the State Use System may be utilized in such a manner as to produce more economical results than are at present obtained. This I regard as a special matter, meriting singular attention as soon as it is possible for your Commission to consider it.

I hope to present a plan to your Commission whereby the labor of the inmates of the charitable institutions and the products of the same may be utilized for the benefit of the other institutions in which it is possible to use this labor.

At the present time there is no organized effort whereby the products of any using agency may be developed with the object of their sale or disposal in a market created among other agencies which cannot by reason of soil or other conditions produce the same results. I am convinced that much can be done on this line so that one using agency can produce at a profit and the others consume economically many features of maintenance. This will, if organized with the cooperation of the institutions result in a great saving to the State.

It is a matter, however, which must await the development of the plan of purchase.

Respectfully,

EDWARD E. GROSSCUP,
State Purchasing Agent.

OFFICE OF THE PURCHASING AGENT.

TRENTON, N. J.

TO THE GOVERNOR, THE STATE TREASURER, AND THE STATE COMPTROLLER, EX OFFICIO, CONSTITUTING THE STATE HOUSE COMMISSION.

GENTLEMEN :

In accordance with the provisions of a resolution of May 2, 1916, to wit :

“RESOLVED, That in accordance with the provisions of Chapter 68 of the Laws of 1916, the Purchasing Agent shall submit to this Commission tentative rules and regulations necessary or proper for the execution of the objects of Chapter 68 and the performance of its duties and the duties of the Purchasing Agent under the provisions of said Act.”

I am submitting herewith a draft of tentative rules, etc., for the consideration of your Commission.

Very truly yours,

E. E. GROSSCUP,
Purchasing Agent.

**RULES AND REGULATIONS FOR THE OPERATION
OF CHAPTER 68, P. L. 1916.**

The Governor, the State Treasurer and the State Comptroller ex officio, constituting the State House Commission, in accordance with the provisions of Section Fourteen (14) of said act, hereby make the following rules and regulations, and declare them necessary and proper for the execution of the object of this act and the performance of its duties and the duties of the Purchasing Agent under the provisions of this Act.

(A) PLAN OF PURCHASE.

The plan of purchase submitted by the Purchasing Agent is hereby adopted by the Commission and becomes the plan of purchase for the State in the operation of Chapter 68, P. L. 1916.

Wherever, in the Rules and Regulations adopted by the Commission, there appears any change in the manner or method of purchase, the rule shall govern and be the regulation of the Commission in the same manner as if it were included in the original plan of purchase.

(B) LIMITATION OF SCOPE.

This Commission is prohibited by Section Three (3) from participating in the following :

1. Erection or construction of buildings, addition thereto or alteration or repair thereof.
2. Construction or repair of roads or bridges.
3. Performance of any like work in either of the above subdivisions.

In order that there may be no misconception regarding the limitation of the powers of the Commission provided for in the last subdivision, it is defined herein.

Section Two (2) of Chapter 68 includes within the scope of the Commission both "materials" and "supplies." The construction placed on the limitation of this Commission is that it is prohibited from erecting or constructing buildings, additions thereto, or alteration or repair thereof, which in the ordinary transaction of state business become the subject matter of contracts requiring the approval of the Governor. This distinction is made for the reason that it is the practice in many of the institutions and departments that are empowered to erect or construct buildings, make additions thereto, alterations or repair thereof, to purchase materials for the ordinary repair or replacement and include the cost of the same in charges against the maintenance accounts of said departments and institutions. The labor necessary to repair and replacement being performed by employees or inmates, materials necessary for such repairs or replacements that are ordinarily comprehended within the maintenance of departments and institutions will be purchased by authority of this Commission. *Contra*, repairs or alterations or additions involving the performance of the same by outside vendors, contractors, or by labor other than employees or inmates, which become the subject matter of contracts with the approval of the Governor, will not be within the scope of this Commission.

(C) USING AGENCIES AND ADVISORY BOARD.

As Section One (1) of the Act designates the several divisions of the government as using agencies, and as Section Eleven (11) creates an Advisory Board, each using agency shall designate one of its officers or one member of its board or governing body as its representative upon the Advisory Board, by proper certification over the signature of the officers of said using agency. This notification, to be effective, shall be filed in duplicate with the Secretary of this Commission, at the office of the Comptroller of the Treasury, and with the State Purchasing Agent.

(D) LABORATORIES.

The existing state laboratories are hereby designated as the physical and chemical laboratories for the execution of such functions as may hereafter be required by this Commission, as provided in Section 7 of the act. They are as follows:

1. Board of Health.
2. Testing Laboratory of Department of Conservation and Development.

(E) DATE FOR FILING ESTIMATES AND PERIODS.

As provided for in Section Twelve (12) of the Act, each using agency shall, not later than August 10th, file with the Purchasing Agent a detailed statement showing the furniture, equipment, materials and supplies necessary for their respective uses for two periods:

1. November 1, 1916, to November 30, 1916, inclusive.
2. November 1, 1916, to February 1, 1917.

Periods: New periods will be established by the Commission from time to time. Notice will be given using agencies for the preparation and filing of detailed applications.

Forms for these detailed statements will be furnished to each using agency.

NOTE—As the state printing contract will be in effect until November 1st, when by the operation of Chapter 68 it will be taken over by this Commission, departments will not include in their estimate blanks and stationery or printing supplies comprehended within that contract for which reservations have already been made. Printing supplies, blanks and stationery needed by the institutions, which cannot be supplied by the Prison Labor Commission, will be furnished by this Commission at the prices set forth in the printing contract until the end of its operation from November 1, 1916, or in accordance with the printing law applicable thereto.

NOTE—STATE USE ARTICLES.

Detailed statements made by using agencies, when filed with the Purchasing Agent, will include furniture, equipment, materials and supplies manufactured by state use institutions.

(F) PURCHASING AGENT.

1. The Purchasing Agent, upon the receipt of detailed applications showing the furniture, equipment, materials and supplies necessary for the needs of the using agencies, will prepare schedules thereof and submit such schedules to the State House Commission for its consideration.

2. He shall meet with the Advisory Board, as the representative of this Commission, in the determination of standards, making exemptions, quality and prices of supplies. He shall prepare schedules of supplies, together with forms of proposals, etc., by trade classifications; also forms of advertisement for submission to this Commission. The standards agreed upon by the Purchasing Agent and the Advisory Board shall be submitted to this Commission for approval. In the event that there be no agreement regarding standards, or any of them, between the Purchasing Agent and the members of the Advisory Board, each shall submit standards to this Commission for action. Upon the adoption by this Commission of schedules, the Purchasing Agent shall make requisition upon the State Comptroller for the amount of money estimated to be necessary to defray the cost thereof, indicating the appropriations against which the proposed purchases will be charged. In the case of those institutions whose appropriations are available monthly, he shall arrange with the State Comptroller for the determination of the limitation of their credit, and shall arrange the schedules, or parts thereof, in such manner that the requisitions submitted by him shall be acceptable to the State Comptroller.

The Purchasing Agent is hereby designated by this Commission as the Requisition Officer for this Commission, and for all the using agencies for all purchases within the scope of this act.

Upon the adoption of schedules and the determination of standards which shall be incorporated therein, it shall be his duty to advertise for proposals in the manner best calculated to attract competition and advantageous prices, prescribe the conditions for delivery, and like details.

The proposals will be received upon a date to be fixed by this Commission, and the contracts awarded by this Commission. The Purchasing Agent shall execute all contracts and make all purchases upon such schedules, within the requisition limitations.

Upon the delivery of purchases, vendors will accompany the same, in the case of institutions, by invoices in quadruplicate, and in the case of departments, by invoices in triplicate. One of these invoices must be checked with the shipment by the receiving officer of the institution, then certified by the warden or superintendent or other officer empowered to so certify and forwarded to the Purchasing Agent.

The Purchasing Agent on receipt of the invoice will have it preaudited against the order and requisition, so that the approved invoice may be attached to the duplicate requisition and be forwarded by the Purchasing Agent to the Comptroller for payment.

Failure to forward invoices as prescribed herein will make it incumbent upon the receiving officer to reject deliveries.

Purchases will be made by the Purchasing Agent in three ways:

(a) By contract as the result of the receipt of proposals and the award of the same by this Commission.

(b) In the event that no proposals are received, or proposals are in excess of the market prices of any of the articles bid upon, this Commission will secure permission from the State House Commission, in accordance with the provisions of Chapter 170, P. L. 1915, to purchase the same in the open market. Thereupon the State Purchasing Agent will obtain quotations, solicit proposals in the open market, make contracts, agreements, price agreements or purchase in the open market to the best advantage in the interest of the State and its Using Agencies. These quotations shall be obtained as outlined in the plan of purchase, contracts and price agreements shall be made in the manner shown in the plan of purchase. Purchases made in the open market shall not exceed, in any instance, if possible, the sum of three hundred dollars, except for the purchase of those things for which a contract cannot be made, or where it is apparent the interest of the state will not be conserved thereby. It is the intent of the commission that purchases exceeding the sum of \$1,000.00 shall be made the subject of contracts, whenever possible.

(c) In the case of purchases for the institutions such as fresh fruits and vegetables, etc., officers of using agencies will indicate the volume and current prices nearby to the Purchasing Agent, who will issue an order for the purchase of the same, based upon requisition making reservation of appropriation therefor.

3. No order will be issued or contract executed by the Purchasing Agent except upon requisition countersigned by the Comptroller of the Treasury. No contract will be effective unless approved by the Comptroller of the Treasury.

GENERAL RULES COVERING USING AGENCIES.

1. Requisition officers will indicate on forms to be furnished and make detailed applications of the needs of their divisions of the government at the times and for the periods specified by this Commission.

2. *Requisitions.* As soon as using agencies are advised that contracts have been entered into for any period established by this Commission, it will be the duty of the using agencies to make requisition in duplicate, on the forms established in the plan of purchase, for those articles and for the quantity needed by each of them during the whole period if possible. If a using agency cannot determine the quantity for the whole period, it shall so requisition that deliveries can be arranged for the whole of the month succeeding the making of the requisition. If the articles needed are not included in the list of contract items or "nearby" purchases, the requisition shall be filed sufficiently in advance of the date set for delivery to give the Purchasing Agent an opportunity for obtaining quotations.

3. *Deliveries.* It shall be the duty of each using agency to file with the Purchasing Agent a list of employees authorized to receipt for deliveries. In the case of institutions the authority to receive articles shall be vested in the storekeeper, under the supervision of the Superintendent, Warden, Commandant, Fiscal Agent or Business Agent of the Institution. This authority shall be confined to the Storekeeper and his superior officer except in their absence, when the employee designated to act in their place or for either of them shall have authority to receive deliveries and record receipt of the same.

In the case of departments or divisions of the government other than institutions, one employee shall be designated as a receiver for all shipments, who shall record the receipt of the same and check deliveries subject to the supervision of the head of his division of the government, except only in the event of his absence, when another employee designated by the head of that division of the government may perform his duties as receiver.

The purpose of this section is to establish, in so far as possible, a uniform supervision over the receipt of goods by a regular employee.

Immediately, upon the receipt of a shipment or delivery of any articles, it shall be the duty of the receiving officer to check the invoices against the copy of the order forwarded to the using agency by the Purchasing Agent, and transmit one invoice to the Purchasing Agent so that he may be immediately acquainted with the condition of the delivery.

If the delivery is defective, report should be made to the Purchasing Agent on the form provided in the plan of purchase. If the delivery is rejected, the method outlined in the plan of purchase for giving notice to the vendor and to the Purchasing Agent shall be followed.

4. *Payments.* The original invoice shall be approved, in the case of departments, by the head of the department, and forwarded to the Purchasing Agent as soon as possible after the receipt of the goods, so that payments may be facilitated. In the case of institutions the original invoices will be held by the proper officers, and listed on the schedules which shall be approved by the proper officers in the same manner as heretofore.

Purchases involving discount features should receive immediate attention, and the invoices should be forwarded to the proper approving officers, to be by them transmitted to the Purchasing Agent upon approval, so that advantage may be taken of the discount features. The method of handling these transactions involving discount features heretofore in effect will be followed, so that advantage of the same may be procured.

5. *Petty Cash.* Institutions will make requisition on the forms provided for petty cash. These forms will indicate the amount of petty cash that it is estimated by the using agency will be necessary for the payment of wages to discharged employees. In addition, the amount will be established which the using agency estimates will be necessary for the purpose of paying such current expenses of maintenance requiring a prompt cash outlay. This last sum shall not be disbursed by the using agency for freight or express charges which by the conditions of the order should have been prepaid, unless the need of the goods is so urgent and their character so perishable that there is no time to require the shipper to comply with the conditions of the order by making payment of the express or freight charges.

The amount set aside for the payment of wages to discharged employees will be forwarded by the Comptroller of the Treasury to the using agency. The amount set aside for the purchase of those things of maintenance requiring immediate cash outlay will be paid by the Comptroller to the Purchasing Agent, and by him remitted to the using agency.

6. *Nearby Purchases.* When a using agency receives an order for "nearby" purchases from the Purchasing Agent, upon the placing of the same it will be the duty of the using agency to supply the vendors with invoices so that upon receipt of the goods the copies of the invoices may be immediately forwarded to the Purchasing Agent and the transaction be completed in the same manner as other purchases.

7. *Acceptance or Rejection of Goods.* As the cooperation of the using agencies is required by the statute and has been solicited by the State House Commission, and as the standards established by the using agencies have been accepted by this Commission, it will be the duty of each using agency to see that the goods delivered by the vendors are equal in quality to the standards established, and on the basis of which the purchases are made. To this end, where samples are required, each using agency will see to it that samples are on file at the using agency before deliveries are made.

This Commission will be compelled to depend largely upon each using agency to make the vendors supply goods equal to the established standards, and samples.

8. *Contract Prices.* It will be the duty of the Advisory Board, either in whole or through a Committee, to cooperate with the Commission at the time of the receipt of proposals for any period, and to indicate to the Commission before the award of contract for any item whether or not the price upon which the award is based is such that it will be or will not be acceptable to the using agency. The reason for this regulation is that the present market conditions are such as to make it a serious problem to finance the institutions who live by per capita, and may require, in many cases, the use of substitutes, by reason of the high prices of the original articles.

9. It shall be the duty of each using agency at all times to promptly communicate with the Purchasing Agent or this Commission concerning any matters of interest to the using agency in connection with purchases, or anything that may be of assistance to this Commission and the Purchasing Agent.

10. These rules are subject to revision and amendment by the Commission as occasion may arise, and notice of change will be given to all using agencies.

EXTRACTS FROM STATE LAWS.

RECEIPTS AND DISBURSEMENTS. (Pg. 4958, C. S., sec. 102.)

An Act concerning appropriations of money.
(P. L. 1895, p. 788.)

102. Money not to be drawn from treasury until explicitly appropriated.—
Sec. 1. That from and after the first day of November, eighteen hundred and ninety-five, no money shall be drawn from the treasury unless it shall have been explicitly appropriated by the annual appropriation act to the purpose for which it is drawn.

An Act concerning the payment of the salaries of the employees in and the payment of the expenses of the various departments of the State government. (Pg. 4958, C. S., sec. 104.)
(P. L. 1903, p. 107.)

104. Payment of employees and expenses.—Sec. 1. The Treasurer of the State shall, on the warrant of the Comptroller, pay the salaries of the employees of, and the expenses lawfully incurred in, the various departments of the State government; *provided*, that such salaries and expenses shall be first approved by the head of the department in which such salaries or expenses shall have been incurred.

An Act regulating the receipt and disbursements of State moneys in certain cases. (Pg. 4958, C. S., sec. 105.)
(P. L. 1907, p. 717.)

105. Payments from treasury for buildings, repairs or supplies; approval and presentation of bills.—Sec. 1. No money shall hereafter be drawn from the treasury of this State to pay the salaries and expenses of employees of this State, or to defray the expenses of any department, institution, commission, board, committee or official of this State, or for or on account of any contract for building or for repairs or supplies, except upon bills presented to the Comptroller:

- (a) In the case of a department, by the head of the department;
- (b) In the case of an institution or board, by a majority of the board of managers or trustees of such institution or board, or by such person or persons as shall be designated for that purpose by resolution adopted by a majority of the members constituting said board of managers or trustees;

- (c) In the case of a commission or committee, by the president and secretary of said commission or committee or by the chairman and secretary or chairman and one member of such commission or committee;
- (d) In the case of an official not subordinate to the head of a department, by such official personally.

106. Moneys to be reported to Comptroller and paid to Treasurer.—Sec. 2. Hereafter all moneys collected by any department, institution, commission, board, committee or official of this State for the use of any such department, institution, commission, board, committee or official, or for the use of the State, shall be reported in detail to the Comptroller of the Treasury and paid to the State Treasurer. Such report and payment shall be made not later than the tenth day of the month following that during which the said moneys were received; *provided, however*, that nothing in this section contained shall be construed to repeal the provisions of any law now in force authorizing any department, institution, commission, board, committee or official to deduct from any moneys received for the use of any such department, institution, commission, board, committee or official, any costs, fees or expenses which they are now entitled by law to deduct. (P. L. 1907, p. 717.)

107. Detailed report by treasurers of boards.—Sec. 3. Within thirty days after this act shall take effect the several treasurers of the various boards of managers, trustees and commissions of this State shall make a detailed report to the Comptroller of the Treasury of all moneys then in their possession and of all moneys due or thereafter to become due to such board, trustees or commission, and shall immediately, upon the making of such report, pay to the Treasurer of this State all moneys then in their possession, and all moneys as shown by the said report to become due in the future immediately upon the receipt of the same. (P. L. 1907, p. 718.)

108. Suits to recover funds.—Sec. 4. The Comptroller of the Treasury of this State shall cause suit to be instituted in any competent court of this or any other State for the recovery of any moneys due or hereafter to become due to the State of New Jersey, or to any of its institutions, departments, commissions, or officials. Said suit shall be in the name of the "State of New Jersey," as plaintiff. (P. L. 1907, p. 718.)

109. Monthly statements by treasurers of boards; duplicate statements.—Sec. 5. Hereafter the treasurer of any board or of any trustees having charge of any institution of this State, and receiving funds from this State, shall at the close of each month file with the Comptroller an itemized statement of expenses for the preceding month, which statement shall be approved as provided in section one, and shall be paid by the State Treasurer upon the warrant of the Comptroller. Such statement shall be made in duplicate, one of which shall be retained by the Comptroller and the other by the treasurer of the board of managers or trustees, or otherwise, to whom the same shall be issued. (P. L. 1907, p. 718.)

110. Approval of claims not provided for.—Sec. 6. In case any bill or claim shall be presented against the State the approval of which is not provided for by this act, the Comptroller of Treasury shall fix and determine the form and character of its approval. (P. L. 1907, p. 718.)

111. Withdrawals from treasury for State school tax, agricultural college, etc.—Sec. 7. Nothing in this act contained shall be construed to apply to the withdrawing of moneys from the treasury of this State for the following purposes, namely, State school tax, United States appropriation to agricultural college, United States appropriation for disabled soldiers, United States appropriation for disabled soldiers, sailors, marines and their wives, agricultural college fund, and taxes for the use of taxing districts of this State, moneys received by the State from the taxation of railroad and canal property which may be by law apportioned to the various counties of the State for school purposes, and loans to "State school fund." (P. L. 1907, p. 719.)

113. Moneys paid into treasury by State institutions to be used for such institutions.—Sec. 1. All moneys heretofore or hereafter paid into the State Treasury by the several State institutions and commissions under the provisions of an act entitled "An act regulating the receipt and disbursements of State moneys in certain cases," approved October thirty-first, nineteen hundred and seven, are hereby appropriated for the maintenance of the institutions and commissions so paying, and the same may be withdrawn from the Treasury of the State in the manner prescribed by the act to which this act is supplementary, and all moneys heretofore withdrawn for such purpose, and in such manner, are hereby approved, and no payment herein authorized need be inserted in any general appropriation bill. (Inconsistent laws repealed.) (P. L. 1908, p. 59.)

An Act regulating the disbursements of State moneys in certain cases. (Pg. 4961, C. S., sec. 119.)

(P. L. 1908, p. 440.)

119. Institutions may retain fire insurance money.—Sec. 1. All moneys heretofore received or which may be hereafter received by any department, institution, commission, board, committee or official of this State from any source whatever, in payment for or on account of any loss sustained by reason of the loss, destruction, or damage, by fire, of any State institution, buildings or property, in the custody or control or in charge of any such department, institution, commission, board, committee or official may be retained and used by such department, institution, commission, board, committee or official for the purpose of repairing and restoring said institutions, buildings or property so lost, destroyed, or damaged as aforesaid.

120. Restoration or repair of buildings.—Sec. 2. All plans and specifications for restoring or repairing State buildings as provided by section one of this act shall be prepared under the direction of the Commissioner of Charities and Corrections. (P. L. 1908, p. 440.)

121. Retroactive operation.—Sec. 3. This act shall not apply to moneys heretofore paid to the State Treasurer. (P. L. 1908, p. 440.)

CHAPTER 66, P. L. 1913.

An Act to regulate the payments of salaries of State employees and employees in the several counties classified as State employees. (P. 103.)

1. All State employees of this State shall be paid semi-monthly.
 2. All employees employed in the several counties and classified as State employees shall be paid semi-monthly.
 3. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed, and this act shall take effect immediately. (March 12th, 1913.)
-

CHAPTER 268, P. L. 1913.

An Act to regulate the payment of salaries of officers of this State. (Pg. 508.)

1. All officers paid by the government of the State of New Jersey shall be paid their salaries or compensation semi-monthly.
 2. This act shall take effect immediately. (April 7th, 1913.)
-

CHAPTER 158, P. L. 1914.

A Supplement to an act entitled "An act regulating the receipt and disbursement of State moneys in certain cases," approved October thirty-first, one thousand nine hundred and seven. (P. 290.)

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. It shall be the duty of the Comptroller of the Treasury of this State, within sixty days after the passage of this act, to prepare a form of requisition covering the doing of any work or labor, or the furnishing of any goods, chattels, supplies or material of any kind whatsoever, for use in every department, institution, commission, committee, official, board or body of the State government, which said form of requisition, when so prepared as aforesaid, shall be the only form which shall be used for the ordering of any work or labor, or the furnishing of any goods, chattels, supplies or materials of any kind whatsoever, for the use of said department, institution, commission, committee, official board or body of the State. There shall be indicated in said form of requisition the purpose of expense, the limitation of expense and a blank space for the signature of the officer authorized by law to incur any obligation or expense on the part of said department, institution, commission, committee, official, board or body of the State government, and provision shall be made in said form for the counter signature of the Comptroller or an assistant specially designated by him. A notice shall also be printed on said form of requisition that the same shall be invalid unless countersigned by said Comptroller or the assistant designated by him.

2. It shall be the duty of each and every department, commission, committee, official, board or body of any institution or organization of this State to designate the proper officer who shall sign all requisitions pursuant to the act to which this act is a supplement and to this act, and such designation shall be filed in the office of the Comptroller of the Treasury of this State within sixty days from the date of the passage of this act.

3. It shall be the duty of the Comptroller of the Treasury to prepare the form upon which shall be rendered all statements of indebtedness against any department, institution, commission, committee, official, board or body of the State government, which form of indebtedness when so prepared as aforesaid shall be the only form which shall be used for the evidence of and record of such indebtedness of such department, institution, commission, committee, official, board or body of the State government. A notice shall also be printed on said statements of indebtedness that the same shall be invalid unless accompanied by the requisition by which said indebtedness was incurred as hereinbefore provided in this act. Said statements of indebtedness shall be approved in the manner now provided in the act to which this act is a supplement by the department, institution, commission, committee, official, board or body of the State government which has incurred the indebtedness set forth therein. The Comptroller of the Treasury shall have the power to indicate to every department, institution, commission, committee, official, board or body of the State government, the manner and method in which any and every form of indebtedness, including salaries of officers and employees, when approved as provided by the act to which this act is a supplement, and in accordance with the provisions of this act, shall be presented to his department for audit, and it shall be his duty to examine, audit, adjust and settle all accounts so presented and certify the amounts adjusted or allowed to the Treasurer of the State for receipt and payment, and they shall be paid on warrant of the Comptroller when so examined, audited, adjusted and settled.

4. It shall be the duty of the Comptroller of the Treasury, in addition to the records now required by law or in the interests of the State, to provide such additional records as will easily indicate the expenditures authorized and anticipated by the issuance of any requisition as provided by this act, and to adjust the same in such manner as the interests of the State may demand and in no event shall said Comptroller, either by himself or the assistant designated by him, approve any requisition issued by any department, institution, commission, committee, official, board or body of the State for any sum in excess of the amount appropriated for any such department, institution, commission, committee, official, board or body of the State government in any fiscal year; *provided, however*, in the case of any department, institution, commission, committee, official, board or body of the State government which is now or hereafter may be in receipt of earnings, fines, fees, et cetera, or moneys from sources other than appropriations and which, by the operation of any law, are entitled to the use of the same for the purposes and expenses of said department, institution, commission, committee, official, board or body of the State government, it shall be lawful for the State Comptroller to approve of requisitions in the manner heretofore provided, up to the amount of said earn-

ings, fines, fees, et cetera, on deposit in the State Treasury, or as shown to his satisfaction by the records of said department, institution, commission, committee, official, board or body of the State government, up to and including October thirty-first of each year. It shall be lawful for the State Comptroller during the last month of the fiscal year to retain in his possession, out of the moneys appropriated but unexpended, a sum sufficient to pay all bills for which requisitions have been issued in accordance with the provisions of this act during the said fiscal year, but which remain unpaid.

5. It shall be the duty of the State Treasurer to pay, on the warrant of the Comptroller, all bills which have been duly certified according to the provisions of this act.

6. All acts and parts of acts inconsistent with the provisions of this act be and the same are hereby repealed, and this act shall take effect immediately.

Approved April 14th, 1914.

CHAPTER 3, P. L. 1916.

A Further Supplement to an act entitled "An act regulating the receipt and disbursements of State moneys in certain cases," approved October thirty-first, nineteen hundred and seven.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. Every requisition under the act to which this is a supplement, shall immediately upon its receipt in the office of the Comptroller of the Treasury be endorsed or stamped with the date of its receipt and shall be allowed or rejected by the Comptroller of the Treasury within the next business day after being so received, he having regard only to the question of whether or not the amount of such requisition is within the appropriation or allowances for each department, institution, commission, committee, official, board or body of the State, respectively, by whom such requisition is made, and not to the purpose for which such requisition shall be made or the cost, price, character or manner of purchase of articles therein mentioned.

2. No requisition shall be required for any salary or compensation that has been previously fixed and ascertained by law and is covered by any annual or supplemental appropriation.

3. This act shall take effect immediately.

Approved February 14, 1916.

CHAPTER 283, P. L. 1916.

An Act to amend an act entitled "A further supplement to an act entitled 'An Act to regulate receipts and disbursements of State moneys in certain cases,' approved October thirty-first, nineteen hundred and seven," which further supplement was approved February fourteenth, nineteen hundred and sixteen.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section three of the above-mentioned act is hereby amended so as to read as follows:

3. This act shall take effect November first, nineteen hundred and sixteen.
2. This act shall take effect immediately.

Approved March 31, 1916.

CHAPTER 219, P. L. 1914.

An Act to amend an act entitled "An act for the punishment of crimes" (Revision of 1898), approved June fourteenth, one thousand eight hundred and ninety-eight.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section thirty-one (31) of the act to which this act is an amendment be and the same is hereby amended to read as follows:

31. Any person or persons, board or body charged with or having the control of any State office, department or institution, any board of chosen freeholders, or any township committee, or any board of aldermen, or common councilmen, or any board of education, or any board of commissioners of any county, township, city, town or borough in this State, or any committee of any such board, committee or commission, which, or any member thereof who shall disburse, order or vote for the disbursement of public moneys, in excess of the appropriation respectively to any such board or committee; or which board or committee, or any member thereof, who shall incur obligations in excess of the appropriation and limit of expenditure provided by law for the purposes respectively of any such board or committee, thus disbursing, ordering or voting for the disbursement and expenditure of public moneys, or thus incurring obligations in excess of the amount appropriated, and limit of expenditure as now or hereafter appropriated, and limited by law, shall be jointly or severally guilty of a misdemeanor; *provided*, nothing herein shall prevent any board of education from keeping open the public schools.

2. This act shall take effect immediately.

Approved April 15th, 1914.

CHAPTER 170, P. L. 1915.

An Act to amend an act entitled "An act to amend an act entitled 'An act to amend an act entitled "A supplement to an act entitled 'An act for the punishment of crimes (Revision of 1898),' " approved June fourteenth, one thousand eight hundred and ninety-eight, which supplement was approved October twenty-eighth, one thousand nine hundred and seven, and which amendment was approved March twenty-fifth, one thousand nine hundred and eight," approved April first, one thousand nine hundred and thirteen.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. Section one of the act of which this act is amendatory is hereby amended to read as follows:

1. Save when otherwise ordered, in writing, by the State House Commission, no contract or agreement for the construction of any building or buildings, for the making of any alterations, extensions or repairs thereto, for the doing of any work or labor, or for the furnishing of any goods, chattels, supplies or materials of any kind whatsoever, the cost or contract price whereof is to be paid with State funds, and shall exceed the sum of one thousand dollars, shall be awarded, made or entered into by the board of managers or board of trustees of any State institution, or by any State department or commission, or by any person or persons whomsoever acting for or on behalf of the State, without first having publicly advertised for bids upon the same, according to the specifications to be furnished to, or for the inspection of prospective bidders, by the board of managers or board of trustees of any State institution, or by the State department or commission, or by the person or persons acting for or on behalf of the State, authorized to procure the same, which advertisement shall be inserted in three or more newspapers once each week for at least three weeks, successively next before the time fixed for receiving bids, two of which newspapers shall be printed and published in the county wherein such building or buildings are to be built, such alterations, extensions or repairs made, such work or labor done, or such goods, chattels, supplies or materials furnished, and one of which newspapers shall be printed and published in the city of Trenton, in this State, and which advertisement shall designate the time and place when and where sealed proposals, which shall be required to be accompanied in each case with cash or a certified check for at least five per centum of the amount of the bid, will be received and publicly opened and read; and the contract shall, within fourteen days thereafter, be awarded to the lowest responsible bidder except that the right to reject any or all bids is reserved to and may be exercised by the person or persons acting for or on behalf of the State in such matters; subject to the execution by him of a proper contract or agreement and the furnishing by him, within a reasonable time, of a bond to the State of New Jersey, which bond shall be in the amount equal to at least fifty per centum of the amount of such contract or agreement, with satisfactory security, conditioned for the faithful performance of his contract or agree-

ment; any person or persons authorizing, consenting to, making or procuring to be made, any contract or agreement in violation of any of the provisions hereof, or making or procuring to be made payment of State funds for or on account of any contract or agreement made or entered into in violation of any of the provisions hereof, shall be guilty of a misdemeanor.

2. This act shall take effect immediately.

Approved April 6, 1915.

CHAPTER 262, P. L. 1915.

An Act to amend an act entitled "A supplement to an act entitled 'An act regulating the receipt and disbursement of State moneys in certain cases,' approved October thirty-first, one thousand nine hundred and seven," approved March thirtieth, one thousand nine hundred and ten.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. Any board or institution of the State, receiving from the State for its maintenance an annual appropriation of State funds, may, for the purpose of paying such current expenses of maintenance requiring a prompt cash outlay, establish a petty cash expense fund.

2. The State Treasurer, upon the warrant of the State Comptroller, may, for the purpose aforesaid, pay to the treasurer of such board or institution or the person or official acting as such, from the annual appropriation of State funds for its maintenance, an amount necessary therefor not exceeding two thousand dollars (in any fiscal year) upon the application in writing by the management of such board or institution.

3. The treasurer of such board or institution, or the official acting as such, shall include in the monthly schedule of expenses as provided by section five (5) of the act to which this act is a supplement, a detailed monthly account of the disbursement of said fund accompanied by appropriate vouchers therefor approved by the management of such board or institution, and shall devote the sum thereof when received from the State Treasurer to the reimbursement of said fund.

4. Any question arising in respect hereof with reference to the amount to be allowed each institution or board, the expenditure thereof, the accounting therefor, and the repayment thereof to the State Treasurer, shall be finally determined by the ruling of the State Comptroller.

5. All acts or parts thereof inconsistent herewith are hereby repealed.

6. This act shall take effect immediately.

Approved April 8, 1915.

CHAPTER 68, P. L. 1916.

An Act concerning the purchase of all furniture, equipment, materials, supplies, printing and stationery for the use of the State and the State institutions, boards, commissions and officers.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. The duty and the authority for the purchase of any and all furniture, equipment, materials, supplies, printing and stationery, of whatever kind or description, used or needed for use by any and all officers, boards, commissions or subdivisions of any kind, of the State government or by any State institution, board or commission or agency of the State, maintained in whole or in part thereby, hereinafter referred to as a using agency, is hereby exclusively vested in the Governor, the State Treasurer and the State Comptroller, ex-officio, constituting the State House Commission. Nothing herein contained shall apply to any district board of education or its officers.

2. No furniture, equipment, materials, supplies, printing or stationery, the whole or part of the costs whereof is to be paid from the treasury of the State, shall be contracted for or purchased, except in accordance with the provisions of this act. Any contract or agreement for purchase made otherwise than in accordance with the provisions of this act shall be void and no money shall be paid from the State treasury on account thereof.

3. Nothing herein contained shall apply to the erection or construction of any building or addition thereto or alteration or repair thereof as distinguished from the furnishing or equipment or maintenance thereof, nor to the construction or repair of any road or bridge, nor to the performance of any like work.

4. There is hereby created the office of State Purchasing Agent, the incumbent of which office, who shall be appointed by the Governor, by and with the advice and consent of the Senate, shall have had practical experience in a regularly organized purchasing department, either municipal, State, federal or private business corporation. He shall hold his office for a term of five years and until his successor is appointed and qualified. He shall receive an annual salary of five thousand dollars. He shall give bond to the State of New Jersey in the sum of fifty thousand dollars, which bond shall be conditioned for the faithful performance of his duties, and conditioned also that he shall not be interested or concerned, directly or indirectly, financially or otherwise, with any person, partnership, firm or corporation with whom or which any purchase or contract for purchase shall be made in the performance of his duties. He may be removed at any time by the Governor for cause affecting the performance of his duties, but neither expiration of term of office nor removal therefrom shall operate as a discharge of said bond, until the lawful period thereof, to wit, sixteen years, has passed. The premiums upon such bonds shall be paid by the State, upon the certification of the State House Commission.

5. The State Purchasing Agent, under the supervision and control of the State House Commission and as its agent, shall carry into effect and execute the provisions of this act. He shall appoint such assistants, clerks and stenographers as may be necessary in the discretion of the State House Commis-

sion, who shall determine their compensation. He shall act, and execute all contracts, in the name of the State of New Jersey.

6. The State House Commission shall have power if and as necessary in their discretion, to maintain warehouses, to rent or lease or construct the same or rent or lease warehouse or storage accommodations; to arrange with contractors for whole or partial deliveries to such warehouses and to make deliveries therefrom or to arrange with contractors for deliveries directly to using agencies, as may be necessary or expedient.

7. The State House Commission shall have power to combine all or so many of the existing State laboratories as in their judgment may be advisable into one or more State Physical and Chemical Laboratories for the execution of such functions as may now or hereafter be required thereof, as well as those functions in and by this act contemplated to be performed, and to maintain the same as State Physical and Chemical Laboratories; to provide such accommodations and working force therein by transfer and appointment as in their judgment may be necessary, and to fix the compensation therefor, as and when appropriations may become available for that purpose.

8. The State House Commission shall have power to establish and determine standards of quality by physical or chemical formulæ or otherwise, and to change the same from time to time and to determine the relation thereto of articles offered or furnished; to use for such purposes the existing laboratories maintained by the State or as combined into State Physical and Chemical Laboratories; to establish a list of other public or private laboratories whose tests and analyses will be accepted, and to fix the fees required to be paid for tests or analyses made in any State laboratory. The fees required by any State or other laboratory for any analysis or test made by any prospective contractor, prior to the award of a contract, shall be paid by such prospective contractor. Inspection analyses or tests shall be at the expense of the State.

9. In the purchase of materials and supplies, the laboratory test of quality with reference to the standard to be established for the State, shall be preferred to trade names or words of description, and so far as is practicable such laboratory standards shall be established and purchases made with reference thereto.

10. So far as practicable, all furniture, equipment, materials, printing, stationery and supplies shall be standardized, and no variation shall be allowed from an established standard without the written approval of the State House Commission. Such standards shall be determined upon the needs of all using agencies, so far as their needs are in common, and for groups of using agencies or single using agencies so far as their needs differ. Where changes or alteration in equipment are necessary in order to permit the application of any standard, such changes and alterations shall be made as rapidly as possible.

11. Each using agency shall designate one of its officers or one member of its board or governing body, as its representative upon an Advisory Board constituted of such representatives, if such agency shall so desire. This Advisory Board shall co-operate with the State House Commission in the determination of standards, making exemptions, quality and prices of supplies, and in all

respects advise and assist the State House Commission in the performance of its duties and the accomplishment of the purposes of this act. The Advisory Board shall meet with the State House Commission at least once in each three months, and in addition at such other times as the State House Commission shall direct. The needs of the several using agencies shall be determined by each of them, as heretofore, but shall be supplied in accordance with the provisions and requirements of this act.

12. Nothing herein contained shall require any change in the form or manner of making appropriations. Each using agency shall, at the times and for the periods specified by the State House Commission, present to the State Purchasing Agent detailed applications for furniture, equipment, materials, printing, stationery and supplies. The State Purchasing Agent shall prepare schedules thereof, and then submit such schedules to the State House Commission for their consideration. If it so desires, the State House Commission shall call for the co-operation of the Advisory Board with reference thereto or any part thereof, or hear any using agency with reference to its part therein, and then determine upon, change, add to or subtract from such schedules, and upon such schedules shall make requisition upon the State Comptroller for the amount of money estimated to be necessary to defray the cost thereof, indicating the appropriations against which the proposed purchases will be charged. Such requisition shall be approved by the Comptroller unless it shall appear that the free balance of any appropriation is not sufficient to cover the charge proposed against it. And in that event the requisition shall be rejected as to such charges only, and approved as to all others. The Purchasing Agent shall then arrange such schedules or parts thereof as are included in or covered by the approved requisition, for advertisement and contract in the manner best calculated to attract competition and advantageous prices, as well as prescribe conditions for delivery and the like details. The Purchasing Agent shall make all purchases upon such schedules and requisitions. The bills for such purchases shall be apportioned by the State Purchasing Agent among the requisitioning agencies in proportion to the purchases made therefor, and certify the same so apportioned to the State Comptroller, to be charged against the appropriation or appropriations indicated by the certificate of the State Purchasing Agent and the accompanying requisitions. The bills therefor shall be paid by the State Treasurer upon the Comptroller's warrant.

13. The State House Commission shall have power, by written order, to permit purchases to be made by any using agency directly, and not through the State Purchasing Agent, whenever it shall appear to the satisfaction of the State House Commission that by reason of the excess of transportation cost, a lower price with equal quality can be obtained by the using agency, or as in the case of fresh vegetables, fish, eggs, milk and the like perishable articles, where the using agencies are widely scattered and there are nearby local markets, or for any reason, in the judgment of the State House Commission warranting such exception. Such using agencies receiving such permission shall report in writing to the State House Commission their acts and expenditures under such orders.

14. The State House Commission shall have power to make all rules and regulations necessary or proper to the execution of the object of this act and the performance of its duties and the duties of the State Purchasing Agent under the provisions of this act. It shall make an annual detailed report to the Legislature of its operations under this act.

15. The State House Commission and the State Purchasing Agent, in the performance of their duties under this act, shall be subject to the provisions of all the laws of this State applicable to the expenditure of public moneys not inconsistent herewith.

16. The State Purchasing Agent shall be appointed as soon as may be after this act becomes a law, with such assistants, inspectors, clerks and stenographers as may be necessary, and he, together with the State House Commission, shall immediately enter on the performance of their duties, looking to the collection of the necessary information, preparation of the necessary standards, schedules and the like details, necessary to the operation of this act, but this act shall not otherwise become effective until the first day of November, one thousand nine hundred and sixteen. This act shall then become effective throughout; all contracts for furniture, equipment, materials, printing, stationery and supplies then outstanding and unfilled shall pass to and be completed by the State House Commission, but no new contracts or purchases shall be made except in accordance with the provisions of this act. *Provided, however,* that with reference to any using agency, standards for which cannot be completed within the time specified, the State House Commission may establish temporary provisions and regulations or exemption until the standardization therefor is complete.

17. The proceedings of the State House Commission under this act shall be open to the citizens of the State; their minutes and records, and the records, contracts, orders and schedules of the State Purchasing Agent, shall be public records, open to the inspection of any citizen or interested person, firm or corporation, at all reasonable hours.

18. Agreements for purchases may be made in the form of contracts for the furnishing of specific articles at fixed prices, or for the furnishing of articles according to the specifications at a fixed rate with provision for a minimum amount subject to increase at the same rate, or for the furnishing of articles according to specifications without a stated minimum or maximum at a rate stated, commonly known as the "price agreement."

19. Nothing herein contained shall be construed to alter, amend or repeal any provision of any law of this State relating to the purchase or use of the products of the labor of the inmates of any charitable, reformatory or penal institution of this State.

20. All acts and parts of acts inconsistent herewith are hereby repealed.

Approved March 16, 1916.

MINUTES OF THE MEETING OF THE ADVISORY BOARD, CREATED BY THE PURCHASING ACT OF 1916, HELD IN THE OFFICE OF THE STATE COMPTROLLER, STATE HOUSE, TRENTON, N. J., AT 11 A. M., FRIDAY, AUG. 18, 1916.

The first regular meeting of the Advisory Board, under the Purchasing Act of 1916, was held at the above place and date, the following representatives of various State institutions being present:

Dr. David F. Weeks, Superintendent, Village for Epileptics, Skillman.
Mr. O. M. Bowen, Warden, State Hospital, Morris Plains.
Mr. S. T. Atchley, Warden, State Hospital, Trenton.
Dr. S. B. English, Superintendent, State Tuberculous Sanatorium, Glen Gardner.
Dr. M. A. Hallowell, Superintendent, State Institution for Feeble Minded, Vineland.
Mr. J. F. Macomber, State Colony for Feeble Minded Males, Four Mile.
Mr. R. J. Drever, Superintendent, Home for Boys, Jamesburg.
Mrs. Eliz. V. H. Mansell, Superintendent, State Home for Girls, Trenton.
Mr. Jacob Shurts, President Board of Inspectors, State Prison, Trenton.
Mr. John Bodine, Secretary, Board of Managers, Home for Disabled Soldiers, Vineland.

Mr. George F. Chandler, Quartermaster, Home for Disabled Soldiers, Kearney.
Mrs. Isabel Vanderburgh, State Normal School, Newark.
Mr. W. M. Kilpatrick, Principal, School for the Deaf, Trenton.
Mr. J. S. Neary, Steward, State Normal School, Trenton.
Mr. W. R. Valentine, Principal Manual Training School for Colored Youth, Bordentown.

Mr. Wm. H. Schults, Steward, Village for Epileptics, Skillman.
Mr. E. E. Grosscup, State Purchasing Agent.
Mr. J. J. Nevin, Assistant to the Comptroller, representing the Comptroller.
Mr. Grosscup informed the Board of the purpose of the meeting.
Dr. David F. Weeks was duly elected Chairman of the Advisory Board, and Mr. J. S. Neary was duly elected secretary of said Board.

The following articles were brought before the Board, discussed and submitted to vote, and were adopted as standards:

 - 23 Macaroni in 1 lb. cartons, King Midas, or equal.
 - 24 Molasses, New Orleans, open kettle, in bbls. by gals.
 - 25 Mushrooms, pts., Robert Brand, stems and pieces, 100 pts. to case.
 - 26 Mustard, Golden, 8 oz. bottles, or equal, 4 doz. to box.
 - 27 Mustard, No. 1, yellow, ground, in 6 or 12 lb. boxes.
 - 28 Rolled Oats, 180 lbs. to bbl., Shoemaker's Avena, or equal, per lb.
 - 29 Olive Oil, Pure Italian, in 1 gal. cans, 6 cans to case, per case.
 - 30 Olives, Selected Spanish, Gold Seal, or equal, 260 to 280 to gal., per gal.
 - 31 Olives, Selected Spanish, 14 oz. bottles, 42 to 46 olives to bottle.
 - 32 Olives, selected, 15½ oz. to the bottle.
 - 33 Olives, stuffed, Manzenilla, 14 oz. to the bottle.
 - 34 Peaches, California Muir, unpeeled, evaporated, choice quality, current crop, delivered in boxes containing 25 or 50 lbs., per lb.
 - 35 Peas, extra sifted, Early June, Brakeley's or equal, 2 doz. cans to case, size No. 2, new crop, per case.
 - 36 Peas, French, Barton Brand, imported peas, or equal, 100 pt. cans to case.
 - 37 Canned peas shall be full packed, of the quality, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall be from the latest crop, fresh, clean and sound, and shall conform in all respects to the laws and standards of the United States and the State of New Jersey.
- They shall be early June, Number Three (No. 3) sieve and tender, delivered in what are known to the trade as Number Two (No. 2) and Number Ten (No. 10) tins, as called for in the schedules.
- Payment shall be made for the number of dozen tins accepted, at the price bid per dozen tins, delivered in the size of container specified.
- 38 Pickles, sweet, in bottles, 14 oz. bottles, 2 doz. to case, per doz.
 - 39 Pickles, sour, 1200s, 45 gal. bbls., per bbl. Prices will also be obtained on quarter, half and full barrels.
 - 40 Pickles, sweet, 1200s, 45 gal. bbls., per bbl. Prices will also be obtained on quarter, half and full barrels.
 - 41 Dill pickles shall be of the quality, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall conform in all respects to the laws and standards of the United States and the State of New Jersey. The measure shall be net measure.
- They shall be domestic or imported genuine dills, whole cucumber, four (4) to five (5) inches in length, first quality, latest crop, no alum.
- They shall be delivered in casks containing thirty-two gallons to count approximately nine hundred pickles to the cask, or in kegs containing ten gallons to count approximately two hundred eighty pickles to the keg, as called for in the schedules.
- Payment shall be made for the number of casks or kegs accepted, at the price per cask or keg.

42 Whole Peas, dried, shall be either Scotch or green, not older than the crop of year previous to year in which purchases are to be made, sound, wholesome and in every respect first quality.

The weight shall be net weight.

They shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

43 Split peas, dried, shall be yellow, not older than the crop of year previous to year in which purchases are to be made, sound, wholesome and in every respect first quality.

The weight shall be net weight.

They shall be delivered in the manner as called for in the schedules.

Prices will be obtained on 1 lb. cartons, 50 lb. and 100 lb. pkgs. and bags.

Payment will be made for the number of pounds accepted, at the price bid per pound.

44 Prunes, Best California, 50-60, 50 lb. boxes, new crop, per lb.

45 Rice shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be whole, domestic, well-milled, fresh and free from dirt.

The weight shall be net weight.

It shall be delivered in bags of the size as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the prices bid per pound.

46 Rice, whole, unpolished, No. 1 Carolina.

47 Raisins, cleaned and seeded, in 25 lb. pkgs.

48 Seedless Raisins shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

They shall be California, of current crop and choice quality.

The weight shall be net weight.

They shall be delivered in cartons containing one pound.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

49 Loose muscatel raisins shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall conform in all respects to the laws and standards of the United States and the State of New Jersey. The weight shall be net weight.

They shall be of the kind known to the trade as "Three Crown" Californian, current crop.

They shall be delivered in bulk in the kind of container as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

50 Table salt shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be high grade, fine grain, clean, vacuum pan table salt.

The weight shall be net weight.

It shall be delivered in barrels containing two hundred eighty pounds, as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind of container specified.

51 Worcestershire Sauce, 5¼ oz. bottles, Lea & Perrin's, 36 bottles to case, per case.

52 Sauce, table, "Yorkshire."

53 Granulated sugar shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be of the kind and quality known to the trade as Standard or Fine.

The weight shall be net weight.

It shall be delivered in barrels or bags as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind of container specified.

54 Powdered sugar shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be of the kind and quality known to the trade as Standard Powdered.

The weight shall be net weight.

It shall be delivered in the kind and size of container as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind and size of container specified.

55 Loaf sugar shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be of the kind and quality known to the trade as Standard Cube.

The weight shall be net weight.

It shall be delivered in the kind and size of container as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind and size of container specified.

56 Soft sugar shall be of the quality, weight, content and size of container specified, and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

It shall be of the kind and quality known to the trade as C Number Twelve.

The weight shall be net weight.

In case of a dispute as to the quality of any delivery, soft sugar shall conform to the following analysis, made according to the methods employed by the United States Department of Agriculture.

The sugar shall contain not more than five (5) per cent. of moisture on delivery, and not less than ninety (90) per cent. of sucrose, as determined by double polarization, and not more than five (5) per cent. of invert sugar.

It shall be delivered in barrels, or in bags as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind of container specified.

57 Granulated sugar (for medicinal purposes) shall be of the quality, weight, content and size of container specified and equal to the standard sample exhibited by the contracting department. It shall conform in all respects to the standard of the United States Department of Agriculture.

It shall be of the kind and quality known to the trade as confectioners' granulated.

The weight shall be net weight.

It shall be delivered in the kind and size of container as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound, delivered in the kind and size of container specified.

58 Buckwheat Flour, Hecker's or equal, in 100 lb. sacks, per lb.

- 59 Syrup, Boston Pure Drip, light color. Bids will be asked for by the bbl., $\frac{1}{2}$ bbl., and $\frac{1}{4}$ bbl.
- 60 Tapioca, Pearl, in bulk, in boxes, or bbls., per lb.
- 61 Soda Crackers, N. B. C. Co., $9\frac{1}{4}$ oz. pkgs., 12 to carton, per carton.
- 62 Saltine Crackers, N. B. Co.
- 63 Codfish, Georges Banks, boneless stripped, 40 lbs. net to box, must be labeled "codfish," per lb.
- 64 Hake, salt, choice, white stripped, in boxes, 40 lb. net to box, per lb.
- 65 Mackerel, salted No. 2 Norway, fat, fall caught, free from rust, 220 to 240 count, 200 lbs. to bbl. To be delivered in $\frac{1}{4}$, $\frac{1}{2}$ or full bbls., as ordered, per bbl.
- 66 Mackerel, shore, No. 1.
- 67 Herring, salt, choice split, 550 fish to bbl.
- 68 Vinegar, shall be made from pure apple juice containing not less than $4\frac{1}{2}$ per cent. Acetic Acid ($C^2H^4O^2$) by weight, and not less than 2 per cent of pure cider vinegar solids, on full evaporation over boiling water. It shall be free from ingredients of lead, copper or sulphuric acid and shall contain no artificial matter. It shall be delivered in correctly gauged barrels. In bbls., per gal.
- 69 Asparagus, California, white, in 1 lb. cans (2 doz. cans to case) and in No. 10 cans, new crop, per case.
- 70 Armour's Extract Beef, 4 oz. cans solid, 1 doz. cans to case, per case.
- 71 Condensed Milk, Eagle Brand, 48 cans to case, per case.
- 72 Pork, fancy, clear pork, 75 to 80 pcs. to bbl., to weigh 200 lbs. net per bbl.; per bbl.
- 73 White Cherries, Standard Royal Ann No. 8, 6 cans to case, per case. Price also to be obtained on same in No. 10 cans.
- 74 Uneeda Biscuit, 1 doz. pkgs. to carton, per carton.
- 75 Yeast, Fleischmann, in 1 lb. pkgs. per lb.
- 76 Postum, large size, 2 doz. pkgs. to carton, per carton.
- 77 Spring Wheat patent flour shall be made from sound, hard wheat by the patent process with the clear flour taken out. It shall contain not less than eleven and five-tenths (11.5) per cent. of gluten and not more than forty-nine hundredths (0.49) per cent. of ash and shall be equal to the standard sample to be deposited by the contracting department with the Flour Committee of the New York Produce Exchange.

Wheat flour (number one) shall be full stock winter wheat, straight flour and sound, equal to the standard sample to be deposited by the contracting department with Flour Committee of the New York Produce Exchange and there known as sample "No. 1."

Wheat flour (number two A) shall be Kansas ninety-five (95) per cent. patent flour and sound, equal to the standard sample to be deposited with the Flour Committee of the New York Produce Exchange and there known as sample "No. 2A."

Wheat flour (number two C) shall be spring bakers' flour and sound, equal to the standard sample to be deposited by the contracting department with the Flour Committee of the New York Produce Exchange and there known as sample "No. 2 C."
- 78 Steer Beef, to be selected from native corn fed cattle, weighing from 700 to 750 lbs. average on dressed carcasses.
- 79 Mutton, must be fresh, good, fat, and marketable, from wethers over one year and under three years old. The carcasses must be trimmed as follows, and the average weight in that condition must not be less than 40 lbs.: Hog dressed, plucks in, head must be cut off at the first vertible joint, the shanks of the fore-quarters at the knee joint and the hind quarters at the hock joint; mutton must be good quality and handy.
- 80 Spring lambs, must be fresh, good, fat, and marketable. The carcasses must be trimmed as follows, and the average weight in that condition must be between 35 and 45 lbs.: Hog dressed, plucks in, head must be cut off at the first vertible joint, the shanks of the fore quarters at the knee joint and the hind quarters at the hock joint; lamb must be good quality, and handy.
- 81 Yearling lambs, must be fresh, good, fat, and marketable. The carcasses must be trimmed as follows, and the average weight in that condition must be between 35 and 45 lbs.: Hog dressed, plucks in, head must be cut off at the first vertible joint, the

shanks of the fore quarters at the knee joint and the hind quarters at the hock joint; lamb must be good quality and handy.

82 Smoked Beef, inside pieces, thick, well dried.

83 Skinback Hams, must be of the best quality weighing from 16 to 18 lbs. each, average 17 pounds, neatly and closely trimmed, perfectly cured, slowly and thoroughly smoked, cut short, well rounded at the butt, properly faced, cut just above the hock joint, per lb.

84 Regular Hams, average 12 lbs.

85 Fresh Fish, consisting of weak, haddock, cod, seabass, flounders, croakers and porgies. Fish must be cleaned and have the head taken off, and insides out. The party receiving the contract must not furnish the same kind of fish two weeks in succession. The contractor will also be required to furnish seabass, porgies, flounders and croakers in the height of season, 50 lbs. of each order will be special according to season and as ordered by the Warden, per lb.

86 Clams in shell, per 100.

87 Clams, opened, per 100.

88 Lard, in tubs, pure hog lard, must be unadulterated, per lb.

89 Compound Lard.

114 Soda Bi-Carbonate, in 20 lb. boxes.

115 Bacon, smoked, best boneless, per lb.

116 Beans, stringless, canned, No. 2 can, 24 cans to case, also No. 10 can.

117 Catsup, Curtis Blue Label, 14 oz. bottles, 25 bottles to case; also in gallon cans.

118 Catsup, Snyder's, in gallon containers.

119 Cornmeal, white, per lb.

120 Cranberries, per crate, and per half bushel.

121 Oyster Crackers, Exton or equal, loose, in boxes or bbls., per lb.

122 Figs, California, in 10 oz. pkgs., 12 pkgs. to box, per lb.

123 White Grapes, in kegs, 30 lbs. net to keg, per keg.

124 Prepared Ham, per lb.

125 Nuts, almonds, per lb.

126 Nuts, English Walnuts, per lb.

127 Onions, in sacks, 2 bu. to sack.

128 Oranges, Best Grade, 150, 176 or 216, per box.

129 Lemons, Best Grade, California, or equal, 360 lemons to box, per box.

130 Pineapples, shall be of the kind known to the trade as size 24 suitable for immediate use. They shall be sound, wholesome, and in every respect first quality. They shall be delivered in the manner as called for. Per crate.

131 Puffed Rice, 36 pkgs. to case, per case.

132 Turkeys shall be fresh, fleshy and of good quality, dry picked, New York dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Between the dates of November 1st and February 1st only fresh killed, chilled turkeys which are not and have not been frozen shall be accepted. During the remaining months of the year frozen fresh turkeys of the quality herein specified shall be accepted, but at no time shall turkeys which have been frozen and thawed out be accepted.

They shall weigh not less than ten (10) nor more than fifteen (15) pounds each.

They shall be delivered as called for in the schedules and receipts shall be given for weights as received at the point of delivery.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

133 Fresh cut pork loins shall be of good quality, regular commercial New York cut, from corn-fed hogs, each loin to weigh between eight and ten pounds, with the skin removed and including only half the backbone, ribs and spinal column. No loins from stags or old sows and frozen or thawed out pork shall be accepted.

All fresh pork shall be covered when, and in the manner, called for in the schedules.

They shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

134 Fresh pork sausage shall be made from strictly fresh pork with not more than one-third (1-3) by weight of fat and shall be inspected and stamped by an inspector of the United States Bureau of Animal Industry, and so marked.

The casings of the sausage shall be either sheep or hog casings, as called for in the schedules.

When sheep casings are used there shall be eight (8) to ten (10) sausages to the pound and when hog casings are used there shall be six (6) to eight (8) sausages to the pound.

They shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

135 Canned sardines shall be full packed, of the quality, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

They shall be French, boneless, each tin containing eight (8) to twelve (12) fish packed in pure olive oil.

They shall be delivered in what are known to the trade as "Number One-half" (No. $\frac{1}{2}$) tins.

Payment shall be made for the number of dozen tins accepted, at the price bid per dozen tins.

136 Salmon, Red Alaska, No. 1 tall tin.

137 Fresh veal shall be of good quality from milk-fed calves, dressed with the skins removed and shall be full carcasses or hind quarters, as called for in the schedules. No frozen, grass or bob veal shall be accepted.

Full carcasses, dressed, shall weigh between ninety (90) and one hundred twenty-five (125) pounds. Hind quarters, dressed, shall be from carcasses of the same weight as that herein specified for full carcasses.

The veal shall be from calves that have been slaughtered for not less than two days. All fresh veal shall be covered when, and in the manner, called for in the schedules. It shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds of full carcasses and the number of pounds of hind quarters accepted, at the price bid per pound for each kind specified.

138 Salt Pork (pork bellies) shall be clear bellies from corn fed hogs and shall weigh from ten (10) to twelve (12) pounds each.

They shall be delivered with the pickle on in wood barrels containing two hundred pounds net weight.

Payment shall be made for the number of barrels accepted, at the price bid per barrel.

139 Fowl, No. 1, weighing $3\frac{1}{2}$ -4 lbs. each, fresh when frozen, in lots of approximately 300 lbs. as ordered.

140 Fowl shall be fresh, fleshy and of good quality, dry picked and New York dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Between the dates of June 1st and January 1st only fresh killed, chilled fowl, which are not and have not been frozen, shall be accepted. During the remaining months of the year frozen fresh fowl of the quality specified herein shall be accepted, but at no time shall fowl that have been frozen and thawed out be accepted. Fowl shall weigh from four (4) to five (5) pounds each.

Fowl shall be delivered in the manner as called for in the schedules, and receipts shall be given for weights as received at the point of delivery.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

141 Chickens shall be young, fresh, fleshy and of good quality, dry picked, New York dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Between the dates of September 1st and January 1st only fresh killed, chilled chickens, which are not and have not been frozen, shall be accepted. During the remaining months of the year frozen fresh chickens of the quality specified

herein shall be accepted, but at no time shall chickens which have been frozen and thawed out be accepted.

Fresh killed, chilled chickens shall weigh from two and one-half ($2\frac{1}{2}$) to four and one-half ($4\frac{1}{2}$) pounds each, with an average weight of three and one-half ($3\frac{1}{2}$) pounds each. Frozen chickens shall weigh from three and one-half ($3\frac{1}{2}$) to four and one-half ($4\frac{1}{2}$) pounds each.

They shall be delivered in the manner as called for in the schedules, and receipts shall be given for weights as received at the point of delivery.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

142 Fresh Hams, to weigh about ten pounds each, on average.

143 Fresh calves' liver shall be from sound calves. It shall be inspected and stamped by an inspector of the United States Bureau of Animal Industry.

All fresh liver shall be covered when, and in the manner, called for in the schedules.

It shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

**MINUTES OF THE MEETING OF THE ADVISORY BOARD UNDER
THE STATE PURCHASING ACT, HELD IN THE OFFICE OF
THE STATE COMPTROLLER, STATE HOUSE,
TRENTON, N. J., AUGUST 21, 1916.**

The second regular meeting of the Advisory Board under the Purchasing Act of 1916 was held at the above place and date, the following members being present:

Dr. David F. Weeks, Chairman, Superintendent Village for Epileptics, Skillman.
Mr. J. S. Neary, Secretary, Steward, State Normal School, Trenton.
Mr. Walter M. Kilpatrick, Superintendent, School for the Deaf, Trenton.
Mr. J. F. Macomber, State Colony for Feeble Minded Males, Four Mile.
Mrs. E. V. H. Mansell, Superintendent, State Home for Girls, Trenton.
Mr. S. T. Atchley, Warden, State Hospital, Trenton.
Mr. W. R. Valentine, Principal Manual Training School for Colored Youth, Bordentown.
Mr. O. M. Bowen, Warden, State Hospital, Morris Plains.
Mr. John W. Bodine, Secretary, Board of Managers, Home for Disabled Soldiers, Vineland.
Mr. George F. Chandler, Quartermaster, Home for Disabled Soldiers, Kearny.
Dr. S. B. English, Superintendent, State Tuberculous Sanatorium, Glen Gardner.
Mr. Wm. Schultz, Steward, Village for Epileptics, Skillman.
Dr. M. A. Hallowell, Superintendent, State Institution for Feeble Minded, Vineland.
Mr. Jacob Shurts, President Board of Inspectors, State Prison.
Mr. E. E. Grosscup, State Purchasing Agent.
Mr. J. J. Nevin, Representing the Comptroller.

The minutes of the last meeting were read and approved.

DR. ENGLISH: Mr. Chairman, I move that each member be asked to present at the next meeting such items as have not been considered, or which were not included in the schedules that have been gone over for the division that has been considered.

MR. ATCHLEY: I second the motion.

Whereupon the motion was regularly placed before the Board by the Chairman and adopted.

Butterine Discussed.

DR. ENGLISH: I move you that the Chairman appoint a sub-committee to work out a specification on butterine.

MR. MACOMBER: I second that motion.

Whereupon the motion was regularly placed before the Board by the Chairman and adopted; and the Chairman appointed Mr. Atchley, Dr. English and Mr. Bowen to serve on such sub-committee.

Special Fish Discussed.

DR. ENGLISH: I move that the matter of special fish be referred to a committee to work out a specification.

MR. MACOMBER: I second the motion.

Whereupon the motion was regularly placed before the Board by the Chairman and adopted; and the matter of special fish was referred by the Chairman to the committee already appointed on Butterine.

On motion of Mr. Chandler, the minutes of the last meeting were amended by the addition of the following item: "136½. Red Alaska Salmon, in barrels, salted."

Coffee Discussed.

MR. BODINE: I move to refer coffee to the same committee.

MRS. MANSELL: Second the motion.

Whereupon the motion was regularly placed before the Board by the Chairman and adopted; and the subject of coffee was referred to the committee already appointed.

Cocoa Discussed.

DR. ENGLISH: I will furnish the sample of the cocoa I buy in bulk later. I would like to get in as a standard this substitute for coffee, "Old Grist Mill Coffee, 24 packages to the case." That is what my people use.

Whereupon the above substitute for coffee was regularly adopted as a standard.

On motion of Mr. Atchley, regularly seconded and adopted, Mr. Shurts, of the Prison, was requested to submit the specification for the coffee, or coffee substitute, they are now using at State Prison, to the Committee on Coffee.

THE CHAIRMAN: The next items to be considered are House Supplies. If there is no objection to them as read, they will be checked and considered as approved.

(The Secretary thereupon read the items upon the House Supplies Schedule of the State Hospital at Trenton.)

Upon motion, duly seconded and passed, the Purchasing Agent was requested to procure samples of the following articles: Table ware (knives, forks, spoons, etc.), china ware, tin ware, enamel ware and glass ware.

After discussion, the Chairman directed that the items in the above classes, appearing on the schedule of State Hospital, Trenton, be submitted to the Purchasing Agent as a guide for him in procuring samples. These items follow, the numbers being those on the State Hospital House Supplies Schedule:

PERMANENT COMMITTEES APPOINTED.

To arrange the Drug Specifications: (Medical and Surgical Committee) Drs. Hallowell, English and Weeks.

To standardize specifications for plumbing, steam fitting, electrical supplies, building materials, etc.: Messrs. Bodine, Shurts and Valentine.

To standardize specifications for Correctional Institutions: Mr. Drever, Mr. Shurts, Dr. Moore, Mrs. Mansell, Miss Caughey.

To standardize specifications for Charitable Institutions: Mr. Atchley, Mr. Bowen, Dr. Hallowell, Dr. English, Mr. Macomber, Mr. Bodine, Mr. Chamberlain.

To standardize specifications for Educational Institutions: Messrs. Neary, Kilpatrick, Valentine and Chapin.

STANDARDS OF HOUSE SUPPLIES ACTUALLY AGREED UPON.

The following articles were read aloud, discussed, placed before the Board for vote, and agreed upon as standards:

S. H.			
H. S.			
Stand	Sched.		
No.	No.	N. Y.	Article.
144 .	1		Soap, Laundry, shall be house grease, properly, saponified, by caustic alkali. It shall not contain more than 25% of rosin of good quality, calculated on a 70% anhydrous soap basis. It shall not contain more than 30% moisutre. When the moisture in any delivery exceeds 28%, a deduction shall

be made from the net weight of soap delivered of $1\frac{1}{2}\%$ for each per cent. that the moisture in the soap delivered exceeds 28 per cent. 65 lbs. actual soap to box, per box.

145	2	Ivory Soap, 6 oz. cakes, 100 cakes to box.
146	3	Evanson's Twin Bar Naptha Soap, 65 lbs. actual soap to box, per box.
147	4	Castile Soap, M. Werk & Co., cut 4 cakes to lb., per lb.
148	5	Wyandotte Soda, J. B. Ford, per lb.
149	6	Chip Soap.

Quality.

Chip shall be the neutral product resulting from the saponification of clean prime tallow with caustic alkali. (Moisture). It shall not contain more than 16 per cent. moisture. When the moisture in any delivery exceeds 12 per cent. a deduction shall be made from the net weight of soap delivered of 1 per cent for each per cent. that the moisture in the soap delivered exceeds 12 per cent. (Impurities). It shall be free from rosin, silicate of soda, and other adulterants. It shall not contain more than 1 5-10 per cent. of unsaponified and unsaponifiable fats or oils, nor of carbonates calculated as sodium carbonate (Na_2CO_3). More than 0.8 per cent. of matter insoluble in water, more than 0.7 per cent. of chlorides calculated as sodium chloride (NaCl) nor more than 0.25 per cent of uncombed alkaline hydrates calculated as sodium hydrates (NaOH). Whereupon the meeting adjourned.

Date of next meeting: Thursday, August 24, 1916.

**MINUTES OF THE MEETING OF THE ADVISORY BOARD UNDER
STATE PURCHASING ACT, HELD IN SENATE CHAMBER
ANTE-ROOM, STATE HOUSE, TRENTON, N. J.,
ON THURSDAY, AUGUST 24, 1916.**

PRESENT: Dr. David F. Weeks, Chairman; Mr. O. M. Bowen, Mr. S. T. Atchley, Dr. S. B. English, Dr. M. A. Hallowell, Mr. J. F. Macomber, Mr. R. J. Drever, Mrs. Elizabeth V. H. Mansell, Mr. Jacob Shurts, Mr. John Bodine, Mr. W. B. Kilpatrick, Mr. W. R. Valentine, Mr. Wm. H. Schultz, Dr. Chapin, Miss Caughey.

The Advisory Board met at the above place and time at which time the Board divided into the sub-committees appointed at the meeting of August 21, 1916, to examine and consider the minutes of the meeting of August 18, 1916.

After the meetings of the various committees, the Board reassembled and the reports of the various committees were made. The Committees on Charitable, Correctional and Educational institutions separately reported on each item appearing on the minutes of August 18th, as the same were read, and the standard specifications finally agreed upon for all articles in the minutes of such meeting follow below.

On motion of Mr. Bowen, duly seconded, it was agreed that these specifications be considered final for the class of articles they represent, and that any person objecting to any item or wishing to have an item amended, should obtain the unanimous consent of the Board before such item would be again discussed. The Chairman suggested that this, however, is not to preclude any member from adding a new item. Anyone desiring to add a new item should send it to the committee appointed for his type of institution who will report to the meeting of the Board when the item will be finally passed upon. (Suggestion of Dr. Weeks incorporated in Mr. Bowen's motion and duly seconded and passed.)

ARTICLES AGREED UPON AS STANDARDS

- | | |
|-----|--|
| 1 | Apples, sour, evaporated, fancy ring cut, new crop, in 50 lb. boxes, per lb. |

104 Cinnamon, ground, pure, per lb.

105 Cinnamon, whole, pure, per lb.

106 Nutmegs, whole, large size, per lb.

107 Allspice, ground, pure, per lb.

- 108 Allspice, whole, pure, per lb.
- 109 Tea, Formosa, Oolong, and Gunpowder, as ordered, in one-half chests, per lb.
- 110 Coffee (Committee to report on this item.)
- 111 Oysters, primes, opened, per 100.
- 112 Oysters, primes, in shells, per 100.
- 113 Oysters, culls, opened, per 100.
- 114 Oysters, culls, in shells, per 100.
- 115 Milk, fresh dairy, to be delivered in such quantities as ordered. Contract to cover.
No. 1 Milk shall comply with all legal standards for that product.
No. 2 Milk when delivered shall not contain more than 50,000 bacteria per cu. cc. from Oct. 15th to May 15th, nor over 100,000 bacteria per cu. cc. from May 15 to October 15th and shall be free from pathogenic bacteria.
No. 3 Milk shall contain no visible dirt or sediment.
No. 4 Milk shall be delivered within 18 hours after milking and at the time of delivery shall have a temperature not exceeding 50° F. Per qt.
- 116 Beef's livers must be fresh and of good appearance, showing no evidence of disease, per lb.
- 117 Celery seed, whole, per lb.
- 118 Ginger, ground, pure, per lb.
- 119 Soda Bi-Carbonate, Dwight's Cow Brand, in ½ lb. pkgs., 36 pkgs. to case, per case.
- 120 Soda Bi-Carbonate, in 20 lb. boxes.
- 121 Bacon, smoked, best boneless, per lb.
- 122 Beans, stringless, canned, No. 2 can, 24 cans to case, also No. 10 can.
- 123 Catsup, Curtis Blue Label, 14 oz. bottles, 25 bottles to case; also in gallon cans.
- 124 Catsup, Snyder's in gallon containers.
- 125 Cornmeal, white, per lb.
- 126 Cranberries, per crate, and per half bushel.
- 127 Oyster crackers, Exton or equal, loose, in boxes or bbls., per lb.

- 128 Figs, California, in 10 oz. pkgs., 12 pkgs. to box, per lb.
- 129 White Grapes, in kegs, 30 lbs. net to keg, per keg.
- 130 Prepared Ham; per lb.
- 131 Nuts, Almonds, per lb.
- 132 Nuts, English Walnuts, per lb.
- 133 Onions, in sacks, 2 bu. to sack.
- 134 Oranges, Best Grade, 150, 176, or 216 to box, per box.
- 135 Lemons, Best Grade, California, or equal, 360 lemons to box, per box.
- 136 Pineapples, shall be of the kind known to the trade as size 2 suitable for immediate use. They shall be sound, wholesome, and in every respect first quality. They shall be delivered in the manner as called for, per crate.
- 137 Puffed Rice, 36 pkgs. to case, per case.
- 137-A Puffed Wheat, 36 pkgs. to case, per case.
- 138 (N. Y.) Turkeys shall be fresh, fleshy and of good quality, dry picked, New York dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Between the dates of November 1st and February 1st only fresh killed, chilled turkeys which are not and have not been frozen shall be accepted. During the remaining months of the year frozen fresh turkeys of the quality specified herein, shall be accepted, but at no time shall turkeys which have been frozen and thawed out be accepted.
- 139 (N. Y.) Fresh cut pork loins shall be of good quality, regular commercial New York Cut, from corn-fed hogs, each loin to weigh between eight and ten pounds, with the skin removed and including only half the backbone, ribs and spinal column. No loins from stags or old sows and frozen or thawed out pork shall be accepted.
All fresh pork shall be covered when, and in the manner, called for in the schedules.
They shall be delivered in the manner as called for in the schedules.
Payment shall be made for the number of pounds accepted, at the price bid per pound.
- 140 (N. Y.) Fresh pork sausage shall be made from strictly fresh pork with not more than one-third (1-3) by weight of fat and shall be inspected and stamped by an inspector of the United States Bureau of Animal Industry, and so marked.
The casings of the sausage shall be either sheep or hog casings, as called for in the schedules.
When sheep casings are used there shall be eight (8) to ten (10) sausages to the pound and when hog casings are used there shall be six (6) to eight (8) sausages to the pound.
They shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

- 141 (N. Y.) Canned sardines shall be full packed, of the quality, content and size of container specified, and equal to the standard sample exhibited by the contracting department. They shall conform in all respects to the laws and standards of the United States and the State of New Jersey.

They shall be French, boneless, each tin containing eight (8) to twelve (12) fish packed in pure olive oil.

They shall be delivered in what are known to the trade as "Number One-Half" (No. $\frac{1}{2}$) tins.

Payment shall be made for the number of dozen tins accepted, at the price bid per dozen tins.

- 141-A American Sardines.

- 142 Salmon, Red Alaska, No. 1 tall tins.

- 142-A Salmon, Red Alaska, in barrels, salted.

- 143 (N. Y.) Fresh veal shall be of good quality, from milk-fed calves, dressed with the skins removed and shall be full carcasses or hind quarters, as called for in the schedules. No frozen, grass or bob veal shall be accepted.

Full carcasses, dressed, shall weigh between ninety (90) and one hundred twenty-five (125) pounds. Hind quarters dressed shall be from carcasses of the same weight as that herein specified for full carcasses. The veal shall be from calves that have been slaughtered for not less than two days. All fresh veal shall be covered when, and in the manner, called for in the schedules. It shall be delivered in the manner as called for in the schedules.

Payment shall be made for the number of pounds of full carcasses and the number of pounds of hind quarters accepted, at the price bid per pound for each kind specified.

- 144 Fowl, No. 1, weighing $3\frac{1}{2}$ -4 lbs. each, fresh when frozen, in lots of approximately 300 lbs. as ordered.

- 145 (N. Y.) Fowl shall be fresh, fleshy and of good quality, dry picked and New York Dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Between the dates of June 1st and January 1st only fresh killed, chilled fowl, which are not and have not been frozen, shall be accepted. During the remaining months of the year frozen fresh fowl of the quality specified herein shall be accepted, but at no time shall fowl that have been frozen and thawed out be accepted.

Fowl shall weigh from four (4) to five (5) pounds each.

They shall be delivered in the manner as called for in the schedules, and receipts shall be given for weights as received at the point of delivery.

Payment shall be made for the number of pounds accepted at the price bid per pound.

- 146 (N. Y.) Chickens shall be young, fresh, fleshy, and of good quality, dry picked, New York dressed (which means undrawn with the head and feet left on) and otherwise cleanly and properly dressed. Be-

tween the dates of September 1st and February 1st only fresh killed, chilled chickens, which are not and have not been frozen shall be accepted. During the remaining months of the year frozen fresh chickens of the quality specified herein shall be accepted, but at no time shall chickens which have been frozen and thawed out be accepted.

Fresh killed, chilled chickens shall weigh from two and one-half ($2\frac{1}{2}$) to four and one-half ($4\frac{1}{2}$) pounds each, with an average weight of three and one-half pounds each. Fresh, frozen chickens shall weigh from three and one-half ($3\frac{1}{2}$) pounds to four and one-half ($4\frac{1}{2}$) pounds each.

They shall be delivered in the manner as called for in the schedules and receipts shall be given for weights as received at the point of delivery.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

147 Fresh Hams, to weigh about ten pounds each, on average.

148 (N. Y.) Fresh calves' liver shall be from sound calves. It shall be inspected and stamped by an inspector of the United States Bureau of Animal Industry.

All fresh liver shall be covered when, and in the manner, called for in the schedules.

It shall be delivered in the number as called for in the schedules.

Payment shall be made for the number of pounds accepted at the price bid per pound.

AT THIS POINT THE COMMITTEE ON DRUGS, ETC., REPORTED, WHICH REPORT FOLLOWS.

THE ITEMS IN THIS REPORT WERE ADOPTED AS STANDARDS.

The following Report of Committee on Drug Specifications was read and approved and the items therein specified adopted as standards:

The Sub-Committee appointed to standardize drugs, medical and surgical supplies, laboratory and scientific equipment, respectfully call the attention of the Advisory Board to the fact that the present market conditions are such that in many instances it is impossible to purchase drugs, chemicals and scientific apparatus, which results in the necessity of prescribing substitutes.

If proposals must be invited on this class of goods we would recommend that the items be listed for advertisement as they appear on the respective schedules on which notes shall be made, indicating the catalogue from which numbers have been taken.

All drugs and chemicals must comply in all respects with the formulas prescribed in the latest editions of the United States Pharmacopœia and Dispensatories. This same specification shall apply to all drugs entering into special formulas. The following specifications are submitted, with the recommendation that they be adopted as standards.

No.

Article.

1 (N. Y.)

Plain Absorbent gauze shall be made of clean, white cotton of soft finish, fully bleached and absorbent.

The width shall be fully thirty-six (36) inches in the finished state.

The weight shall not be less than seventeen and one-half (17½) linear yards to the pound.

There shall not be less than twenty-four (24) threads to the inch in the warp and not less than twenty (20) threads to the inch in the filling.

Upon a hot extraction with distilled water it shall not yield more than two-tenths (0.2) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, soap, dextrin, glue or other make-weight.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered in bales, cases or aseptic rolls as called for in the schedules.

Bales or cases shall contain eight packages of three bolts each, each bolt to contain one hundred yards in not more than two pieces laid in one-yard layers. Bales shall be protected on two sides by wood.

Aseptic rolls shall contain either five continuous yards in four-inch folds, or twenty continuous yards in nine-inch folds, as called for in the schedules. Each roll shall be separately packed in a carton.

Payment shall be made for the number of yards accepted, as follows:

When delivered in bales or cases containing twenty-four hundred (2400) yards, at the price bid per yard in bales or in cases.

When delivered in aseptic rolls, at the price bid per yard for each size roll.

2 (N. Y.)

Bandage gauze shall be made of clean, white cotton of soft finish, fully bleached and absorbent.

The width shall be fully thirty-six (36) inches in the finished state.

The weight shall not be less than thirteen (13) linear yards to the pound.

There shall not be less than thirty-two (32) threads in the warp and not less than twenty-eight (28) threads to the inch in the filling.

The tensile strength shall not be less than eighteen (18) pounds in the warp and not less than twelve (12) pounds in the filling when tested in jaws one inch wide, set one inch apart.

Upon a hot extraction with distilled water it shall not yield more than two-tenths (0.2) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, soap, dextrin, glue or other make-weight.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered in rolls of five or ten continuous yards as called for in the schedules. It shall be smoothly and tightly rolled (Bellevue roll), wrapped in paper and packed tight in wooden cases containing one hundred rolls.

Payment shall be made for the number of yards accepted at the price bid per yard for each size roll.

- 3 (N. Y.) Iodoform gauze shall be made of clean, white cotton of soft finish, fully bleached and absorbent.

The width shall be fully thirty-six (36) inches in the finished state.

The weight shall not be less than fifteen (15) linear yards to the pound.

There shall not be less than twenty-eight (28) threads to the inch in the warp and not less than twenty-four (24) threads to the inch in the filling.

Upon a hot extraction with distilled water it shall not yield more than two-tenths (0.2) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, soap, dextrin, glue or other make-weight.

It shall yield upon analysis full five (5) per cent. of iodoform, based on the weight of the dry plain gauze plus iodoform.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered in rolls of five yards, in glass jars hermetically sealed.

Payment shall be made for the number of jars of gauze accepted, at the price bid per jar.

- 4 (N. Y.) Gauze bandages shall be made from clean, white cotton gauze of soft finish, fully bleached and absorbent.

They shall be one (1), one and one-half (1½) or two (2) inches wide as called for in the schedules.

They shall be made of gauze weighing not less than nine and one-half (9½) square yards to the pound.

They shall be made of gauze having not less than forty-four (44) threads to the inch in the warp and not less than forty (40) threads to the inch in the filling.

They shall have a tensile strength in the direction of their length of not less than twenty-two (22) pounds when tested in jaws one inch wide, set one inch apart.

Upon a hot extraction with distilled water the gauze shall not yield more than two-tenths (0.2) per cent. of extractive matter and the water from such extraction shall show no reaction for starch, soap, dextrin, glue or other make-weight.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

They shall be delivered in lengths of five (5) or ten (10) continuous yards as called for in the schedules. They shall be tightly rolled (Bellevue roll style) in separate aseptic wrappers, one dozen bandages to a package.

Payment shall be made for the number of dozens of bandages accepted, at the price bid per dozen for each width and length.

- 5 (N. Y.) Absorbent lint shall be made of clean, white cotton, fully bleached and absorbent.

Upon a hot extraction with distilled water it shall not yield more than one (1) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, dextrin, glue, soap or other make-weight.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered in paper wrapped packages of one pound net weight, packed in tight wooden cases, paper-lined, fifty pounds net to the case.

Payment shall be made for the number of pounds of lint accepted, at the price bid per pound.

6 (N. Y.)

Absorbent cotton, grade 1, shall be clean, white, fully bleached and absorbent.

Impurities in cotton shall be determined by the amount of ash, the yield of which shall not exceed two-tenths (0.2) per cent.

Upon a hot extraction with distilled water, the cotton shall not yield more than two-tenths (0.2) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, dextrin, glue or other make-weight.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered packed waterproof, either in wooden cases or burlap bales, as called for in the schedules. Each case or bale shall contain fifty paper-wrapped packages of one pound net of cotton, interleaved with tissue paper.

Payment shall be made for the number of pounds of cotton accepted, at the price bid per pound.

7 (N. Y.)

Absorbent cotton, grade 2, shall be clean, white, fully bleached and absorbent.

Impurities in the cotton shall be determined by the amount of ash, the yield of which shall not exceed three-tenths (0.3) per cent.

Upon a hot extraction with distilled water it shall not yield more than two-tenths (0.2) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, dextrin, glue or other make-weight.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered packed waterproof, either in wooden cases or burlap bales, as called for in the schedules. Each case or bale shall contain fifty paper-wrapped packages of one pound net of cotton, interleaved with tissue paper.

Payment shall be made for the number of pounds of cotton accepted, at the price bid per pound.

8 (N. Y.)

Absorbent cotton waste shall be clean, white, fully bleached and absorbent.

Impurities in the cotton shall be determined by the amount of ash, the yield of which shall not exceed six-tenths (0.6) per cent.

Upon a hot extraction with distilled water the cotton shall not yield more than one (1) per cent. of extractive matter, and the water from such extraction shall show no reaction for starch, dextrin, glue or other make-weight.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

It shall be delivered packed waterproof, either in wooden cases or burlap bales as called for in the schedules. Each case or bale shall contain fifty paper-wrapped packages of one pound net of cotton interleaved with tissue paper.

Payment shall be made for the number of pounds of cotton accepted, at the price bid per pound.

- 9 (N. Y.) Rubber bandages shall be made of pure gum free from rubber substitute and properly vulcanized.

They shall not be less than fifteen thousandths (0.015) inch thick, and either two (2), two and one-half (2½) or three (3) inches in width, and either six (6), nine (9) or eighteen (18) feet in length, as called for in the schedules.

They shall contain not more than three and five-tenths (3.5) per cent. of organic matter soluble in acetone. A two-inch test length shall stretch to at least eighteen (18) inches before breaking.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Methods of Tests on file in the Standard Testing Laboratory.

They shall be delivered in packages of one dozen separately-wrapped bandages.

Payment shall be made for the number of dozens of bandages accepted, at the price bid per dozen for each size.

- 10 (N. Y.) Sputum cup holders shall be made of I. C. gage gilt lacquered tin. They shall have an open bottom, handle at back and spring cover with thumb piece extending over the handle. A band not less than one-half (½) inch in width, which may or may not be an extension of the handle, shall extend across the bottom from back to front, to hold the paper refill cup. The sides, back, bottom and handle shall have turned-over edges.

They shall be two and seven-eighths (2⅞) inches square inside measurement, and two (2) inches deep, except that the back to which the handle is attached shall extend one-quarter (¼) inch above the sides.

Payment shall be made for the number of hundreds of holders accepted, at the price bid per hundred.

- 11 (N. Y.) Sputum cup refills shall be made of heavy, waterproof, burnable paper, cut and pressed so that they can be readily folded into cup shape with four-piece overlapping top.

They shall be when folded into cup shape two and seven eighths (2⅞) inches square on top and two and one-quarter (2¼) inches deep.

Payment shall be made for the number of thousands of refills accepted, at the price bid per thousand.

- 12 (N. Y.) Spatulas shall be made with handle and blade of one piece of crucible tool steel nickel plated. The blades shall be flexible.

The blades shall be of the sizes called for in the schedules in accordance with the following table:

Length of Blade	Width of Blade
3 inches	$\frac{9}{16}$ inch
4 inches	$\frac{5}{8}$ inch
5 inches	$\frac{3}{4}$ inch
6 inches	$\frac{7}{8}$ inch
8 inches	1 $\frac{1}{4}$ inches
10 inches	1 $\frac{3}{8}$ inches
11 inches	1 $\frac{1}{2}$ inches

Payment shall be made for the number of dozens of spatulas accepted, at the price bid per dozen for each size.

- 13 (N. Y.) Tongue depressors shall be made of white wood. They shall be smooth and rounded at both ends.

They shall be approximately five and one-half ($5\frac{1}{2}$) inches long, five-eighths ($\frac{5}{8}$) inch wide and three thirty-seconds ($\frac{3}{32}$) inch thick.

They shall be delivered in cartons containing five hundred each.

Payment shall be made for the number of thousands of de-pressors accepted, at the price bid per thousand.

- 14 (N. Y.) Wooden Applicators—No specifications for this.

- 15 (N. Y.) Steel pocket tapes shall consist of a tape-line and case with mechanism for winding. The tape-line shall be made of flexible steel, not less than one-quarter ($\frac{1}{4}$) inch wide and not less than four thousandths (0.004) inch thick. It shall be capable of tightly encircling a cylinder one-half ($\frac{1}{2}$) inch in diameter without showing permanent bend. It shall be graduated on one side to two (2) meters, divided into meters, centimeters and millimeters, each meter and centimeter being numbered; and on the other side to seventy-two (72) consecutive inches divided into inches and sixteenths, each inch being numbered. The graduation marking shall be made by etching away the entire surface except the marks and numerals, leaving them a bright steel. A steel wire ring shall be securely attached to the end of the line. The line shall be so attached to the drum of the winder as to be easily removed and replaced. It shall be operated by a spring winder with a ratchet stop released by a push button with a helical spring inside the center-post, and extending through the center of one side of the case. The spring shall be made of blued, tempered steel, not less than four-thousandths (0.004) inch thick by three-sixteenths ($\frac{3}{16}$) inch wide, and of sufficient length to wind the entire line into the case. It shall be securely fastened to and shall wind around a hollow center-post not less than five-sixteenths ($\frac{5}{16}$) inch in outside diameter. The post shall be threaded to receive the case screw, and shall have two opposite slots for the cross-piece of the push button. The case shall be made of brass not less than two hundredths (0.02) inch thick, shall be not more than one and seven-eighths ($1\frac{7}{8}$) inches in diameter and not more than one-half ($\frac{1}{2}$) inch in width. It shall be in two parts, tightly flanged together and secured with a screw, and shall have an opening for the line not less than three-sixteenths ($\frac{3}{16}$) inch wide. The case shall have rounded edges, and shall be smoothly finished and nickel plated. Tape-line refills may be purchased separately, if called for in the schedules.

Each tape-line and case shall have etched or stamped thereon the manufacturer's name or trade mark.

Tapes and tape-line refills shall be separately wrapped and delivered in cartons containing six each.

Payment shall be made for the number of dozens of complete tapes, or the number of dozens of tape-line refills accepted, at the price bid per dozen for each.

16 (N. Y.)

Linen pocket tapes shall consist of a tape-line and case with mechanism for winding. The tape-line shall be made of pure linen fabric not less than one-quarter ($\frac{1}{4}$) inch wide and not less than seven-thousandths (0.007) inch thick. The full graduated length of the line shall stretch not more than six millimeters under a ten-pound pull. It shall be graduated on one side to two (2) meters divided into meters, centimeters and millimeters, each meter and centimeter being numbered; and on the other side to seventy-two (72) consecutive inches divided into inches and sixteenths, each inch being numbered. The graduation marks and numerals shall be plainly printed with black ink. A steel wire ring shall be securely attached to the end of the line. The line shall be so attached to the drum of the winder as to be easily removed and replaced. It shall be operated by a spring winder with a ratchet stop released by a push button with a helical spring inside the center-post, and extending through the center of one side of the case. The spring shall be made of blued tempered steel, not less than four-thousandths (0.004) inch thick by three-sixteenths ($\frac{3}{16}$) inch wide, and of sufficient length to wind the entire line into the case. It shall be securely fastened to and shall wind around a hollow center-post not less than five-sixteenths ($\frac{5}{16}$) inch in outside diameter. The post shall be threaded to receive the case-screw, and shall have two opposite slots for the cross-piece of the push-button. The case shall be made of sheet brass not less than two hundredths (0.02) inch thick, shall be not more than one and seven-eighths ($1\frac{7}{8}$) inches in diameter and not more than one-half ($\frac{1}{2}$) inch in width. It shall be in two parts, tightly flanged together and secured with a screw, and shall have an opening for the line not less than three-sixteenths ($\frac{3}{16}$) inch wide. The case shall have rounded edges, and shall be smoothly finished and nickel plated. Tape line refills may be purchased separately if called for in the schedule.

Each tape-line and case shall have printed or stamped thereon the manufacturer's name or trade-mark.

Tapes and tape-line refills shall be separately wrapped, and delivered in cartons containing six each.

Payment shall be made for the number of dozens of complete tapes, or the number of dozens of tape-line refills accepted, at the price bid per dozen for each.

17 (N. Y.)

Clinical thermometers shall be made of thoroughly seasoned glass and shall be free from cracks and other defects. The stem shall be white-backed in the glass, with a magnifying front. The column shall be of clear mercury, free from impurities, moisture or bubbles contained in a single drawn cylindrical bulb between two (2) and three (3) millimeters in diameter and a glass capillary tube so construed as to give a non-receding index and a two-minute registration.

It shall be not less than four (4) inches long, including the bulb, and the stem shall be not less than five (5) millimeters thick from front to back.

The scale shall be plainly etched in black on the stem, and shall have a range covering from ninety-four (94) to one hundred ten (110) degrees Fahrenheit, extending over a space of not less than one and three-quarter ($1\frac{3}{4}$) inches. The markings shall be at intervals of two-tenths (0.2) degree. Each one-degree line and the line for normal temperature shall be longer than the intervening lines. The numerals shall be at every two degrees, or at ninety-five, one hundred, one hundred five and one hundred ten degrees.

Thermometers shall be accurate to within two-tenths (0.2) degree throughout the scale, and shall not exceed three-tenths (0.3) degree error in the intervals between test points. They shall remain constant after having been heated to their maximum graduation for at least twenty-four hours. The test for constriction shall be in accordance with the requirements of the Bureau of Standards at Washington. Each thermometer shall be accompanied by the manufacturer's test-room certificate, giving manufacturer's name and certifying as to degree of inaccuracy at four test points.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

The vendor shall furnish before or at delivery, a written guarantee, executed by the manufacturer and addressed to the State of New Jersey, to replace without expense to the State any thermometer bearing the manufacturer's name or trade-mark that shall become more inaccurate than certified with another thermometer that complies with this specification.

Each thermometer shall be marked with the manufacturer's name or trade-mark and test-room number.

They shall be delivered without cases in cartons of three dozen each.

Payment shall be made for the number of dozens of thermometers accepted, at the price bid per dozen.

- 18 (N. Y.) Belladonna plasters shall comply in all respects with the formula prescribed in the latest edition of the United States Pharmacopoeia, and shall be porous.

They shall be five by seven and one-half ($5 \times 7\frac{1}{2}$) inches.

They shall be delivered in pasteboard boxes containing two dozen plasters each.

Payment shall be made for the number of gross of plasters accepted, at the price bid per gross.

- 19 (N. Y.) Isinglass plaster shall be made of pure fish glue spread on flesh-colored tracing cloth.

It shall be in rolls two and one-half ($2\frac{1}{2}$) inches wide.

It shall be delivered in pasteboard cartons containing twelve twenty-inch rolls, each roll packed in a tin box.

Payment shall be made for the number of dozens of rolls of plaster accepted, at the price bid per dozen.

- 20 (N. Y.) Lead plaster shall comply in all respects with the formula prescribed in the latest edition of the United States Pharmacopoeia.

It shall be in rolls not less than seven (7) inches wide.

It shall be delivered in boxes containing one dozen one-yard rolls, each roll packed in a tin box.

Payment shall be made for the number of dozens of rolls of plaster accepted, at the price bid per dozen.

- 21 (N. Y.) Mercurial plaster shall comply in all respects with the formula prescribed in the latest edition of the United States Pharmacopoeia.

It shall be in rolls not less than seven (7) inches wide.

It shall be delivered in boxes containing one dozen one-yard rolls.

Payment shall be made for the number of dozens of rolls of plaster accepted, at the price bid per dozen.

- 22 (N. Y.) Mustard plaster shall have a plaster mass that shall comply in all respects with the formula prescribed in the latest edition of the United States Pharmacopoeia, and shall have a paper or a cloth base as called for in the schedules.

Paper base plaster shall be in rolls twelve (12) inches wide.

Cloth base plaster shall be three by four and one-half ($3 \times 4\frac{1}{2}$) inches.

Paper base plaster shall be delivered in five-yard rolls.

Cloth base plaster shall be delivered in tin boxes containing ten pieces each.

Payment for the paper base plaster shall be made for the number of rolls of plaster accepted at the price bid per roll; and for the cloth base plaster, for the number of boxes of plaster accepted, at the price bid per box.

- 23 (N. Y.) Plain rubber adhesive plaster shall be made of a composition containing not less than thirty (30) per cent. of pure, ground Para rubber, spread not less than five (5) ounces to the square yard on a cotton cloth backing, having not less than one hundred sixty (160) threads to the square inch and weighing not less than four (4) ounces to the square yard. The plaster shall have been made not longer than ninety (90) days before delivery.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

The width shall be one-half ($\frac{1}{2}$), one (1), two (2), three (3) or twelve (12) inches, as called for in the schedules.

Each roll and spool shall be marked with the manufacturer's name and the date of manufacture.

Rolls twelve inches wide shall be delivered in cases of one hundred five-yard rolls packed in separate cartons. The plaster shall be faced with crinoline gauze suitable for bandage purposes.

All other widths shall be delivered unfaced in boxes of twelve five-yard rolls, wound on spools and packed in separate cartons.

The vendor shall furnish a written guarantee, executed by the manufacturer and addressed to the State of New Jersey, that at any time within one year from date of delivery he will, upon request, immediately replace, without expense to the State, any plaster that shall have lost its quality, with fresh plaster that shall comply with this specification.

Payment shall be made for the number of rolls of twelve-inch plaster accepted, at the price bid per roll, and for the number of dozens of spools of other widths, at the price bid per dozen spools for each width.

24 (N. Y.)

Zinc oxide adhesive plaster shall be made of a composition containing not less than thirty (30) per cent. of pure, ground Para rubber, and not less than twenty (20) per cent. of oxide of zinc, United States Pharmacopoeia, spread not less than five (5) ounces to the square yard on a cotton cloth backing having not less than one hundred and sixty (160) threads to the square inch and weighing not less than four (4) ounces to the square yard. The plaster shall have been made not longer than ninety (90) days before delivery.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

The width shall be one-half ($\frac{1}{2}$), one (1), two (2), three (3) or twelve (12) inches, as called for in the schedules.

Each roll and spool shall be marked with the manufacturer's name and the date of manufacture.

Rolls twelve inches wide shall be delivered in cases of one hundred five-yard rolls, packed in separate cartons. The plaster shall be faced with crinoline gauze suitable for bandage purposes.

All other widths shall be delivered unfaced in boxes of twelve five-yard rolls, wound on spools and packed in separate cartons.

The vendor shall furnish a written guarantee, executed by the manufacturer and addressed to the State of New Jersey, that at any time within one year from the date of delivery he will, upon request, immediately replace, without expense to the State, any plaster that shall have lost its quality, with fresh plaster that shall comply with this specification.

Payment shall be made for the number of rolls of twelve-inch plaster accepted, at the price bid per roll, and for the number of dozens of spools of other widths, at the price bid per dozen spools for each width.

25 (N. Y.)

Hand Brushes.—The bristles shall be extra stiff gray Russian hog bristles, clean and free from fibre, hair or any substitute.

The block shall be made of well seasoned cherry wood about four and one-quarter ($4\frac{1}{4}$) inches long, about one and seven-eighths ($1\frac{7}{8}$) inches wide and about five-eighths ($\frac{5}{8}$) inch thick, tapering about one-quarter ($\frac{1}{4}$) inch on all sides from the cover to the brush surface. At each end shall be inserted across the grain, and glued or cemented, a plug of cherry wood one-eighth ($\frac{1}{8}$) inch thick extending into the block across the entire end about five-eighths ($\frac{5}{8}$) inch. The two long sides of the block shall be so grooved as to provide a suitable grip. The block shall have not less than one hundred twenty-eight (128) evenly distributed holes about one-tenth ($\frac{1}{10}$) inch in diameter, which shall be solidly filled with bristles. The bristles shall be securely fastened with staples or with wire, and shall be cut square and evenly trimmed to leave a bristle surface about five-eighths ($\frac{5}{8}$) inch from the face of the block. The block shall have a thin cover made of well-seasoned holly wood tapering from three-sixteenths ($\frac{3}{16}$) inch in thickness at the centre to one-sixteenth ($\frac{1}{16}$) inch at either end, cemented or glued to the block and reinforced at either end with not less than four brass flat-head brads. The corners of the block shall be slightly rounded and the whole block finished smooth in the natural wood.

Each block shall have the manufacturer's name or trade-mark stamped on the cover of the brush.

They shall be delivered in cartons containing six brushes each.
Payment shall be made for the number of gross of brushes accepted, at the price bid per gross.

26 (N. Y.)

Pill boxes shall be made of pasteboard and shall have glazed paper trimming.

They shall be of the sizes called for under the trade numbers in the schedules in accordance with the following table:

Trade Number.	Diameter of Lid.	Depth of Box.	Trimming.
19	1¼ inch	1½/16 inches	Carmine
20	1½ inch	7/8 inches	Carmine
29	1¼ inch	7/16 inches	Bronze
30	1½ inch	9/16 inches	Bronze
31X	1¾ inch	1½/16 inches	Bronze

They shall have labels to conform to the sample exhibited by the contracting department if called for in the schedules.

They shall be delivered in packages containing one gross each.

Payment shall be made for the number of gross of boxes accepted, at the price bid per gross for each size and kind.

27 (N. Y.)

Paper sliding boxes shall be made of pasteboard and shall have white glazed paper trimming.

They shall be of the sizes called for under the trade numbers in the schedules in accordance with the following table:

Trade Number.	Length.	Width	Depth.
47	2¼ inches	1¼ inches	5/8 inch
48	2½ inches	1½ inches	¾ inch
49	2¾ inches	1¾ inches	7/8 inch
49X	3½/16 inches	2½/16 inches	1½/16 inch
49XX	3¼ inches	2¼ inches	1¾/16 inch
49XXX	3¾ inches	2¾ inches	15/16 inch

They shall be delivered in packages containing three dozen each. Numbers forty-seven, forty-eight and forty-nine shall be delivered in packages containing six dozen each rested if called for in the schedules.

Payment shall be made for the number of gross of boxes accepted, at the price bid per gross for each size.

28 (N. Y.)

Formaldehyde candles shall be so made that the formaldehyde gas cannot be ignited during its generation and cause explosion or spreading of fire during use, and each candle shall deliver in formaldehyde the full equivalent of its paraformaldehyde content.

They shall contain either three hundred fifty (350) or five hundred (500) grains of paraformaldehyde as called for in the schedules.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

They shall be delivered in packages containing one dozen candles each, and each candle shall be packed in a separate pasteboard container.

Payment shall be made for the number of dozens of candles accepted, at the price bid per dozen for each size.

For every cubic foot of space to be disinfected, one grain of paraformaldehyde is required.

- 29 (N. Y.) Glass invalid feeding cups shall be made of glass possessing sufficient strength to stand the shock of ordinary use, shall be of clear flint color, and reasonably free from bubbles. They shall be round, with shoulder about three (3) inches from the bottom. The neck above the shoulder shall be so shaped as to conveniently feed the full graduated capacity of the cups at approximately seventy-five (75) degrees from the vertical. The mouth shall be wide and smoothly finished.

They shall have a graduation scale blown in the glass as follows:

Lines and numerals at 1, 2, 4, 6 and 8 tablespoons, with the word table at the top of the scale.

Lines and numerals at 4, 8, 16, 24 and 32 teaspoons with the word tea at the top of the scale.

They shall be delivered separately packed in pasteboard boxes.

Payment shall be made for the number of dozens of cups accepted, at the price bid per dozen.

- 30 (N. Y.) Medicine glasses shall be made of glass possessing sufficient strength to stand the shock of ordinary use. They shall be of clear flint color with heavy bottoms and shall be reasonably free from bubbles.

They shall not be less than two (2) inches in diameter at the top and not less than two and one-quarter ($2\frac{1}{4}$) inches in depth, inside measurements.

The glass shall be etched with a tablespoon scale on one side and a teaspoon scale on the other side of a vertical line, as follows:

Lines of numerals at 1, 2 and 3 tablespoons, with the word "table" above the third line.

Lines at each teaspoon, up to eight, and numerals at 1, 2, 4, 6 and 8, with the word "tea" after the numeral 8.

They shall be delivered in pasteboard boxes containing one dozen each.

Payment shall be made for the number of dozens of glasses accepted, at the price bid per dozen.

- 31 (N. Y.) Medicine droppers shall be made of clear flint glass. The points shall be rounded and shall deliver water in drops of one minim each. They shall be curved or straight and plain or graduated, as called for in the schedules. The bulbs shall be of seamless black rubber and clean inside. They shall fit airtight around the shoulder of the tubes, and shall be of sufficient drawing strength to fill and empty the droppers.

The tubing of the plain droppers shall be not less than two and three-quarters ($2\frac{3}{4}$) inches in length and one-quarter ($\frac{1}{4}$) inch in diameter. The tubing of the graduated droppers shall not be less than four and one-quarter ($4\frac{1}{4}$) inches in length and one-quarter ($\frac{1}{4}$) inch in diameter.

Graduated droppers shall have a line at each minim to 30 minims, and numerals at ten, twenty and thirty minims.

They shall be delivered in cartons containing twelve droppers each.

Payment shall be made for the number of dozens of droppers accepted, at the price bid per doz. for each kind.

- 32 (N. Y.) Amber bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use and the internal

pressure of stored fermentation and effervescence. They shall be of a dark yellowish brown amber color and reasonably free from bubbles.

They shall be of the stock sizes as called for in the schedules. Each size shall be of sufficient over-capacity to allow of agitation of contents.

They shall be of the shape, and either wide or narrow mouth, as called for in the schedules in accordance with the following standard shapes:

Philadelphia ovals, prescription,
Union ovals, prescription,
Boston prescription,
Round bottom packers,
Round prescription (wide or narrow mouth),
Blake (short or tall, wide or narrow mouth),
French square (wide or narrow mouth).

They shall be delivered in original packages containing the number of dozens indicated in the following table:

	Ounces											Qt.
Capacity	½	1	2	3	4	6	8	10	12	16	24	1
Dozens	72	72	60	48	36	30	24	18	18	18	10	8

Payment shall be made for the number of gross of bottles accepted, at the price bid per gross for each size and kind.

33 (N. Y.)

Blue bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use and the internal pressure of stored fermentation and effervescence. They shall be of dark cobalt blue color and reasonably free from bubbles.

They shall be of the stock sizes as called for in the schedules. Each size shall be of sufficient over-capacity to allow of agitation of contents.

They shall be of the shape, and either wide or narrow mouth, as called for in the schedules in accordance with the following standard shapes:

Philadelphia ovals, prescription.
Union ovals, prescription.
Boston prescription.
Round prescription (wide or narrow mouth).
Blake (short or tall, wide or narrow mouth).
French square (wide or narrow mouth).

They shall be delivered in the original packages containing the number of dozens indicated in the following table:

	Ounces											Qt.
Capacity	½	1	2	3	4	6	8	10	12	16	24	1
Dozens	72	72	60	48	36	30	24	18	18	18	10	8

Payment shall be made for the number of gross bottles accepted, at the price bid per gross for each size and kind.

34 (N. Y.)

Flint bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use and the internal pressure of stored fermentation and effervescence. They shall be of clear flint color and reasonably free from bubbles.

They shall be of the stock sizes as called for in the schedules. Each size shall be of sufficient over-capacity to allow of agitation of contents.

They shall be of the shape, and either wide or narrow mouth, as called for in the schedules, in accordance with the following standard shapes:

Philadelphia ovals, prescription.
Union ovals, prescription.
Boston prescription.
Round prescription (wide or narrow mouth).
Blake (short or tall, wide or narrow mouth).
French square (wide or narrow mouth).

They shall be delivered in the original packages containing the number of dozens indicated in the following table:

Capacity	½ oz.,	1 oz.,	2 oz.,	3 oz.,	4 oz.,	6 oz.,	8 oz.,	10 oz.,	16 oz.,	24 oz.,	1 qt.
Dozens	72	72	60	48	36	30	24	18	12	10	8

Payment shall be made for the number of gross of bottles accepted, at the price bid per gross for each size and kind.

35 (N. Y.) Green bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use and the internal pressure of stored fermentation and effervescence. They shall be of common green color and reasonably free from bubbles.

They shall be of the stock sizes as called for in the schedules. Each size shall be of sufficient over-capacity to allow of agitation of contents.

They shall be of the shape, and either wide or narrow mouth, as called for in the schedules, in accordance with the following standard shapes:

Philadelphia ovals, prescription.
Union ovals, prescription.
Boston prescription.
Round prescription (wide or narrow mouth).
Blake (short or tall, wide or narrow mouth).
French square (wide or narrow mouth).
Selzers ((wide or narrow mouth.)

They shall be delivered in the original packages containing the number of dozens indicated in the following table:

Capacity	oz.	oz.	oz.	oz.	oz.	oz.	oz.	oz.	oz.	oz.	oz.	qt.	qt.	gal	gal	gal
	½	1	2	3	4	6	8	10	12	16	24	1	2	1	2	5
Dozen	72	72	60	48	36	30	34	18	18	12	10	8	4	3	1	½

Payment shall be made for the number of gross of bottles accepted, at the price bid per gross for each size and kind.

36 (N. Y.) Citrate of magnesia bottles shall be made of glass possessing sufficient strength and chemical resistance to stand the shock of ordinary use and to remain unaffected by the use for which they are intended. They shall be of clear flint color, free from bubbles, with the blown label "Citrate of Magnesia" thereon; or they shall be of common green color, reasonably free from bubbles with plain surface, as called for in the schedules.

The sizes shall be either nine-ounce or twelve-ounce, as called for in the schedules.

They shall have porcelain stoppers with galvanized iron wire spring and antimony rubber washer.

Nine-ounce bottles shall be delivered in the original packages of eighteen dozen each, and twelve-ounce bottles shall be delivered in the original packages of one gross each.

Payment shall be made for the number of gross of bottles accepted, at the price bid per gross for each color and size.

37 (N. Y.)

Chloroform dropping bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use. They shall be of yellowish brown amber color and reasonably free from bubbles. They shall be about three and three-quarters ($3\frac{3}{4}$) inches high and two and three-quarters ($2\frac{3}{4}$) inches wide, and shall be flat on the bottom and on one side, and rounded on the other side. They shall have a cork stopper of best quality, with a hole in which shall be inserted two brass tubes one-eighth inch ($\frac{1}{8}$ ") in outside diameter, soldered together and to a larger brass tube and cap fitting through and over the cork. The tubes shall extend about one inch outside the cork, bent in opposite directions. One tube shall be about four and one-half ($4\frac{1}{2}$) inches long, bent at lower end in the same direction as at the upper end to a degree that will cause it to touch the flat side of the bottle. The other tube shall end at the bottom of the cork, and shall have a conical head. A brass conical plug for the long or air tube and a brass cap for the short or drop tube shall be attached to opposite ends of a light brass chain about three (3) inches long. The upper part of the tubes and the stopper cap shall be nickel plated.

Payment shall be made for the number of dozens of bottles accepted, at the price bid per dozen.

38 (N. Y.)

Poison bottles shall be made of glass possessing sufficient strength to stand the shock of ordinary use and the internal pressure of stored fermentation and effervescence. They shall be of dark cobalt blue color and reasonably free from bubbles.

They shall be of the stock sizes as called for in the schedules.

They shall be of the round shoulder prescription shape to take a cork stopper. The surface, except the space left for the label, shall be covered with sharp points and ridges, raised about three-sixty-fourths ($\frac{3}{64}$) inch.

They shall be delivered in the original packages containing the number of dozens indicated in the following table:

Ounces.												
Capacity	$\frac{1}{2}$	1	2	3	4	6	8	10	12	16	24	1
Dozens	72	72	60	48	36	30	24	18	18	12	10	8

Payment shall be made for the number of gross of bottles accepted, at the price bid per gross for each size.

39 (N. Y.)

Urinals shall be made of glass possessing sufficient strength to stand the shock of ordinary use and to remain unaffected by the use for which they are intended. They shall be of clear flint color and reasonably free from bubbles.

They shall be of eight ounce or sixteen ounce capacity as called for in the schedules.

They shall be male or female in shape and with or without handles as called for in the schedules and shall have blown graduation scale in ounces.

They shall be delivered in the original packages, one urinal to a carton.

Payment shall be made for the number of gross of urinals accepted at the price bid per gross for each size and kind.

PARTS AND REPAIRS TO MACHINERY, HARDWARE, ELECTRIC FIXTURES,
PLUMBERS' SUPPLIES, ETC.

MR. ATCHLEY: I will make this suggestion, that if satisfactory, we each bring our head machinist, head carpenter, head electrician, and so on, with such things as are necessary to get at this thing intelligently, to-morrow morning. ADOPTED.

MR. ATCHLEY: I also move that any equipment of a special make necessary to have to fit the fixtures or machinery now in the various institutions, be designated in such a manner that the purchasing agent can provide for the necessary repairs thereto. ADOPTED.

MR. ATCHLEY: I move you that the different pipes as specified here in the New York specifications be adopted as standards. ADOPTED.

THE STANDARDS ON PIPE ADOPTED ARE AS FOLLOWS:

WROUGHT IRON PIPE (BLACK OR GALVANIZED)

Wrought iron pipe, black or galvanized, shall be made of genuine wrought iron, no scrap or any steel whatever being used, and shall be rolled to uniform gage throughout. All pipe two (2) inches and larger in diameter shall be lap-welded, and pipe smaller than two (2) inches in diameter shall be either lap-welded or butt-welded, unless lap-welded pipe is called for in the schedules.

All pipe shall have a smooth surface, free from injurious rust, mill scale, sand marks, cracks, laminations, blisters, beads or imperfect welds, or any other defect which would affect its strength or cause corrosion. It shall be free from bends, kinks, buckles and evidences of injury in manipulation or unequal contraction in cooling. Ordinary liquor marks, incident to manufacturing of welded material, shall not be cause for rejection.

The pipe shall conform to the following requirements as to physical properties and tests:

All pipe shall be tested at the mill to a minimum internal hydrostatic pressure of six hundred (600) pounds per square inch for standard pipe and one thousand (1,000) pounds per square inch for extra strong pipe. Any pipe which shows an indication of being defective after subjection to the above tests shall be rejected.

A test specimen as described herein, when heated to a bright cherry red, shall bend through one hundred eighty (180) degrees flat on itself without fracture on the outside of the bent portion.

A test specimen, when nicked on one side with a tool having a sixty (60) degree cutting edge, to a depth of not less than eight (8) per cent. nor more than sixteen (16) per cent. of the thickness of the specimen, and broken, shall show a fracture at least ninety (90) per cent. fibrous.

Bending tests may be made by pressure or by repeated light blows of a hammer.

In lieu of the nicking and bending test, a short section of pipe may be broken in like manner to completely expose the fibre.

In case of dispute the cross section of a test specimen may be ground, polished and etched to develop the structure. This test shall show the pipe to be free from steel.

The above tests may be omitted on orders of one thousand (1,000) pounds or less or when the pipe is to be used for racks or railings.

All physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

Bending test specimens shall be cut longitudinally from the end of a pipe selected at random from the particular lot it represents, flattened hot, and machined to one (1) inch in width with corners rounded to a radius not over one-sixteenth ($\frac{1}{16}$) inch.

At least one test sample shall be taken to represent each five hundred (500) linear feet or less of pipe four (4) inches or larger in diameter, and one thousand (1,000) linear feet or less, or five thousand (5,000) pounds or less, of pipe smaller than four inches in diameter.

All pipes shall have the ends smoothly and squarely cut, and all burrs removed by reaming or otherwise. Unless drive pipe is called for, both ends of each length of standard pipe shall be threaded to fit pipe couplings with standard taper threads, unless otherwise called for in the schedules.

When drive pipe is called for in the schedules the ends shall be threaded to such a length that they will butt within the couplings.

All threads shall be full and cleanly cut. The axis of the thread shall correspond with the axis of the pipe and no appreciable shoulder shall be left after threading. Extra strong pipe shall be furnished with plain ends unless threaded ends are called for in the schedules.

When galvanized standard or extra strong pipe is called for in the schedules, it shall be furnished "galvanized" by the hot process only both on the inside and outside. The zinc coating shall average at least two (2) ounces per square foot and shall be smooth, continuous and entirely free, both inside and outside, of pinholes, bare spots or blisters. All couplings furnished with galvanized pipe shall be galvanized in the same manner.

WELDED STEEL PIPE (BLACK OR GALVANIZED)

Welded steel pipe, black or galvanized, shall be made of soft weldable steel rolled from solid ingots. Sufficient crop shall be cut from the ends to insure sound material.

All pipe less than one and one-half inches in diameter shall be butt-welded; pipe from one and one-half ($1\frac{1}{2}$) to three (3) inches in diameter shall be butt or lap-welded as called for in the schedules; pipe of greater diameter than three (3) inches shall be lap-welded.

All pipe shall have a smooth surface, free from injurious rust, mill scale, sand marks, cracks, laminations, blisters, cinder patches, beads or imperfect welds, or any other defect which would affect its strength or cause corrosion. It shall be free from bends, kinks, buckles and evidences of injury in manipulation or unequal contraction in cooling. Ordinary liquor marks, incident to manufacturing of welded material, shall not be cause for rejection.

The pipe shall conform to the following requirements as to physical properties and tests:

All pipe shall be tested at the mill to a minimum internal hydrostatic pressure, in conformity with the following table:

Size of Pipe Nominal Inside Diameter: Trade Designation.	Method of Manu- facture.	Test Pressure.	
		Standard Pipe.	Extra Strong Pipe.
$\frac{1}{8}$ inch to 1 inch incl.	Butt-weld	700 pounds	700 pounds
$1\frac{1}{4}$ inches to 2 inches, incl.	Butt-weld	700 pounds	1500 pounds
$2\frac{1}{2}$ inches to 3 inches, incl.	Butt-weld	800 pounds	1500 pounds
$1\frac{1}{2}$ inches to 2 inches, incl.	Lap-weld	1000 pounds	2500 pounds
$2\frac{1}{2}$ inches to 4 inches, incl.	Lap-weld	2000 pounds	2000 pounds
$4\frac{1}{2}$ inches to 6 inches, incl.	Lap-weld	1000 pounds	1800 pounds
7 inches	Lap-weld	1000 pounds	1500 pounds
8 inches	Lap-weld	1000 pounds	1500 pounds
9 inches	Lap-weld	900 pounds	1500 pounds
10 inches	Lap-weld	900 pounds	1200 pounds
11 inches	Lap-weld	800 pounds	1100 pounds
12 inches	Lap-weld	800 pounds	1100 pounds

Any pipe which shows an indication of being defective after subjection to the above tests shall be rejected.

Minimum tensile strength 50,000 pounds per square inch.

Minimum yield point $\frac{1}{2}$ tensile strength.

Minimum elongation in 8 inches 18 per cent.

A test specimen shall bend through one hundred eighty (180) degrees around a diameter equal to the thickness of the material without fracture on the outside of the bent portion.

Bending tests may be made by pressure or by repeated light blows of a hammer.

On orders of one thousand (1,000) pounds or less or when the pipe is to be used for racks or railings the above tests may be omitted.

All physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

Tension and bending test specimens shall be cut longitudinally from the end of a pipe selected at random from the particular lot it represents, flattened hot and machined.

The standard test specimen for measurement of tensile strength and elongation shall be about eighteen (18) inches long with shoulders about two inches wide and three (3) inches long and shall have a parallel test section one and one-half (1½) inches wide and not less than nine (9) inches long connected to shoulder by curves from one (1) inch to three (3) inches radius.

Pipe smaller than one (1) inch diameter shall be tested whole by plugging both ends of an eighteen (18) inch test length with plugs three (3) inches long and submitting to tensile test.

Bending test specimens shall be machined to one inch (1) in width, if size of pipe permits, otherwise to full width of opened cut section, and shall have corners rounded to a radius not over one-sixteenth ($\frac{1}{16}$) inch.

At least one test sample shall be taken to represent each five hundred (500) linear feet or less of pipe four (4) inches or larger in diameter, and one thousand (1,000) linear feet or less, or five thousand (5,000) pounds or less, of pipe smaller than four (4) inches in diameter.

All pipes shall have the ends smoothly and squarely cut, and all burrs removed by reaming or otherwise. Unless drive pipe is called for, both ends of each length of standard pipe shall be threaded to fit pipe couplings with standard taper threads, unless otherwise called for in the schedules.

When drive pipe is called for in the schedules, the ends shall be threaded to such a length that they will butt within the couplings.

All threads shall be full and cleanly cut. The axis of the thread shall correspond with the axis of the pipe and no appreciable shoulder shall be left after threading. Extra strong pipe shall be furnished threaded, unless pipes with plain ends are called for in the schedules.

When galvanized standard or extra strong pipe is called for in the schedules, it shall be furnished galvanized by the hot process only both on the inside and outside. The zinc coating shall average at least two (2) ounces per square foot, and shall be smooth, continuous and entirely free both inside and outside of pin holes, bare spots or blisters. All couplings or plugs furnished with galvanized pipe shall be galvanized in the same manner.

All pipe shall be of either "Standard" or "Extra Strong" weight and of the sizes as called for in the schedules in accordance with the following table:

Size of Pipe. Nominal Inside Diameter Trade Designation	Approximate Outside Diameter. In.	Thickness Stand. In.	Extra Strong. In.	Threads Per Inch	Nominal Weight Per Linear Foot	
					Stan. Pipe Thr.	Extra Strong Pipe
					with Coups. lbs.	With Plain Ends. lbs
$\frac{1}{8}$ inch	0.405	0.068	0.095	27	0.24	0.31
$\frac{1}{4}$ inch	0.540	0.088	0.119	18	0.42	0.54
$\frac{3}{8}$ inch	0.675	0.091	0.126	18	0.57	0.74
$\frac{1}{2}$ inch	0.840	0.109	0.147	14	0.85	1.09
$\frac{3}{4}$ inch	1.050	0.113	0.154	14	1.13	1.47
1 inch	1.315	0.133	0.179	11½	1.68	2.17
1¼ inch	1.660	0.140	0.191	11½	2.28	3.00
1½ inch	1.900	0.145	0.200	11½	2.73	3.63
2 inches	2.375	0.154	0.218	11½	3.68	5.02
2½ inches	2.875	0.203	0.276	8	5.82	7.66
3 inches	3.500	0.216	0.300	8	7.62	10.25
3½ inches	4.000	0.226	0.318	8	9.20	12.50
4 inches	4.500	0.237	0.337	8	10.89	14.98
4½ inches	5.000	0.247	0.355	8	12.64	17.61
5 inches	5.563	0.258	0.375	8	14.81	20.78
6 inches	6.625	0.280	0.432	8	19.18	28.57
7 inches	7.625	0.301	0.500	8	23.77	43.39
8 inches	8.625	0.322	0.500	8	28.81	38.05
9 inches	9.625	0.342	0.500	8	34.19	48.72
10 inches	10.750	0.365	0.500	8	41.13	54.73
11 inches	11.750	0.375	0.500	8	46.25	60.07
12 inches	12.750	0.375	0.500	8	50.71	65.41

A tolerance shall be permitted above and below the listed weight of five (5) per cent. for black, and three (3) per cent. below and eight (8) per cent. above for galvanized pipe.

The minimum thickness of the pipe shall be not more than one thirty-second ($\frac{1}{32}$) inch less than the average thickness of the wall at any two points diametrically opposite each other.

Variations in the outside diameter of pipe above or below the sizes given in the table shall be allowed as follows:

For all sizes of pipe having a nominal diameter of two (2) inches or less, variation of one-sixty-fourth ($\frac{1}{64}$) inch; for all sizes of pipe having a nominal diameter of two and one-half ($2\frac{1}{2}$) inches up and including six (6) inches, variation one thirty-second ($\frac{1}{32}$) inch; for all sizes of pipe whose nominal diameter is greater than six (6) inches variation not to exceed one (1) per cent. of the actual outside diameter given in the table.

The pipes shall be subject to inspection by the State of New Jersey, either at the point of manufacture or upon delivery, as called for in the schedules.

When inspection is made at the point of manufacture, the inspector shall have free entry at all times to all parts of the mill in which the pipes are being made. The manufacturer shall afford the inspector, free of cost, all reasonable facilities to satisfy him that the pipes are being furnished in accordance with this specification. All inspections and tests shall be conducted so as not to interfere unnecessarily with the operation of the mill. The manufacturer shall furnish all materials and apparatus required in making such tests, and shall notify the state of New Jersey before beginning manufacture so that provision may be made for inspection.

When the pipes are not inspected at the point of manufacture, the vendor shall furnish certificates in duplicate, executed by the manufacturer, showing that the pipes have met the requirements of the specification and have passed the necessary tests.

Each length of pipe shall be permanently marked so as to show the mill at which it was fabricated. Pipes smaller than two (2) inches in diameter may be shipped in bundles with the above statement marked on tags and tied to each bundle.

All pipes, unless otherwise called for in the schedules, shall be delivered in commercial lengths of sixteen to twenty-two feet. Standard pipe shall have a standard full weight coupling secured on one end of each length, and on pipes four inches and larger in diameter, the other end shall be fitted with a thread protector.

When drive pipe is called for in the schedules, each length shall be fitted with a heavy recessed drive pipe coupling.

When specified lengths are called for, a maximum variation in length of five per cent. shall be allowed, unless other variation is stipulated.

When pipe is required for railing purposes where a continuous smooth jointing is desirable, solid threaded plugs for inside joints shall be furnished with each length when called for in the schedules.

Spliced lengths shall not be accepted.

Payment shall be made for the number of linear feet of pipe accepted, at the price bid per linear foot, for each size and kind, or for the number of pounds accepted, at the price bid per pound.

For making the Van Stone joints and for some other special purposes, stipulations as to the quality of the steel should be added to the above specifications.

SEAMLESS BRASS PIPE:

Seamless brass pipe, iron pipe size, shall be drawn, semi-annealed, and shall be free from surface defects, inside and outside, clean, and of uniform color and quality, and true to gauge. It shall correspond in size to standard iron pipe, and shall take the standard iron pipe thread.

The pipe shall conform to the following requirements as to chemical composition:

	Maximum.	
Copper	65 per cent.	60 per cent.
Zinc	40 per cent.	35 per cent.
Lead	0.5 per cent.

An analysis shall be made by the manufacturer, but check analysis may be made by the State of New Jersey.

The pipe shall conform to the following requirements as to physical properties and tests:

Each length of pipe before shipment shall be subjected internally to a hydrostatic pressure test of six hundred (600) pounds per square inch, and under this pressure there shall be no evidence of bulging, cracking or other defects.

Test strips of metal cut longitudinally from pipe that is two (2) inches or greater in size, and flattened cold, and short lengths of pipe that is less than two (2) inches in size shall show a tensile strength of not less than thirty-eight thousand (38,000) pounds per square inch.

The end of each test pipe shall stand being flattened by hammering until the sides are brought parallel, with a curve on the inside at the ends not greater in diameter than twice the thickness of the metal in the pipe, without showing cracks or flaws. A test pipe three (3) inches in length, when split, shall stand opening out flat without showing cracks or flaws.

Each test pipe shall stand threading in a satisfactory manner with the standard thread.

The chemical analysis may be omitted on orders of five hundred (500) pounds or less and the physical tests on orders of two hundred (200) pounds or less.

All chemical and physical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

Brass pipe, iron pipe size, shall be of the size as called for in the schedules in accordance with the following table:

Iron pipe size.	Outside Diameter.	Weight per Foot.	
		Standard Weight pipe.	Extra Heavy pipe.
	In.	lbs.	lbs.
$\frac{1}{8}$ inch	0.405	0.23	0.370
$\frac{1}{4}$ inch	0.540	0.43	0.625
$\frac{3}{8}$ inch	0.675	0.62	0.830
$\frac{1}{2}$ inch	0.840	0.90	1.200
$\frac{3}{4}$ inch	1.050	1.25	1.660
1 inch	1.315	1.70	2.360
1 $\frac{1}{4}$ inch	1.660	2.50	3.300
1 $\frac{1}{2}$ inch	1.900	3.00	4.25
2 inch	2.375	4.00	5.460
2 $\frac{1}{2}$ inch	2.375	5.75	8.300
3 inch	3.500	8.30	11.200

A variation of five (5) per cent above or below the standard weight given will be permitted. The pipe shall be uniform in thickness to within one hundredth (0.01) inch and shall be circular within two hundredths (0.02) inch; the mean outside diameter shall be within fifteen hundredths (0.15) inch of the outside diameter as called for in the schedules.

The pipe shall be subject to inspection by the State of New Jersey, either at the point of manufacture or upon delivery as called for in the schedules.

When inspection is made at the point of manufacture, the inspector shall have free entry at all times to all parts of the mill in which the pipe is being made. The manufacturer shall afford the inspector, free of cost, all reasonable facilities to satisfy him that the pipe is being furnished in accordance with this specification. All inspections and tests shall be conducted so as not to interfere unnecessarily with the operation of the mill. The manufacturer shall furnish all materials and apparatus required in making such tests, and shall notify the State of New Jersey before beginning manufacture so that provision may be made for inspection.

When the pipe is not inspected at the point of manufacture, the vendor shall furnish certificates in duplicate, executed by the manufacturer, showing that the pipe has met the requirements of the specification and has passed the necessary tests.

Unless otherwise called for in the schedules, pipe shall be furnished in commercial lengths with plain ends.

Payment shall be made for the number of pounds accepted, at the price bid per pound for each size.

GENUINE HALF AND HALF SOLDER.

Genuine half and half solder shall be made of new pig tin, Cornish, Straits, Malacca or Australian, and commercially pure pig lead.

The material shall conform to the following requirements as to chemical composition:

	Maximum.	Minimum.
Tin	50.5 per cent.	49.5 per cent.
Lead	50.5 per cent.	49.5 per cent.
Antimony	0.10 per cent.
Zinc	trace

The total tin and lead shall not be less than ninety-nine and eight-tenths (99.8) per cent.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

The manufacturer's name, brand or some other identifying mark, and the expression " $\frac{1}{2}$ & $\frac{1}{2}$ " shall be cast on each bar.

It shall be delivered in bars weighing about one pound each unless otherwise called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

WIPING SOLDER

Wiping solder shall be made of new pig tin, Straits, Cornish, Malacca or Australian, and commercially pure pig lead.

The material shall conform to the following requirements as to chemical composition.

	Maximum.	Minimum.
Tin	38.0 per cent.	37.0 per cent.
Lead	63.0 per cent.	62.0 per cent.
Antimony	0.10 per cent.
Zinc	trace

The total tin and lead shall not be less than ninety-nine and eight-tenths (99.8) per cent.

All chemical tests shall be made in accordance with the Board of Estimate's Standard Methods of Tests on file in the Standard Testing Laboratory.

The manufacturer's name, brand, or some other identifying mark, and the word "Wiping" shall be cast on each block.

It shall be delivered in blocks weighing about five pounds each unless otherwise called for in the schedules.

Payment shall be made for the number of pounds accepted, at the price bid per pound.

Motion to appoint Committee to standardize items coming under re- pair classification as shown on Analysis of Expenses sheets, and members of Committee appointed under said motion.....	11	257

MINUTES OF THE MEETING OF THE ADVISORY BOARD UNDER
THE STATE PURCHASING ACT, HELD IN SENATE CHAM-
BER ANTE-ROOM, TRENTON, NEW JERSEY, FRI-
DAY, AUGUST 25, 1916.

The following members of the Advisory Board were present:

Dr. David F. Weeks, Chairman, Superintendent, State Village for Epileptics.
Mr. O. M. Bowen, Warden, State Hospital at Morris Plains.
Mr. S. T. Atchley, Warden, State Hospital, Trenton.
Dr. M. A. Hallowell, Superintendent, Institution for Feeble-Minded.
Dr. S. B. English, Superintendent, Sanatorium for Tuberculous Diseases.
Mr. Richard Drever, Superintendent, State Home for Boys.
Mr. Walter M. Kilpatrick, Superintendent, School for the Deaf.
Mr. Jacob Shurts, President of Board, New Jersey State Prison.
Mr. W. R. Valentine, Principal, Manual Training and Industrial School, Bordentown.
Mr. John W. Bodine, Secretary, Board of Managers, Home for Disabled Soldiers at Vineland.

There were also present the following employees of Institutions:

Mr. Geo. T. Conkling, C. E., Sanatorium for Tuberculous Diseases.
Mr. Christian Winter, Carpenter, Sanatorium for Tuberculous Diseases.
Mr. W. Southe, Foreman Carpenter, State Hospital at Trenton.
Mr. William Hirst, Chief Engineer, State Hospital at Trenton.
Mr. Wm. H. Schultz, Steward, Village for Epileptics.
Mr. McLauthlin, Engineer, School for the Deaf, Trenton.
Mr. J. P. McCormick, Fiscal Agent, New Jersey State Prison.

There were present electricians from the following institutions:

State Hospital at Morris Plains, Sanatorium for Tuberculous Diseases.
State Hospital at Trenton, Institution for Feeble-Minded.

CHAIRMAN: If there is no objection, we will dispense with the reading of the minutes.

A motion will be in order to request the Committee to consider whatever standards you wish. Suppose you want to consider plumbing and steam-fitting.

MR. ATCHLEY: If satisfactory to you, I would like to have Mr. Bowen here with me on the steamfitting and plumbing and supplies and carpenter tools, etc., if someone else will take care of electrical supplies. If agreeable to you, I move that we get out our list of repair supplies and each one take a list and we will take it item by item.

The above motion being seconded and passed, Mr. McCormack and the electricians of the various institutions met to consider the standards of electrical supplies, while the Advisory Board and the remaining employes of institutions who were present took up the schedule of the State Village for Epileptics for the three months period.

The following standards were adopted:

Standard No.	E. V. S. No.	Article.
1	698	Auger Bits, Job T. Pugh, No. 1 Warranted, 2-16".
2	699	Auger Bits, Job T. Pugh, No. 1 Warranted, 3-16".
3	700	Brads, Wire. American Steel & Wire Co., sizes, etc., as specified on schedules.
4	711	Belt Lacings, Rawhide, Oiled, light yellow, Schierens, length and width as specified on the schedules.
5	712	Casters, Furniture, Lignum, Wheel, 4 to set.
6	715	Chisels, Buck Bros.
7	716	Clamps, Steel Bar, Stern & Co.'s, lengths and widths as specified on the schedules.
8	728	Files. Standard shall be Nicholson make. Sizes and kinds as specified on schedules.
9	763	Leather Belts, Extra Heavy, Single; sizes as shown on schedules.
10	778	Planes, Block; Bailey; number and sizes as shown on schedules.
11	779	Planes, Block; Sergeant & Co., numbers and sizes as specified on schedules.
12	816	Tacks. Penn Tack Co., sizes as specified on schedules.
13	829	Bit Stock Drills, 1/8".
14	830	Bit Stock Drills, 11-32".
15	831	Bit Stock Drills, 3-16".
16	832	Bit Stock Drills, 7-32".
17	833	Bit Stock Drills, 5-16".
18	834	Bit Stock Drills, 13-32".
19	838	Waste, White, No. 1, Estimated 100 lbs. to bale.
20	838 1/2	Waste, Mixed, No. 1, Estimated 100 lbs. to bale.
*Brushes.		
21	925	XXX Universal, 1" wide.
22	926	XXX Universal, 2" wide.
23	927	XXX Universal, 3" wide.
23	928	XXX Universal, 4 1/2" wide.
24	929	Frenches' Tip-Top Round Paint Brushes No. 103 1/2, extra long bristles, No. 10-0.
25	930	Frenches' Russia Wall, 4 1/2" wide.
26	931	Frenches' Crown Calcimine, 8" wide.
27	932	Frenches' Round Glue, No. 5.
28	934 to 943	Emery and Sand Paper, B. & A. Co.'s, number and sizes as specified on schedule.
29	937 1/2	Emery Cloth.

*On page 255 will be found specifications for brushes submitted by Dr. Weeks for consideration.

Plumbing Materials.

Standard E. V. S.

No.	No.	Article.
30	979 to 981	Flush Tank Washers, kinds and sizes as specified on schedules.

Pipe Fittings.

A motion by Dr. English that the set of rules formulated by the American Society of Mechanical Engineers in regard to pipe fittings be adopted as the correct standard in regard to sizes of pipe, taper of the thread, and weight of fittings was seconded and adopted.

A motion by Mr. Atchley that no standard of oil be adopted was seconded and adopted.

A motion by Mr. Atchley that the specifications for different photographic materials be accepted by the Purchasing Agent as presented by the different using agencies was seconded and adopted.

Standard E. V. S.

No.	No.	Article.	z
31	1138 to 1141 inclusive	Horseshoe Nails. It was moved that the "Crown" be adopted as the standard, which motion was passed.	
32	1158-1159	Horseshoes. "American Made" Shoes were adopted as the standards.	

A motion by Mr. Bowen that the Advisory Board suggest to the Purchasing Agent that everybody be allowed to purchase their own garden seeds was seconded and passed.

A similar motion in regard to flower seeds, bulbs and plants was seconded and passed.

Standard E. V. S.

No.	No.	Article.
33	955	Barnes Pipe Cutter (Plumbing Materials).

Building Materials.

34	668	Portland Cement.
----	-----	------------------

A motion was made, seconded and passed that King Windsor Plaster be adopted as the standard for Plaster.

DR. ENGLISH: I move that we submit the lists of two or three of the larger institutions to the Purchasing Agent for standards, and that the smaller institutions come as near this list in their ordering as is possible, and if we cannot get together, that the State Purchasing Agent be as liberal as possible during the first three months.

The motion was seconded, and passed by unanimous consent.

The following articles come under the motion above referred to:

Supplies.

Office Supplies,

Stationery,

Postage,

Dried Fruits. (Note—Dr. Chapin is going to make out list of Dried Fruits for next meeting.)

Fruits and Vegetables.
Eggs,
Meats and Lards,
Poultry,
Fish and Oysters,
Table Relishes,
Biscuits, Cakes and Crackers,
Nuts,
Candies,
Bread, Buns and Rolls.
Bedding,
Kitchen Utensils,
 Galvanized Iron Ware,
 Tin Ware,
Household Supplies,
Sewing Machine Parts,
Notions,
Shoes and Slippers,
Shoemakers' Supplies,
Hardware,
Paint Brushes,
Sand Papers, and Emery Papers,
Building Materials,
Pipe Fittings,
Electric Globes and Shades,
Electric Lamps,
Coal,
Greases and Oils,
Photographic Materials,
Clock Dials,
Blacksmith's Materials,
Garden Seeds,
Flower Seeds and Sundries,
Farm Supplies,
Feed and Grain,
Harness and Stable Supplies,
Sheet and Book Music and Supplies,
Medical and Surgical Supplies,
Dental Supplies,
School Supplies,
Broom Making Supplies and Materials,
Leather and Leather Making Materials,
Chemicals,
Printing Supplies,
Cigars, Tobacco, Cigarettes.

Materials.

Stove Repairs,
Heater Repairs,
Cane and Reed,
Repairs for Victoria Paring Machine.
Sewing Machine Parts and Accessories,
Notions,
Shoemaker's Supplies,
Building Materials,
Paints and Oils,

Crushed Trap Rock,
Blacksmith Materials,
Harness and Stable Supplies,
Farm Machinery Repairs.

Equipment.

Window Shades,
Stair Pads,
Building Materials,
Fruit Trees,
Medical and Surgical Supplies,
Farm Supplies,
Harness,
Farm Machinery and Tools,
Music and Supplies,
Books.

Dr. Hallowell reported that the name of the oil which she was asked to look up was "Flexible Compound," made by the Philadelphia Flexible Compound Company, and is used for polishing composition floors.

Dr. Weeks submitted the following specifications for Brushes for consideration:

WALL PAINT BRUSH.

No. 1—

ALL pure—Okatka Bristles—galvanized metal bands—polished handles $4\frac{1}{2}$ inches wide, $4\frac{3}{4}$ inches long, clear of bands.

VARNISH BRUSH.

No. 2—

X CHINESE.

Chiselled—Nickel bands—polished handles—pure black Chinese Bristles—1" wide, $1\frac{3}{4}$ " long clear of bands. No. 2 same as above only 2" long clear of bands.

VARNISHH BRUSH.

No. 3—

XXX CHINESE

Chiselled—nickel bands—polished handles, pure black Chinese bristles 1" wide—2" long clear of bands.

No. 3 same as above only—

2" wide— $2\frac{1}{2}$ " long clear of bands.

No. 3 same as above only—

3" wide—3" long clear of bands.

OVAL VARNISH OR PAINT BRUSHES.

No. 4—

Chiselled—nickel ferrules—Beaver tail handles, pure black Chinese bristles,—Bridled—

No. 8 $4\frac{3}{8}$ " long clear of ferrule—Solid Center

ROUND PAINT BRUSHES.

No. 5—

All pure white bristles—wire-bound—open center

No. 8/0— $5\frac{1}{2}$ " long clear of ferrules.

KALSOMINE BRUSH.

No. 6—

ALL pure Russian bristles—white outside—gray bristles in the middle—galvanized metal bands—plain white wood handles—8" wide—5½" long, clear of band.

PAINTERS' ROUND DUSTERS.

No. 7—

Pure white bristles outside—gray—Okatka bristles center—polished handles—length of bristles to be 4"—must be a good full practical duster.

OVAL SASH TOOLS.

No. 8—

XXX CHINESE.

Pure Chinese bristles—chiselled—seamless brass or seamless nickel ferrules—polished handles standard No. 2 size 1½" long clear of ferrule.

Standard No. 6 size—2" long clear of ferrule.

CONSIDERATION OF MINUTES OF AUGUST 21ST.

The following changes and additions to the minutes of August 21st were adopted:

Item No. 19 } To read "Silver Forks, Standard, stamped as indicated on sched-
Item No. 20 } ules.

Item No. 41—Change date from 1747 to 1847.

Mr. Atchley moved that Dr. English furnish specifications referred to in item No. 97.

Mr. Atchley moved that there be added to the minutes of August 21st the following item:

Item No. 247½—Men's Felt Boots with Perfection Overs for same.

Captain Drever moved that there be added to the minutes of August 21st the following item:

Item No. 148½—Swift's Blue Banner Soda.

The following item was also added:

Item No. 219½—Handkerchiefs, White, sizes and quality to be specified on schedules.

Item 219 was corrected to read: "Handkerchiefs, Turkey Red, must be guaranteed fast color, addition to list of August 21st.

Item 321½—T. D. Maurer's Roach Paste. ,

Dr. English moved that the Committees referred to in the minutes of August 21st be required to make reports at the next meeting.

Mr. Atchley reported that he was trying to get specifications on brooms.

Dr. English reported that his report on Butterine was not ready. He submitted the following specifications for blankets:

(To be known as Item 234½, August 21st.)

"Light gray blankets, 60 x 82, color gray as sample, weight not less than 2¼ lbs., to have not less than 34 threads of warp and 42 threads of filling to the inch, and to be equal in all respects, both as to quality and color, to our sample.

"Heavy blue blankets, 72" x 90", weight not less than 6½ lbs. to have not less than 37 threads of warp and 54 threads of filling to the inch, and to be equal in all respects, both as to color and quality, to our sample.

"Medium blue blankets, 60" x 82", weight not less than 5 lbs., to have not less than 37 threads of warp and 54 threads of filling to the inch, and to be equal in all respects, both as to color and quality, to our sample."

Captain Drever offered as an amendment to these specifications that they shall contain a provision that sizes, weights and colors as specified on the schedules be adopted.

A motion that the specifications be adopted as read and amended was seconded and passed.

Report of Committee to Standardize Electrical Supplies.

MR. McCORMACK: The Committee on Standardizing Electrical Supplies report that where there has been more than one catalogue number used—for instance, different institutions have used different catalogue numbers describing the materials they need—we have decided to use one catalogue number—the numbers of one catalogue on each list to be the Manhattan Electrical Supply Company, for the purpose of showing the Purchasing Agent just what material is intended and will be wanted. That does not mean that that particular material must be ordered, but it describes the kind of material that is needed for each institution, and where there are two or three different kinds of soldering paste used, for instance, or soldering wire, we have tried to eliminate all but one, and use one particular kind of soldering paste and one kind of soldering wire, and that same rule applies to many other things that we could make uniform.

THE CHAIRMAN: Whose schedule will be the guide for the tabulation of these items?

MR. McCORMACK: I might suggest that there are many more items on the Trenton Hospital and Morris Plains than there are on the State Prison. It happens that we did not need as many articles as other institutions, therefore their lists will be very much larger, so one of these might be taken as the schedule to be used. If special apparatus or special materials are needed, they will have to come out of specifications as presented by the using agency, described without a catalogue number, or furnished according to sample.

Upon motion duly made and seconded, the report of the Committee was accepted and its recommendations adopted.

THE CHAIRMAN: The Committees have adopted standards where they were in possession of sufficient detailed data to properly formulate them. In many instances and items this has been impossible, for want of necessary data and time. They therefore suggest that for this contract period the items not standardized be listed as they appear on the respective schedules, and that the basis for comparison of material, quality, etc., be the samples established by the various consuming agencies, as heretofore.

Mr. Atchley moved that a Committee of Three, with the Chairman ex officio, be appointed to standardize the items coming under the repair classification as shown on the Analysis of Expenses Sheet.

The motion was accepted and adopted, and the following were appointed as members of the Committee.

Committee to Standardize Items coming under Repair Classification as shown on the Analysis of Expenses Sheet.

The Chairman, ex officio,

Mr. S. T. Atchley,

Mr. O. M. Bowen,

Dr. M. A. Hallowell.

MR. ATCHLEY: I move that the motion by which the time for the next meeting was set for Monday morning next at 10:00 o'clock and every day thereafter, be reconsidered.

CHAIRMAN: The motion is on the original motion.

MR. ATCHLEY: I move to amend the motion, that the Committee meet at the call of the Purchasing Agent.

CHAIRMAN: The original motion having been defeated, the motion is that the next meeting be at the call of the Purchasing Agent.

The motion was seconded and adopted.

The committee then adjourned, to meet at the call of the Purchasing Agent.

**MINUTES OF MEETING OF ADVISORY BOARD UNDER THE
STATE PURCHASING ACT, HELD IN THE SENATE
CHAMBER ANTE-ROOM, STATE HOUSE, TRENTON,
N. J., SEPT. 1, 1916.**

Present: Dr. David F. Weeks, Chairman; Mr. John S. Neary, Secretary; Mrs. Eliz. V. H. Mansell, Dr. Hallowell, Mr. Shurts, Mr. Kilpatrick, Mr. Atchey, Mr. Bodine, Mr. Chandler, Mr. Bowen, Dr. Moore, Prof. Lipman, Dr. Chapin, Mr. Drever and Mr. J. J. Nevin, representing the State Comptroller.

The Advisory Board met at the above place and time, and the meeting was called to order by the Chairman.

Upon motion of Mr. Shurts, seconded by Mr. Bodine, the minutes of the meetings of the 24th and 25th of August were approved as written.

MR. ATCHLEY: I would suggest that we take these matters up in the form of this list on the analysis sheet.

THE CHAIRMAN: We offer this suggestion: that the form in making up the schedules in the future follow the form of the analysis sheet to facilitate the comparing of schedules.

We will now have the report of the special sub-committee who were to submit a report under the classification of repairs and so forth, bringing together the various items that are used in the three hospitals, and anyone else who wishes to add to them should do so now.

Whereupon the report of the committee as to the various items assigned to them was brought before the Board, discussed and adopted. The lists of standards so adopted are appended hereto, marked as per the following tabulation. Each group of items was separately discussed, and its adoption regularly moved, seconded and voted upon, no votes for rejection being cast as to any item.

BRICK.—A.

Brick, No. 1 common, straight hard, red.

Brick, No. 1, fire, 2½"x4½"x9", Mutton Hollow.

Brick, fire, Superior, Bull Nose.

Brick, pressed, face red.

Brick, range, Bramhall, Deane & Co., No. H A

Brick, range, Bramhall, Deane & Co., No. F

Brick, range, Bramhall, Deane & Co., No. G

Brick, range, V. Clad & Sons, No. 2 and No. 3.

Brick, range (French), Duparquet, Huot, & Moneuse, No. 2 and 3.

Brick, range, with water-back in front for Richardson & Boynton Range B. A. Perfect, 5 D.O-2.

Brick, fire, without water-back for Richardson & Boynton Range, Perfect 6X D.O-3.

Brick, End

Brick, L. H., Side } For Richardson & Boynton Range, Perfect No. 169.

Brick R. H., Side }

Brick without water-back, for Richardson & Boynton Range, American top, Perfect 6 D.O-2.

Brick, without water-back, for Richardson & Boynton, Perfect Range No. 5.

Brick with water-back for Bramhall, Deane Company's Range H. A.

Brick for Dougherty Range, No. 4.

Brick without water-back, for Dougherty Range No. 6.

Brick R. H. Side

Brick L. H. Side } For J. L. Mott's Defiance Range No. 9, 1893.

Brick without water-back.

Fire Clay

ELECTRICAL SUPPLIES.—B.

Adjusters, cord, Manhattan Elec. Supply Co., Cat. No. 9093.

Attachment Plugs, Hubbel, No. 5493.

Batteries, Red Seal, No. 2445.

Batteries, Dry, Blue Bell Cells, regular, Fahnesstock Clips, No. 340393.

Battery Supplies for Samson Battery:

Depolarizing compound, No. 1.

Depolarizing compound, No. 2.

Rubber rings, No. 1.

Rubber Rings, No. 2.

Zincs, No. 2.

Bells, Peerless Skeleton 2½", No. 2080.

Bell transformer, Pittsburgh.

Buttons, hard rubber, push.

Buttons, push, wrought bronze loose back, No. 360411.

Boxes, Bossot, 4" square, galvanized.

Boxes, Bossot, 4" diameter, galvanized, with ½" knockouts.

Boxes, Bossot, 3" diameter, galvanized.

Boxes, Bossot, 3¼" octagon, galvanized.

Boxes, junction, 8"x6", Manhattan Elec. Supply Co., Cat. No. 19980.

Boxes, junction, 10" x 10" x 6", Manhattan Elec. Supply Co., Cat. No. 19982.

Agricultural Lime

On motion of Mr. Atchley, seconded by Mr. Bodine, it was decided that the Board request Professor Lipman to furnish the specification for agricultural lime.

Portland Cement.

On motion of Dr. Moore, seconded by Mr. Atchley, the following specification for Portland cement was adopted:

"Portland Cement conforming to the standard specification adopted by the American Society for Testing Materials."

Sundries.

..... Regularly moved and seconded that the special items that all must have shall be included in the various schedules.

REPORTS.

Committee on Brushes.

Mr. Neary submitted his report on brushes, and the following specifications were adopted by the Board:

Hoof Brushes: Solid hardwood back, 9½" long, 2½" wide, side of back grooved for hand hold.

Materials, best quality of vegetable fibre, 1⅞" out, 38 holes on outside well fastened and well filled and fastened in center, making a good substantial brush.

Goods delivered must equal samples furnished by State Purchasing Agent.

HAIR BRUSHES: Back of solid hardwood.

Hand-drawn pure bristle, 11 rows.

Length over all on back $9\frac{1}{2}$ ".

Brush part on face $5\frac{1}{4}$ " x 3".

Bristles $\frac{3}{4}$ " out.

Goods delivered must equal samples furnished by State Purchasing Agent.

Blankets.

Dr. Hallowell reported on blankets and submitted the following specification which was adopted:

Blankets, white, color of border as specified, 60 x 82 inches, weight 4 lbs., white wool filling and cotton warp. "Physician's Favorite."

Brooms.

Mr. Atchley reported on brooms, and submitted the following specification, which was adopted:

No. 6 Parlor Broom, first grade, 24 lbs. to the dozen. Five sewed. Length of brush about $14\frac{1}{2}$ inches from neck to the end of the broom. Length of handle about 38 inches from the neck of the broom. Finish of broom, wire spiral finish. Galvanized steel wire. Hardwood handle of regular size for No. 6 Broom.

Mr. Chandler to furnish specification for No. 7 broom.

Dr. Moore to furnish specification for rattan filled broom.

Coffee.

MR. ATCHLEY: The report of the Coffee Committee is this: That we buy Rio, Santos and Maracaibo, either roasted or green, blended or unblended, as specified on the individual schedules; that we buy chicory, either imported or American, the blend or mixture to be prescribed or made by the various using agencies.

Upon regular motion, seconded, this was adopted as the coffee standard.

MR. SHURTS: Upon the direction of the motion adopted on August 21st which authorized me to submit my specification for coffee used at the State Prison, I submit the following, and ask that it be added to the list of standards:

"30% Rio, 35% chickery, 35% cereal."

Whereupon the above was duly adopted as an additional specification on coffee.

Other Items Added to List of Standards:

The following items, upon motion duly made, seconded and passed, were added to the list of standards:

Schumacher's Dairy Feed: Protein not less than 10%, fat not less than $3\frac{1}{4}$ %, fibre not more than 10%.

Hominy, protein not less than $3\frac{1}{4}$ %, fat not less than $3\frac{3}{4}$ %, fibre not more than $3\frac{1}{2}$ %.

Milk cans. Milk cans to be made of highest grade sheet steel plate, rivet holes pounded, tinned and retinned. Entire can to be tinned both inside and out. To have all seams floated flush with high grade solder, handles securely held by rivets, rivets securely soldered, the bottom hoops reinforced and cans to be made of heavy weight

material securely riveted, material not less than 20 gauge. To be fitted with umbrella top lid, flanges on the lid neat fitting to prevent slop. In sizes to be specified.

Jams: Blackberries, Raspberry, Gooseberries, Plum, Grape.

Jelly: Plum, Currant.

Canned fruits and vegetables: Blackberries, Pears (Bartlett), Pineapples, Plums (Green Gage), Peaches, L. C. sliced, Asparagus (whole), Peas (sifted early June), Apricots, Corn, Apples, Beans (cut wax), Beets (small,) Raspberries, Tomatoes, Lima Beans (green), cherries (Royal Ann), Rhubarb, Huckleberries, Strawberries.

Extracts: Lemon, Vanilla, Almond (Mr. Henry to furnish spec.).

Administration Expenses, Office Supplies, Etc.

DR. MOORE: I move that the Advisory Board take no action on standardizing administration expenses, office supplies, etc., understanding that the Purchasing Agent has the matter in hand to take up with the Prison Labor Commission.

DR. CHAPIN: I second that motion.

Whereupon the motion was duly placed before the Board and passed.

Text Books, School Supplies, Etc.

DR. CHAPIN: The Educational Committee reports that it finds it impossible to standardize text books and school supplies, and I move that this be the sense of this Board.

MR. NEARY: I second that motion.

Whereupon the motion was placed before the Board and passed.

Fertilizer, Vines, Hay and Grain, Trees and Shrubby.

MR. ATCHLEY: I move that the specifications submitted by Professor Lipman be adopted.

MR. BODINE: Second the motion.

Whereupon the motion was placed before the Board and passed.

Heat, Light and Power.

MR. NEARY: I move that anthracite and bituminous coal be referred to the Purchasing Agent.

MR. BODINE: Second the motion.

Whereupon the motion was placed before the Board and passed.

RECESS.

Mr. Nevin addressed the Board on the matter of securing samples for the various items referred to the Purchasing Agent, and also on the subject of materials, supplies, etc., under the Budgeting Act.

MR. ATCHLEY: I move that the Purchasing Agent be requested to make arrangements with the express companies for the delivery of goods in the cities in which the institutions are located.

MR. NEARY: Second the motion.

Whereupon the motion was placed before the Board and passed.

MR. ATCHLEY: I move that the items on the various schedules, for which standards have not been adopted, be listed for advertising and that reference be made to the sample if there be one.

MR. NEARY: Second the motion.

Whereupon the motion was placed before the Board and passed.

Samples: After discussion, it was moved and seconded that the Chairman appoint a committee to standardize the samples to be secured by the Purchasing Agent. This motion was placed before the Board and passed, and the Chairman appointed Dr. Hallowell, Mr. Bodine, Mr. Drever, Mr. Atchley, Mr. Neary and Mr. Shurts. This committee withdrew and elected Mr. Atchley chairman and Mr. Neary secretary.

The Advisory Board then adjourned to meet at the call of the Purchasing Agent.

MEETING OF THE ADVISORY BOARD UNDER THE STATE PUR-
CHASING ACT OF 1916, HELD IN THE OFFICE OF THE
COMPTROLLER, STATE HOUSE, TRENTON,
N. J., SEPTEMBER 27, 1916.

PRESENT—Dr. David F. Weeks, Chairman; Mr. John S. Neary, Secretary; Mr. Samuel T. Atchley, Miss Dorothy P. Godfrey, Dr. Frank Moore, Mr. J. Frank Macomber, Mr. W. R. Valentine, Mr. Wm. H. Schultz; Prof. E. H. Loomis, Dr. S. B. English, Mrs. Isabel VanderBurgh, Prof. Jacob E. Lipman, Dr. Madeline A. Hallowell, Mr. Jacob Shurts, Mr. Walter M. Kilpatrick, Mr. George C. Chandler, Capt. John W. Bodine, Mr. J. H. Cumberly, Mr. O. M. Bowen.

The Advisory Board met at ten o'clock with Dr. Weeks in the Chair, in response to a call issued by the State Purchasing Agent, Mr. E. E. Grosscup. Mr. Nevin, representing Mr. Grosscup, who had been called away, explained that the standards which had been adopted at the preceding meetings of the Advisory Board had been analyzed and comparee with the applications of the divisions of the government; that there were certain differences between the applications and the standards adopted; that some of the standards did not seem to be specific enough, and a list of them had been tabulated under each division of the applications and were referred back to the Board for adjustment. The Chair then proceeded to take up each of the articles from lists supplied him by the Purchasing Department.

The order and action of the meeting was as follows:

The first list to be taken up was that of

TABLE SUPPLIES.

- Allspice—(Discussion.) Motion adopted that the U. S. Government specifications on all kinds of spices be adopted, as listed in Class 10, Item 1000.
- Apples—(Discussion.) Motion adopted that apples be purchased in the open market, and that they be classified with the items to be purchased in the open market.
- Apricots—(Discussion.) Motion adopted that the standard for canned apricots be as follows: Canned, extra standard, No. 2½ cans, two dozen cans to the case; price per dozen.
- Apricots, Evaporated—(Discussion.) Motion adopted that the U. S. Government standard for evaporated apricots, as shown in Class 10, Item 1002, be adopted.
- Bacon—(Discussion.) Motion adopted that the U. S. Government standard for bacon, Class 10, Item 10,300 (two kinds), be used.
- Barley—(Discussion.) Motion adopted that the U. S. Government standard under Class 10, Item 10,012, be used.
- Bread—(Discussion.) Motion adopted that the unit on which bread is to be purchased shall be by the pound.
- Butterine and Butter Substitutes—(Discussion.) Motion adopted that bids be received on butterine, oleomargerine or other butter substitutes on the first quality, the bidders to be required to submit samples bearing the brand or trade name. and that each container, as delivered, be stamped with the brand.

- Apple Butter—(Discussion.) Motion adopted that bids on apple butter be requested on a unit of ten and fifty pound pails, and that the U. S. standard under Class 10, Item 10,004, be adopted as a standard.
- Cabbage—(Discussion.) Motion adopted that the standard on which bids shall be received for cabbage to be Head Cabbage; unit on which bids are to be received to be by pound.
